

Press Release

Future Retail Limited

August 20, 2020

Rating Downgraded

Instruments Rated*	Rs. 1400.00 Cr
Short Term Rating	ACUITE A4 (Downgraded)
Instruments Rated*	Rs. 200.00 Cr
Long Term Rating	ACUITE C (Downgraded)
Instruments Rated*	Rs. 150.00 Cr
Long Term Rating	ACUITE C (Downgraded)

* Refer Annexure for details

Rating Rationale

Acuité has downgraded the long-term rating on the Rs. 200.00 Cr proposed Non-Convertible Debentures to '**ACUITE C** (read as **ACUITE C**)' from '**ACUITE BB+**' (read as **ACUITE double B plus**) of Future Retail Limited (FRL).

Further, Acuité has downgraded the short-term rating to '**ACUITE A4**' (read as **ACUITE A four**) from '**ACUITE A4+**' (read as **ACUITE A four plus**) on the Rs. 1400.00 Cr Commercial Paper Programme of Future Retail Limited (FRL).

Acuité has also downgraded the long-term rating on the Rs. 150.00 Cr proposed Non-Convertible Debentures to '**ACUITE C** (read as **ACUITE C**)' from '**ACUITE BB+**' (read as **ACUITE double B plus**) of Future Retail Limited (FRL).

Rationale for downward revision

The current rating action is on account of a delay in interest servicing to the tune of Rs.13 Cr on certain NCDs of FEL, an entity consolidated with FRL for the purposes of analysis.. However, these NCDs (ISIN: INE623B07487 & INE623B07495) do not form a part of Acuité's rated debentures of FEL. In line with the policy on default recognition for unrated instruments, the rating has been revised downwards to ACUITE C / A4.

It is to be noted that the group has significant near term debt obligations on both bank debt and capital market instruments. The group had opted for a moratorium as per the RBI guidelines that is set to expire at the end of August 2020. Acuité has also noted that FRL slipped on its coupon payments on its foreign currency bonds in July 2020. Since there is a grace period of 30 days as per the bond indenture, any failure to make the coupon payment within this period will be treated as 'Event of Default'.

Acuité had, vide its release date, 13 August, 2020, revised the rating on instruments and facilities of FRL and FEL to ACUITE BB+ / A4+ while keeping the rating on Watch with Negative Implications. The said rating action was on account of the significant increase in liquidity pressures due to continued challenges in the release of additional limits from banks and delays in the closure of the strategic investment deal. There has been considerable delay in the closures of the said deal which has impacted the long term funding support to the group. The significant drying up of operational cash flows due to the continued lockdowns has been a major contributing factor for the liquidity pressures of FERG.

Analytical Approach

Acuité has consolidated the financial and business risk profiles of Future Enterprises Limited (FEL) and Future Retail Limited (FRL), hereinafter referred to as Future Enterprises and Retail Group (FERG) on account of their common management, strong operational and financial linkages. FEL's business and financial risk profile

also includes that of its subsidiaries and associate companies. Extent of Consolidation: Full.

About FERG:

Future Retail Limited (FRL)

Future Retail Limited (FRL), the flagship company of the Future Group (one of India's largest retailers), is engaged mainly in value retailing. FRL, the retail arm of Future Group, operates diverse and multiple retail formats namely Big Bazaar, FBB, Easy day, E-zone etc. As on December 2019, the company operates across 1,388 large and small format stores spread across 414 cities in India with an area of around 16.05 million sq. ft. and a mix format of large and small stores across Big Bazaar, Food Bazaar, Foodhall, ezone and others.

Future Enterprises Limited (FEL)

FEL owns the physical assets and other retail infrastructure associated with the retail activity of FRL, apart from the strategic investments in various other companies in Future Group like Futurebazaar India Limited, Future Supply Chain Solutions Limited, and Future Media (India) Limited among others. Further, FEL is also engaged in e-retail, media ventures and global sourcing of food, fashion, footwear and others from international markets among other businesses. Mr. Kishore Biyani, key promoter continues to be associated with both, FEL and FRL. There are significant inter-company transactions between FRL and FEL pertaining to sale and purchases and lease rentals etc.

