\* Refer Annexure for details

### Rating Rationale

Acuité has reaffirmed the long term rating of '**ACUITE B**' (**read as ACUITE B plus**) and short term rating of '**ACUITE A4**' (**read as ACUITE A four**) on Rs.8.75 crore bank facilities of NEELACHAL ORGANIZATION PVT LIMITED (NOPL). The outlook is '**Stable**'.

NOPL is a Kolkata-based company engaged in trading of plywood and timber since 1968. NOPL is currently engaged in manufacturing of paper laminations on particle and MDF boards with installed capacity of 1500 pieces per day for 300 working days.

### Analytical Approach

Acuité has considered standalone business and financial risk profile of NOPL to arrive at the rating.

### Key Rating Drivers

#### Strengths

- **Experienced management**

The company is promoted by Mr. Ram Lal Agarwala, Mr. Manish Jajodia and Mr. Bikash Jajodia. The promoters have around six years of experience in manufacturing of lamination work prior to which they were involved in trading. Acuité believes that the promoter's business experience would improve the company's revenue profile and establish successful relationship with its customers over the medium term.

#### Weaknesses

- **Modest scale of operations**

The company's revenues have increased in FY2018 to Rs. 23.17 crore as against Rs. 19.63 crore in FY2017 and Rs. 14.63 crore in FY2016 and thereby achieving a compounded annual growth rate (CAGR) of 16.56% from FY2016 to FY2018 mainly due to favourable market demand. The company has achieved revenue of Rs. 21.05 crore in FY2019 (provisional) due to highly competitive prices provided by competitors.

- **Moderate financial risk profile**

The financial risk profile of the company has remained modest owing to low net worth, high gearing and average debt protection metrics. The net worth of the company has improved but still stood low at Rs. 1.76 crore in FY2018 compared to Rs. 1.61 crore in FY2017. The increase in net worth is on account of accretion to reserves. The gearing has improved yet stood high at 2.97 times in FY2018 as compared to 3.28 times in FY2017. TOL/TNW stood high at 4.91 times as on March 31, 2018 as compared to 4.42 times as on March 31, 2017. The total debt of Rs. 5.21 crore in March 31, 2018 consists of long term debt of Rs. 0.21 crore, unsecured loan of Rs. 1.11 crore that is not subordinated to bank and short term debt of Rs. 3.90 crore. The interest coverage ratio and DSCR stood modest at 1.70 times and 1.61 times in March 31, 2018 compared to 1.55 times and 1.48 times in March 31, 2017 respectively. NCA/TD stood at 0.08 times in FY2018.

• **Moderate working capital nature of operations**

The company's working capital operations are intensive marked by Gross Current Asset (GCA) of 118 days in FY2018 compared to 114 days in FY2017. The GCA days are dominated mainly on account of inventory days of 73 days in FY2018 compared to 55 days in FY2017 and around 68 days in FY2019 (Prov.), mainly because of procurement of raw materials, i.e. imports from Thailand, Malaysia and several others. The debtor days stood at 31 days in FY2018 compared to 37 days in FY2017 and around 42 days in FY2019 (Prov.), majorly because of quick realisation of receivables from majority of customers. The working capital intensity is further reflected from the bank limit utilisation of 90 percent of its working capital facilities.

**Liquidity Position:**

NOPL's liquidity profile is moderate marked by modest net cash accruals as against its maturing debt obligations. The company generated cash accruals of Rs. 0.35-0.53 crore during the last three years through 2016-18, while its maturing debt obligations were in the range of Rs. 0.17-0.34 crore over the same period. The bank limit of the company remains utilised at 90 percent during the last six months ended June, 2019. The company maintains unencumbered cash and bank balances of Rs. 0.12 crore as on March 31, 2018. The current ratio of the company stood modest at 1.15 times as on March 31, 2018. Acuité believes that the liquidity of the company is likely to remain moderate over the medium term on account of modest cash accrual against repayments over the medium term.

**Outlook: Stable**

Acuité believes that NOPL will maintain a 'Stable' business risk profile over the medium term. The company will continue to benefit from its experienced management. The outlook may be revised to 'Positive' in case the company registers strong growth in the scale of operations while improving its financial risk profile. The outlook may be revised to 'Negative' in case of deterioration in the company's financial risk profile on account of higher-than-expected increase in debt-funded capital expenditure and working capital requirements.
