### Key Rating Drivers

#### Strengths

- Established track record of operations and experienced management**

The promoters, Mr. Pankaj Seth and Mrs. Meera Seth have more than a decade of experience in the plastic industry. The RK group benefits from its long track record of operations and relations it has been able to forge with customers and suppliers.

- Average financial risk profile**

The RK group has average financial risk profile marked by networth of Rs.15.38 crore as on 31 March, 2016 compared to Rs.14.63 crore as on 31 March 2015. The gearing of the group stood at 2.25 times as on 31 March 2016 as against 2.08 times as on 31 March, 2015. The interest coverage ratio stood at 1.54 times for FY2015-16 compared to 1.75 times in FY2014-15.

- Reputed customer base**

The RK Group has a reputed customer base which includes oil and paint companies such as Hindustan Petroleum, Indian Oil Corporation Ltd, Gulf Oil, Total Oil India Pvt Ltd to name a few. The orders are tender based with inbuilt price escalation clause that protects the margins of the group.

#### Weaknesses

- Working capital intensive operations**

The RK group's working capital cycle increased from 146 days to 173 days. The inventory holding increased considerably. The operations are working capital intensive. Consequently, RK group's average utilisation of working capital limit has been high at 95 per cent. The GCA days stood at 215 in FY2015-16 on account of high inventory days of 176.

- Susceptibility of revenues and profits to volatility in raw material prices**

The operating margins are susceptible to movement in raw material prices which are linked to fluctuations in crude prices. The group has been able to maintain the operating margins in the past

three years.

### Analytical Approach

SMERA has consolidated the business and financial risk profiles of Yash Plastomet Private Limited and R. K. Metals & Plastic Private Limited, together referred to as the RK Group. The consolidation is in view of the common ownership and similarity in the business models of the entities apart from strong operational linkages.

### Outlook: Stable

SMERA believes that the RK group will maintain a stable outlook over the medium term owing to its established track record of operations and experienced management. The outlook may be revised to 'Positive' in case of substantial increase in scale of operations while achieving better profit margins. Conversely, the outlook may be revised to 'Negative' in case of failure in achieving the projected scalability in revenues amidst intensifying competition in its area of operations or deterioration in the financial risk profile on account of higher-than-expected increase in debt-funded working capital requirements.

### About the Group

The RK Group comprises two entities viz. R. K. Metal & Plastic Private Limited (incorporated in 1998) and Yash Plastomet Private Limited (incorporated in 2000). The group is engaged in the manufacture of injection moulded plastic containers used in the packaging of paints, lubricants and oil.
