

Press Release
Future Enterprises Limited

October 30, 2019

Rating Reaffirmed

Instruments Rated*	Rs. 300.00 Cr. (Non-Convertible Debentures)
Long Term Rating	ACUITE AA / Outlook: Negative (Outlook Revised from Stable)
Instruments Rated*	Rs. 654.00 Cr. (Non-Convertible Debentures)
Long Term Rating	ACUITE AA+ / Outlook: Negative (Outlook Revised from Stable)
Instruments Rated*	Rs. 196.00 Cr. (Non-Convertible Debentures)
Long Term Rating	ACUITE Provisional AA+ / Outlook: Negative (Outlook Revised from Stable)
Instruments Rated*	Rs. 300.00 Cr. (Proposed Non-Convertible Debentures)
Long Term Rating	ACUITE AA / Outlook: Negative (Outlook Revised from Stable)
Instruments Rated*	Rs. 200.00 Cr. (Non-Convertible Debentures)
Long Term Rating	ACUITE AA / Outlook: Negative (Outlook Revised from Stable)
Instruments Rated*	Rs. 500.00 Cr. (Commercial Paper Programme)
Short Term Rating	ACUITE A1+ (Reaffirmed)

* Refer Annexure for details

Rating Rationale

Acuité has reaffirmed rating of '**ACUITE AA+**' (read as **ACUITE double A plus**) for non-convertible debenture (NCD) issue of Rs. 654.00 crore and short term rating of '**ACUITE A1+**' (read as **ACUITE A one plus**) to Future Enterprises Limited (FEL). The outlook is revised to '**Negative**'

Acuité has reaffirmed the rating of '**ACUITE Provisional AA+**' (read as **ACUITE provisional double A plus**) to the Rs. 196.00 crore proposed non-convertible debenture (NCD) issue. The outlook is 'Stable'.

Acuité has reaffirmed the long term rating '**ACUITE AA**' (read as **ACUITE double A**) to the issue of non-convertible debentures of Rs. 300.00 crore.

Acuité has reaffirmed the short term rating of '**ACUITE A1+**' (read as **ACUITE A one plus**) to the Rs. 500.00 crore commercial paper issue of FEL.

Further Acuité has assigned the long term rating '**ACUITE AA**' (read as **ACUITE double A**) to the Rs. 300.00 crore proposed non-convertible debentures (NCD) issue.

Acuité has reaffirmed the long term rating '**ACUITE AA**' (read as **ACUITE double A**) to the issue of non-convertible debentures of Rs. 200.00 crore.

The rating on Rs. 196.00 crore proposed Secured, Rated, Listed, Non-Convertible, Redeemable Taxable Debentures is provisional and the final rating is subject to the execution of a trust deed (with a SEBI registered trustee) that will clearly lay down the legal payment mechanism as also the rights and obligations of various parties involved in the issuance document structured for the issue and proposed issue. This will remain in force for the tenure of NCDs, notwithstanding the demerger, merger or restructuring in FEL.

Outlook Revised to Negative

The revision in outlook is on account of slower than expected deleveraging in the group notwithstanding the recent initiatives to infuse additional equity. FRL's debt levels have increased to Rs.2657.04 crore as on 31 March 2019 (an increase of ~107% over previous year). Similarly, FEL's debt levels have increased to Rs.5787.43 crore as on 31 March 2019 (an increase of ~16% over previous year). The Debt/EBITDA stood at 2.54 times and 4.58 times respectively for FRL and FEL for FY2019. Acuite had expected significant improvement in the debt protection metrics over FY2019 levels, based on the management's plans to deleverage through equity infusion and monetisation of the non-core assets. Acuite has adopted a consolidated approach (i.e. FEL & FRL together referred as FERG) while arriving at the ratings for both FRL and FEL. Acuite believes that consolidated debt levels will continue to remain elevated even after the recent announcements of equity infusion.

Besides the continued high debt levels in FERG, Acuite also notes that the substantial portion of promoter holding in FERG continues to be encumbered. The high level of encumbered promoter holding coupled with declining trend in share prices of FERG over past one year has significantly impacted the financial flexibility of the promoters.

About FERG:

Future Retail Limited (FRL)

Future Retail Limited (FRL), the flagship company of the Future Group (one of India's largest retailers), is engaged mainly in value retailing. The company is engaged in the manufacturing of garments for men, women and kids. FRL, the retail arm of Future Group, operates retail formats namely Big Bazaar, FBB, Easy day, E-zone etc. As on June 2019, the company operates across 1557 store spread across 437 cities with an area of around 16.27 million sq. ft. and a mix format of large and small stores across Big Bazaar, Food Bazaar, Foodhall, ezone and others.

Future Enterprises Limited (FEL)

FEL owns the physical assets and other retail infrastructure associated with the retail activity of FRL, apart from the strategic investments in various other companies in Future Group like Futurebazaar India Limited, Future Supply Chain Solutions Limited, and Future Media (India) Limited among others. Further, FEL is also engaged in e-retail, media ventures and activity of global sourcing of food, fashion, footwear and others from international markets among other businesses. Mr. Kishore Biyani, key promoter continues to be associated with both, FEL and FRL. There are significant inter-company transactions between FRL and FEL pertaining to sale and purchases and lease rentals etc.

