

## Press Release

### Pragati Agri Products Private Limited

October 17, 2018

### Rating Re-affirmed and Assigned

<b>Total Bank Facilities Rated*</b>	Rs. 14.00 Cr.
<b>Long Term Rating</b>	ACUITE BBB/Stable (Re-affirmed)
<b>Short Term Rating</b>	ACUITE A3+ (Assigned)

\* Refer Annexure for details

### Rating Rationale

Acuité has reaffirmed long term rating of '**ACUITE BBB**' (read as **ACUITE triple B**) on Rs 12.00 crore bank facilities of Pragati Agri Products Private Limited (PAPPL). Acuité has also assigned long term rating of '**ACUITE BBB**' (read as **ACUITE triple B**) and short term rating of '**ACUITE A3+**' (read as **ACUITE A three plus**) on the Rs. 2.00 crore bank facilities of PAPPL. The outlook is "**Stable**".

Incorporated in 1995- PAPPL is a Kolkata-based company engaged in the extraction of rice bran oil and de-oiled rice bran (DORB). The company was promoted by Mr. Sushil Kumar Agarwal who has more than three decades of experience in the edible oil industry. The rice bran oil is sold to the edible oil refineries in the domestic markets whereas DORB are exported to Vietnam, Cambodia, Thailand and Bangladesh. The manufacturing unit located at Burdwan, West Bengal has installed capacity of 66,000 metric tonnes per annum (MTPA).

### Analytical Approach:

Acuité has taken a standalone view of the business and financial risk profile of PAPPL to arrive at the rating.

### Key Rating Drivers:

#### Experienced management and long track record of operations

The company has a long track record of over two decades in the edible oil industry. The company was initially engaged in the trading of rice bran oil and DORB. However, from 2006, PAPPL forayed into extraction of rice bran crude oil and DORB. The long track record of operations of the company has helped PAPPL to establish long standing relations with suppliers and customers.

#### Healthy financial risk profile

The healthy financial risk profile of the PAPPL is marked by its modest net worth, comfortable gearing and strong debt protection metrics. The net worth stood at Rs. 14.81 cr as on 31st March'2018 as compared to Rs 14.24 crs in the previous year. The gearing (debt to equity ratio) of the company stood at 0.73 times as on 31st March, 2018 as against 0.51 times as on 31st

March, 2017. PAPPL reported a robust interest coverage ratio of 6.69 times in as on 31st March, 2018 as against 7.50 times as on 31st March, 2017. Strong Net Cash accruals to Total Debt (NCA/TD) of 0.21 times as on 31st March, 2018.

### **Prudent working capital cycle**

PAPPL has comfortable working capital cycle of 41 days in FY2018 as against 23 days in FY2017. Also, the GCA days are comfortable at 60 days in FY2018 as against 58 days in FY2017. The average utilization in working capital limit is also low at ~51 per cent during the six month ended September'18.

### **Weaknesses**

#### **Low profit margins inherent in edible oil business**

The edible oil market is characterized by thin margin due to low value additive nature and intense competition. In FY2018, the operating margin stood at 3.01 percent as against 2.09 per cent in FY2017. Further, around 40 per cent of the revenue is derived from trading operations leading to constrained margins. PAPPL has low PAT margin of 1.37 percent in FY2018as against 1.18 percent in FY2017.

#### **Exposure to volatility in prices, agro-climatic conditions**

The main raw material for the company, paddy is a seasonal crop, the production of which is highly dependent on the monsoon. Therefore, the company is exposed to volatility in prices on account of agro-climatic conditions. Sudden changes like inadequate rainfall or drought might affect the availability of the crop pushing commodity prices upwards. PAPL's raw material cost accounts for ~85 percent of cost of sales. Thus, the profitability is exposed to volatility in raw material prices.

#### **Highly fragmented edible oil industry**

The Indian edible oil industry is highly fragmented, with a large number of companies in the organized and unorganized sector due to low entry barriers (low capital and technical requirements of business and liberal policy regime). This has resulted in severe competition and inherently thin profitability margins.

### **Outlook: Stable**

Acuite believes that the outlook on PAPPL's rated facilities will remain stable over the medium term on account of the company's experienced management and long track record of operations. The outlook may be revised to 'Positive' if the company registers sustained growth in revenue while improving profit margins and maintaining comfortable working capital cycle. Conversely, the outlook may be revised to 'Negative' in case of a steep decline in operating profit margin or significant deterioration in the capital structure on account of larger than envisaged debt funded capex and working capital borrowings.

### About the Rated Entity - Key Financials

	Unit	FY18 (Actual)	FY17 (Actual)	FY16 (Actual)
Operating Income	Rs. Cr.	113.82	135.67	99.82
