Incorporated in 1995, Pragati Agri Products Private Limited (PAPPL) is a Kolkata-based company engaged in the extraction of rice bran oil and deoiled rice bran (DORB). The manufacturing unit located at Burdwan, West Bengal has process installed capacity of 66,000 metric tonnes per annum (MTPA).

Analytical Approach:

Acuité has considered the standalone business and financial risk profile of PAPPL while arriving at the rating.

Key Rating Drivers:

Strengths

Experienced management

The company has a long track record of over two decades in the edible oil industry. The company was initially engaged in the trading of rice bran oil and de-oiled rice bran (DORB). However, from 2006, PAPL forayed into the extraction of rice bran crude oil and DORB. The long track record of operations of the company has helped PAPPL to establish long-standing relations with suppliers and customers.

Healthy financial risk profile

The financial risk profile of the company is marked by moderate net worth, low gearing and healthy debt protection metrics. The net worth of the company stood moderate at Rs.23.05 crore in FY2020 (Prov.) as compared to Rs. 17.03 crore in FY2019. The improvement in networth is mainly due to the retention of current year profit. The gearing of the company stood low at 0.12 times as on March 31, 2020 (Prov.) when compared to 0.67 times as on March 31, 2019. The total debt of Rs 2.82 crore in FY2020 (Prov.) comprises only short term debt. Interest coverage ratio (ICR) of the company stood healthy at 9.05 times in FY2020 (Prov.) as against 6.73 times in FY 2019. The debt service coverage ratio (DSCR) of the company also stood healthy at 9.05 times in FY2020 (Prov.) as compared to 5.32 times in the previous year. The net cash accruals to total debt (NCA/TD) stood healthy at 1.26 times in FY2020 (Prov.) as compared to 0.25 times in the previous year.

Efficient working capital management

PAPPL has a comfortable working capital cycle as evident from their gross current asset (GCA) days of 49 as on 31st March 2020 (Prov.) as compared to 73 days in the previous year. The inventory days stood comfortable at 23 days in FY2020 (Prov.) as compared to 36 days in the previous year. The collection period of the company is also comfortable at 22 days in FY2020 (Prov.) as compared to 23 days in the previous year.

Weaknesses

Moderate scale of operation

The revenue of the company stood moderate at Rs. 97.57 crore in FY2020 (Prov.) as compared to Rs.101.17 crore in the previous year. The company has booked Rs.65.00 crore till 31st October, 2020 (Provisional).

Presence in highly fragmented edible oil industry

The Indian edible oil industry is highly fragmented, with the presence of a large number of participants in the organized and unorganized sectors. This is due to low entry barriers such as low capital, low technical requirements of the business and liberal policy regime. This has resulted in severe competition and inherently thin profitability margins.

Rating Sensitivity
