<b>Short Term Rating</b>	SMERA A1

\* Refer Annexure for details

#### Rating Rationale

SMERA has reaffirmed the long-term rating of '**SMERA A**' (**read as SMERA A**) and short term rating of '**SMERA A1**' (**read as SMERA A one**) on the Rs. 85.00 crore bank facilities of MOHAN CLOTHING COMPANY PRIVATE LIMITED (MCCPL). The outlook is '**Stable**'.

Incorporated in 1991, MCCPL is a Haryana-based company incorporated by Mr. Mohan and family. The company is engaged in the manufacture of men's apparels under the brand name '*Blackberrys*'. Its clothing line includes formals, casuals, party wear among others. The company has an annual manufacturing capacity of 37.5 lakh pieces of suits, trousers and shirts with current utilisation of about 80 percent.

#### Key Rating Drivers

##### Strengths

###### • Established track record of operations and brand image

MCCPL was incorporated in 1991. The company has an established track record of more than two decades with the manufacturing unit located at Haryana. 'Blackberry' is considered to be one of the established apparel brands for men. The Directors, Mr. Rajendra Mohan, Mr. Nikhil Mohan and Mr. Nitin Mohan were the founding members followed by Mr. Nakul Mohan who joined in 2007. The Directors have experience of more than two decades in the textile industry. SMERA believes that MCCPL will benefit owing to the established brand image and extensive experience of the promoters in the industry.

###### • Healthy business risk profile supported by robust distribution network

MCCPL's business risk profile is supported by its established 'Blackberry's' brand in the formal men's clothing segment. The operating income has grown at a compounded annual growth rate (CAGR) of 9 per cent over the last four years to Rs. 695.85 crore ended FY2017. This is in contrast to Rs.543.70 crore in FY2013-14 owing to increase in channel partners. The company has a robust distribution network and includes the 180 Exclusive brand outlets (EBO), 1200 plus Multi brand outlets (MBO), large format retailers such as Shoppers Stop, Lifestyle, Pantaloons etc. Additionally, it also includes E-commerce platforms Jabong, Myntra and Amazon apart from the company website. In 2017, the company set up approximately 65 Fully Owned Franchise Outlets (FOFO). MCPL's margins have been stagnant during the period under study due to the competitive nature of the retail business.

SMERA believes that MCCPL will maintain a healthy business risk profile over the near to medium term.

##### Healthy financial risk profile

MCPL has healthy financial risk profile marked by net worth of Rs. 233.63 crore as on 31 March, 2017 as against Rs. 201.56 crore as on 31 March 2016. The gearing stood comfortable at 0.05 times as on 31 March, 2017 as against 0.11 times as on 31 March, 2016. The total debt of Rs. 12.81 crore comprises Rs. 6.87 crore of term loan from banks and working capital borrowings of Rs. 5.93 crore as on 31 March, 2017. The company has working capital limit of Rs.40.00 crore. The Interest Coverage ratio stood at 6.72 times in

FY2017. The Debt Service Coverage Ratio stood at 4.35 times in FY2017. The net cash accruals stood healthy at Rs. 45.90 crore against debt obligation of 2.04 crore in FY2017.

SMERA believes that the company will maintain a comfortable financial risk profile on the back of strong liquidity position and limited dependence on banks for funding.

## Weaknesses

- **Working capital intensive operations**

MCCPL has working capital intensive operations mainly due to the retail nature of business. The company needs to maintain high inventory for smooth functioning of the value chain. The Gross Current Assets (GCA) stood at 151 days as on 31 March, 2017 as against 157 days in the previous year. This is mainly due to the high inventory holding of 103 days as on 31 March, 2017 as against 121 days in the previous year. The company has debtors of 52 days as on 31 March, 2017 as against 41 days as on 31 March, 2016. The company gets extended credit period from its suppliers of ~100 days which moderates its working capital limits.

- **Intense competition**

The company is exposed to intense competition in the Indian apparel industry from organised and unorganised players. However, MCCPL's established position in the industry along with its strong brand image mitigates the risk.

## Analytical Approach

SMERA has considered the standalone business and financial risk profile of Mohan Clothing Company Private Limited to arrive at the rating.

## Outlook: Stable

SMERA believes that MCCPL will maintain a stable outlook over the medium term owing to its experienced management, established brand name and robust distribution network. The outlook may be revised to 'Positive' in case of significant improvement in its business risk profile without impacting the financial risk profile. Conversely, the outlook may be revised to 'Negative' in case of decline in the financial risk profile or significant elongation in working capital cycle.
