Rating Rationale

Acuite has reaffirmed its long-term rating of '**ACUITE AA**' (read as **ACUITE double A**) on the Rs. 6750.00 Cr. Bank loan facilities including Proposed Bank Loan facilities of MAS Financial Services Limited (MFSL). The outlook is '**Stable**'.

Acuite has reaffirmed its long-term rating to '**ACUITE AA**' (read as **ACUITE double A**) on the Rs. 350.00 Cr. Non-Convertible debenture of MAS Financial Services Limited (MFSL). The outlook is '**Stable**'.

Acuite has reaffirmed its short-term rating of '**ACUITE A1+**' (read as **ACUITE A one plus**) on the Rs. 300.00 Cr. Proposed Commercial Paper Programme of MAS Financial Services Limited (MFSL).

Rationale for the rating:

The rating reaffirmation takes into consideration the sustained growth in AUM, improvement in earning profile and healthy capitalisation levels. The AUM of the group increased to Rs. 12867.91 Cr. as on March 31, 2025 as against Rs. 10,721.90 Cr. as on March 31, 2024 (Rs. 8506 Cr. as on March 31, 2023). At a consolidated level, the group's Profit after Tax (PAT) grew at Rs. 313.98 Cr as on March 31, 2025 as against Rs. 254.01 Cr. as on March 31, 2024 (Rs 205.82 Cr. as on March 31, 2023). The CAR improved to 24.72 percent as on March 31, 2025 as against 24.05 percent as on March 31, 2024. The rating further factors in the strong resource raising ability and liquidity buffers. The group has funding relationships with Banks and Financial Institutions with a lender base of over 40 lenders and well diversified resource profile. Additionally, the company maintains healthy liquidity in the form of sufficient cash and bank balance and unutilized lines to meet its funding requirements. The rating is however constrained by the scale of operations and high portfolio concentration in three states comprising ~59 percent of the AUM as on March 31, 2025. The rating further remains constrained on account of concentration in its Retail Asset Channel (RAC) portfolio. Under the retail portfolio, the group has exposure to Micro enterprise loans (~20.96 percent as on March 31, 2025). The inherent risk of large ticket size lending under the RAC portfolio and any deterioration in credit profile of borrowers under the micro enterprise portfolio continues to remain a key rating monitorable. Going forward, the ability of the group to profitably scale-up its operations while maintaining healthy asset quality will be key monitorable.

Analytical Approach

Extent of Consolidation

• Full Consolidation

Rationale for Consolidation or Parent / Group / Govt. Support

Acuité has consolidated the business and financial risk profiles of MFSL, MRHMFL and the company's subsidiary MASFIN Insurance Broking Private Limited (MFIBL) (Hereinafter referred to as 'MAS Group') for arriving at the rating. The consolidation is in view of common promoters and management, integrated businesses, shared brand name, and significant operational and financial linkages between these entities.

Key Rating Drivers

Strength

Established presence in MSME lending through an extensive branch network and partnerships with other players.

MFSL, the group's flagship company, commenced operations in 1995 by extending credit to Micro, Small and Medium Enterprises (MSMEs) and two-wheeler financing. The group gradually expanded its geographical reach to other states beyond Gujarat and diversified its product portfolio to include Commercial Vehicle Loans including used car loans and tractor loans. Established in 2008, MRHMFL, a subsidiary of MFSL, has a presence in housing, commercial and project loans with a focus on affordable housing segment. Presently, MAS group's operations are spread over thirteen states and the group operates through a network of 206 branches. MAS group also has established relationships with dealers and intermediaries for supporting their forays in commercial vehicle and two-wheeler segments. Besides direct lending to MSME and CV segment, the Group lends to NBFCs and MFIs for onward lending to the above segments. The operations of the group are headed by Mr. Kamlesh Gandhi (Founder, Chairman and Managing Director), who has over three decades of experience in the financial services sector. He is supported by team of professionals with significant experience in various functional areas. The group's Asset under Management has improved to Rs. 12,867.91 Cr. as on March 31, 2025 as against Rs. 10,721.90 Cr. as on March 31, 2024. (Rs. 8,506 Cr. as on March 31, 2023). Acuité believes that MAS Group's business profile will continue to benefit from the established presence in the retail and MSME segment across diverse product categories, backed by strong managerial support and established distribution network/partnership arrangements with various NBFCs.

Healthy capitalization levels; Business model based on regular sell downs expected to sustain the healthy capital buffers.

The philosophy of MAS group to sell down a portion of its originated loans on a regular basis helps in managing its liquidity, profitability and also its capital requirements. Since a part of the portfolio is assigned on a regular basis, the growth in the on-book portfolio is limited, thereby keeping its capital and debt requirements relatively moderate. As on June 30, 2025, direct assignment transactions (incl. co-lending) comprised 21.16 percent of the overall liability profile of the group. The healthy performance of the past pools over a period has enabled the company to regularly raise funds through this route from various banks. The continued appetite for the group's pools reflects the confidence, the bankers (buyers of pool) have in the group's underwriting and monitoring standards. Acuité believes that MAS group has demonstrated the resilience to grow across various business cycles and will be able to sustain its financial position on the back of its healthy capitalization buffers and maintaining a prudent capital structure.

