### MIRA CONSTRUCTION

July 24, 2018

### Rating Reaffirmed

<b>Total Bank Facilities Rated*</b>	Rs. 17.00 Cr.
<b>Long Term Rating</b>	ACUITE BB- / Outlook: Stable
<b>Short Term Rating</b>	ACUITE A4+

\* Refer Annexure for details

### Rating Rationale

Acuite has reaffirmed long-term rating of '**ACUITE BB-**' (read as **ACUITE BB minus**) and short term rating of '**ACUITE A4+**' (read as **ACUITE A four plus**) on the Rs.17.00 crore bank facilities of Mira Construction. The outlook is '**Stable**'.

Mira Construction is a Mumbai-based partnership firm established in 1984. The firm is engaged in civil construction work for the Municipal Corporation of Greater Mumbai. It undertakes repair & upgradation work of schools, hospital, roads, drains and gardens among others. The operations of the firm are tender based in nature.

### Key Rating Drivers

#### Strengths

- **Experienced Partners and established track record of operations**

The firm was established in 1984 and is in the same line of business since inception. Mr. Hitesh Mehta, the Managing Partner has around two decades of experience in civil construction industry. The other Partner, Mr. Bhavesh Madhani has around a decade experience in the same line of business.

- **Moderate financial risk profile**

The financial risk profile of the firm continues to remain moderate which is marked by net worth of Rs.11.28 crore as on 31 March, 2018 (Provisional). The gearing ratio (debt to equity) stood comfortable at of 0.20 times as on 31 March, 2018 (Provisional) as compared to 0.07 times in the previous year. The interest coverage ratio stood at 2.72 times in FY2018 (Provisional) and 3.06 times in FY2017. For arriving at the gearing, interest bearing unsecured loan of Rs.11.28 crore as on 31 March, 2018 (Provisional) from partners has been considered as a part of equity (same is subordinated to bank debt).

- **Modest order book position**

The firm has unexecuted order book position of Rs.44.00 crore as on 30 June, 2018. The same is to be executed and completed in next three years, thereby providing revenue visibility over the medium term.

#### Weaknesses

- **Modest scale of operations**

The firm is in the same line of business since 1984, but its operations continue to remain modest marked by operating revenue of Rs.32.84 crore for FY2017 which has declined to Rs.22.75 crore in FY2018 (provisional). The decline in operating income is marked by tender based nature of operation which is vulnerable to order cyclicity.

#### • Working capital intensive

The operations of the firm are working capital intensive in nature marked by high Gross Current Asset days of 276 for FY2018 (Provisional) which has increased from 230 days in FY2017. However, the firm has comfortable liquidity position with average cash credit limit utilisation at 26.83 percent for last six month ending June 2018.

#### • Risk of capital withdrawal

The firm is exposed to inherent risk of capital withdrawal on account of partnership constitution. The same can be seen through withdrawal in partner's capital in the current year.

#### • High competition

The firm is exposed to high competition from presence of large number of players in the civil construction industry.

### Analytical Approach

Acuite has considered the standalone business and financial risk profiles of the firm for arriving at the rating.

### Outlook: Stable

Acuite believes that the firm will maintain 'Stable' outlook over the medium term on account of its experienced partners and established track record. The outlook may be revised to expanding its scale of operations while maintaining a comfortable liquidity position and satisfactory capital structure. Conversely, the outlook may be revised to 'Negative' in case of deterioration in the capital structure and liquidity position.