Key Rating Drivers

Strengths

- Long track record and established position in organized retail**

FERG benefits from the established track record and extensive experience of the promoters in retail. Mr. Kishore Biyani, the founder and Group CEO of the Future group, is widely recognized as a pioneer of modern retail in India. The promoters are supported by a strong management team with significant experience in retail. FRL enjoys a leading position in organized retail with pan India presence across multiple formats including Big Bazaar, FBB and Easy day. As on December 2019 FRL, operates across 1,388 stores spread across 16.05 million square feet in 414 cities. There are around 394 large format stores (13.82 million square feet), 990 small format (2.20 million square feet) and 4 others. Further, the company has recently shut down its 162 store mainly from the small format segment which contributed 157 stores. The company has also started a premium Food Hall in Bandra (Mumbai) spread over 25,000 square feet in four storey building. This store will cater to premium segment of footfall. The group has also witnessed a growth in same store sales growth (SSSG) of around 6.8% in FY2019 over previous year.

FERG has witnessed a significant increase in other business such as Future Pay and Big Bazaar Profit Club. The total customer base stood at 13.5 mn in June 2019 as against 6 mn in June 2018. Further, the total number of members for Big Bazaar Profit Club has increased to 1 mn in December 2019 as against 0.3 mn in December 2018.

Big Bazaar is one of the strongest retail brands in India and was ranked at number 6 in the 'Brand Asia – 2017' Survey by Market Xcel in association with Nikkei BP, Japan. The management has been expanding its footprint in the domestic retail segment through a mix of organic and inorganic initiatives. With 100 per cent FDI in single brand and 51 per cent in multi brand retail permitted by the government, the investments are likely to increase further and will enhance the penetration of the formal retail sector in a significant manner over the medium term.

Acuité believes that FERG's pan India presence will leverage its established position in organized retail and its strategy of scaling up operations through a mix of organic and inorganic initiatives once economic condition is improved after the unwinding of lockdown. Acuité believes that while FERG's operational performance over the near term may be impacted on account of outbreak of COVID – 19 and the lockdown situation across the country, and the headwinds faced both on the demand and supply side. However, from a medium to long term perspective FERG will benefit from its established presence across the country.

Weaknesses

- **Continued challenges in timely debt servicing; timing and magnitude of Strategic Investment will be critical**

FERG's reliance over external borrowings has always remained elevated marked by high debt outstanding of ~Rs.15,200 Cr. as on June 2020 (Unaudited figures provided by the management). The total debt comprises of term loans, working capital facilities, Commercial Papers, Debentures and Fixed Deposits. Further, the total debt also includes portion of the non-fund based facilities (Letter of Credit) which had to be partly converted into fund based facility. Besides the domestic debt, the total debt also comprises USD 500 million ECB's raised by FRL in January 2020 for acquiring assets from FEL. Some of the assets are still pending transfer and the borrowings consequently are on books of FRL. Besides the on balance sheet borrowings, FERG has contractual commitments towards rentals (included as lease rental expenses in P&L) and asset purchase agreements for other companies. Further, majority of the bank debt is under moratorium as per the RBI Guidelines. The stance of the lender after the moratorium ends will remain critical for the group.

The operations of FERG has been significantly impacted on account of the outbreak of COVID – 19 followed by lockdowns across the nation. This has led to restrictions on the movement of goods and people. Further, the group has a major presence in retail stores located in malls, which are not yet fully operations, hence the group's revenues has remained a fraction of previous year. Acuité believes that continuing cash losses in Q1FY2021 due to sub optimal level of operations would have significantly depleted the company's liquidity and hence, in the absence of sustainable long term funding support preferably by way of equity, the group will continue to face the liquidity pressures.