Strong resource raising ability and diversified funding profile

MAS group has established relationships with over 40 lenders; public and private sector bank and financial institutions, some of these banks engage in both lending via bank borrowings and purchase of pools i.e. direct assignment transactions. MFSL's on book exposures comprises of loans qualify for priority sector lending, which has high acceptability among banks for direct assignment transactions. The funding mix (based on AUM) comprises of bank borrowings (term loans and cash credit limits) along with resources raised through direct

assignment transactions. As on June 30, 2025, the funding mix comprised direct assignment funding of 21 percent (including co-lending), cash credit of 10 percent, term loan of 52 percent, non-convertible debentures of 14 percent and subordinated debt of 3 percent. Acuité expects the group to continue to benefit from diversified funding mix and the Group's ability to raise resources from various banks and financial institutions.

Stable financial performance

At a consolidated level, the group's Profit after Tax (PAT) grew at Rs. 313.98 Cr as on March 31, 2025 as against Rs. 254.01 Cr. as on March 31, 2024 (Rs 205.82 Cr. as on March 31, 2023). The group has maintained stable profitability despite increase in its operating expenses led by increase in its branch network. The operating expenses of the group as a percentage of its earning assets increased to 2.69 percent in FY25 as against 2.44 percent in FY24. The profitability continues to be healthy as reflected in the Return on Average Assets (ROAA) of 2.89 percent and Net Interest Margin (NIM) of 6.27 percent for FY25. Acuité expects the Group to sustain improvement in earning's profile in the current operating environment.

Weakness

Significant exposure to NBFC loans; susceptible to asset quality moderation.

MAS group has high exposure to segments such as NBFCs and MFIs (also referred to as RAC) and MSME's. The group's exposure to NBFCs and MFIs as a proportion to the overall AUM was ~36 percent as on Mar 31, 2025. MAS group has a policy of lending to NBFCs and MFIs for onward lending towards loans to MSME segment, Commercial Vehicle and Two Wheelers loans i.e. segments in which MAS group has its presence and the dynamics of which is understood by these NBFCs/MFIs. Notwithstanding the controls and the monitoring practices adopted by MAS in this segment, the group remains exposed to the risks inherent in large ticket lending, since most of the borrowers are typically small to medium size NBFCs (asset size less than Rs. 500 Cr.), where the track record is yet to be fully established. The group also engages in partnership agreements with various NBFCs out of which some are backed by FLDG. These NBFCs do the sourcing, monitoring and servicing of the loans for MAS.

ESG Factors Relevant for Rating

MFSL belongs to the NBFC sector which complements bank lending in India. Some of the material governance issues for the financial services sector are policies and practices with regard to business ethics, board diversity and independence, compensation structure for board and KMPs, role of the audit committee and shareholders' rights. On the social aspect, some of the critical issues for the sector are the contributions to financial inclusion and social development, responsible financing including environmentally friendly projects and policies around data privacy. The industry, by nature has a low exposure to environmental risks. MFSL offers financial services for Micro Enterprises Loans, SME Loans, Home Loans, Two-Wheeler Loans, Used Car Loans, and Commercial Vehicle Loans to satisfy their varied needs. The company primarily focuses on the vast lower income and middle-income groups of the society, spread across urban, semi urban, and rural areas, and including formal and informal sector. They are leveraging on the distribution network of partner MF/NBFCs/HFCs/franchisees, thus extending financial services to the underpenetrated states and the BOP segment. It is important for MFSL to assess the sustainability factors mainly related to environment, social and corporate governance practices for its lending portfolio. It has a well-articulated CSR policy, aiming to support the advancement of education, to provide access to healthcare and other health initiatives/projects for the less privileged. The Company prefers to make contributions to the local area and areas around it where it operates, for spending the amount earmarked for CSR activities. It is the company's continuous endeavour to increase its CSR impact and spend over the coming years, supplemented with continued focus towards rural development, promoting health and sanitation. The company has a well-placed grievance redressal mechanism; it has made adequate disclosures related to board and management compensation and outlines the policies related to diversity and ethical business practices in its code of conduct. The company's board comprises of five independent directors out of total seven directors which includes two female directors.

Note on complexity levels of the rated instrument

In order to inform the investors about complexity of instruments, Acuite has categorized such instruments in three levels: Simple, Complex and Highly Complex. Acuite's categorisation of the instruments across the three categories is based on factors like variability of the returns to the investors, uncertainty in cash flow patterns, number of counterparties and general understanding of the instrument by the market. It has to be understood that complexity is different from credit risk and even an instrument categorized as 'Simple' can carry high levels of risk.