In addition to the high debt in the operating companies, i.e., FERG, Acuité has also taken a note of the significant debt raised through pledge of promoter holdings which has limited the fund raising ability at the promoter level. The high proportion of pledge promoter stake also impedes the possibility of raising further funding through this route. Acuité believes that the continuing sub optimal level of operations at the store has significantly impacted the group's cash flows. The management has been trying to maintain the liquidity by seeking additional limits and elongating its liability profile. The group's plans to monetise some of its non-core assets have been impacted on account of the current crisis. Against this backdrop, the induction of the strategic investor with considerable equity infusion will help in managing the perception of the lenders/investors and also provide, the requisite liquidity cushion to the business till the operations are restored to normalcy. The timing and the magnitude of the investment will be critical in this regards.

- **Susceptibility of operating performance to timely revival of consumer spending amidst the ongoing economic slowdown; COVID -19 like calamities and intense competition impose near term challenges**

FERG has a significant presence in grocery segment, the business profile is linked to level of retail spending. Any improvement in the economic parameters such as per capita income, high level of disposable income, improved job creation etc. leads to higher level of retail spending. Conversely, in the event of prolonged economic slowdown due to myriad factors like natural calamities, there could be job losses and consequently slowdown in retail spending by the consumers. While the challenges will be more acute in the discretionary segments, players like Future Group who cater to the products of mass consumption will be relatively insulated from these economic events. The competition in the retail segment will have a bearing on the future growth trajectory of such players.

Organized retailers face immense competition from unorganized or Kirana stores that largely cater to customers in and around their locality. Additionally, within organized retail too there exists stiff competition from established players like Avenue Supermarts, Shoppers Stop, and Reliance Retail etc. Moreover, the offline as well as online players have added significantly to price wars and discounts. Further, 100% (or 51%) foreign direct investments (FDI) in single brand retail and multi brand retail may also result in higher competition. However, the organized retail segment is expected to grow significantly on the back of higher disposable incomes which will help players like FRL to expand their footprint.

Acuité notes that FERG is into a mass consumption segment which is relatively insulated from economic cyclicalities. However, in the event of significant and sustained slowdown in the economic activity, the retail

spends of the consumers are likely to be impacted which in turn could slow the growth trajectory for players like FERG.

Liquidity Position: Weak

The liquidity buffers of FERG are currently impacted and the stress is expected to continue till the restoration of normalcy in the group's operations. The group has significant near term debt obligations both towards banks and investors in Capital Market instruments. The management is in discussions with the lenders/investors to manage the liquidity and to ensure the timely servicing of the debt. The stance of the lenders and investor will be critical in this regards. Acuité believes the group might require a significant realignment of its debt profile commensurate with its reduced cash flows from operations to maintain its liquidity profile. The liquidity is expected to support by expected capital infusion from the strategic investors. Acuité will be closely monitoring the developments regarding the ongoing discussions with banks and other debt investors.

Rating Sensitivities

- Infusion of long term funds, thereby, reducing significant debt levels

About Acuité Ratings & Research: Acuité Ratings & Research Limited is a full-service Credit Rating Agency registered with the Securities and Exchange Board of India (SEBI). The company received RBI Accreditation as an External Credit Assessment Institution (ECAI), for Bank Loan Ratings under BASEL-II norms in the year 2012. Since then, it has assigned more than 6,000 credit ratings to various securities, debt instruments and bank facilities of entities spread across the country and across a wide cross section of industries. It has its Registered and Head Office in Mumbai.

Disclaimer: An Acuité rating does not constitute an audit of the rated entity and should not be treated as a recommendation or opinion that is intended to substitute for a financial adviser's or investor's independent assessment of whether to buy, sell or hold any security. Acuité ratings are based on the data and information provided by the issuer and obtained from other reliable sources. Although reasonable care has been taken to ensure that the data and information is true, Acuité, in particular, makes no representation or warranty, expressed or implied with respect to the adequacy, accuracy or completeness of the information relied upon. Acuité is not responsible for any errors or omissions and especially states that it has no financial liability whatsoever for any direct, indirect or consequential loss of any kind arising from the use of its ratings. Acuité ratings are subject to a process of surveillance which may lead to a revision in ratings as and when the circumstances so warrant. Please visit our website (www.acuite.in) for the latest information on any instrument rated by Acuité.