Both FRL and FEL are listed on stock exchanges and as per an announcement to the exchanges dated October 12, 2019, the assets to the tune of Rs.4000 crore are expected to be transferred from FEL to FRL.

Analytical Approach

Acuite has consolidated the financial and business risk profiles of Future Enterprises Limited (FEL) and Future Retail Limited (FRL) hereinafter referred to as Future Enterprises and Retail Group (FERG) on account of their common management, strong operational and financial linkages. FEL's business and financial risk profile also includes its subsidiaries and associate companies. In case of certain rated instruments issued by FEL, a differential rating has been assigned due to presence of Structured Payment Mechanism (SPM) and Debt Service Reserve Account (DSRA) features in these instruments. Acuite has factored in the benefits derived from the SPM and DSRA for arriving at the rating. Extent of Consolidation: Full.

Key Rating Drivers

Strengths

- **Structured payment mechanism for interest servicing on NCDs along with debt service reserve account (DSRA):**

FEL maintains DSRA equivalent to one year interest obligations initially in the form of fixed deposits/AAA rated bonds with an option to replace part/whole of such fixed deposits/AAA rated bonds by bank guarantee during the tenure of NCDs. The rating factors in the adherence to a specific legal payment mechanism (credit enhancement in the form of DSRA) to be administered by the trustees of the NCD. The trust and retention account (TRA) is to be funded one working day in advance (T-1) in case of fixed

deposits and two working days in advance (T2) in case of bank guarantee. In case of 'AAA' rated liquid bonds, the same will be three working days in advance (T-3) for servicing debenture holders on the forthcoming due date T, and ensuring that the trustee is intimated about the clear funds. If FEL fails to do so, the payment will be made good through liquidation of fixed deposits by due date, bank guarantee (invocation by T-1) or 'AAA' rated liquid bonds (invocation by T-2).

• **Long track record and established position in organised retail:**

FERG benefits from the established track record and extensive experience of the promoters in retail. Mr. Kishore Biyani, the founder and Group CEO of the Future group, is widely recognised as a pioneer of modern retail in India. The promoters are supported by a strong management team with significant experience in retail. FRL enjoys a leading position in organised retail with pan India presence across multiple formats including Big Bazaar, FBB and Easy day. As on June 2019 FRL, operates across 1,557 stores spread across 16.27 million square feet in 437 cities. There are around 400 large format stores (13.66 million square feet), 1150 small format (2.54 million square feet) and 7 others. Further, the company has recently started a premium Food Hall in Bandra (Mumbai) spread over 25,000 square feet in four storey building. This store will cater to premium segment of footfall. The group has also witnessed a growth in same store sales growth (SSSG) of around 6.8% in FY2019 over previous year.

FERG has witnessed a significant increase in other business such as Future Pay and Big Bazaar Profit Club. The total customer base stood at 13.5 mn in June 2019 as against 6 mn in June 2018. Further, the total number of members for Big Bazaar Profit Club has increased to 0.9 mn in June 2019 as against 0.2 mn in June 2018.

Big Bazaar is one of the strongest retail brands in India and was ranked at number 6 in the 'Brand Asia – 2017' Survey by Market Xcel in association with Nikkei BP, Japan. The management has been expanding its footprint in the domestic retail segment through a mix of organic and inorganic initiatives. With 100 per cent FDI in single brand and 51 per cent in multi brand retail permitted by the government, the investments are likely to increase further and will enhance the penetration of the formal retail sector in a significant manner over the medium term.

Acuité believes that FERG will benefit from its established position in organized retail and its strategy of scaling up operations through a mix of organic and inorganic initiatives.

• **Demonstrated strong resource mobilisation ability and monetisation of non-core investments:**

FERG has demonstrated the ability to raise funds from banks, institutional investors, capital markets and Fixed Deposits from public. Its borrowings from banks comprises a mix of term loans, debentures and working capital borrowings. FERG has recently been able to attract marquee investors like Amazon who are interested in participating in the organised retail space in India. As per the deal announced, there will be an initial investment of ~Rs. 1500 crore by Amazon in Future Coupons Limited, a company which will own ~7.3% stake in Future Retail Limited (FRL) after subscribing share warrants. Further, the deal will also provide a call option to Amazon to acquire all or part of Promoter's shareholding exercisable between 3rd to 10th year.

FEL, effectively holds (through direct and indirect ownership) 31.11 per cent and 49.92 per cent stake in Future Generali India Life Insurance Company Limited (life insurance business) and Future Generali India Insurance Company Limited (general insurance business) respectively. FEL has been planning to divest its holdings partly or entirely in the non-life insurance business over the near to medium term.

Acuité believes that, the management's continued ability to attract fresh investments by diluting stakes in operating companies and timely monetisation of its investments in Future Generali India Life Insurance Company Limited and Future Generali India Insurance Company Limited will be crucial to the maintenance of a healthy credit profile.

Weaknesses

• **Elevated debt levels**

The tangible net worth of FERG stood at Rs. 7328.92 crore as on 31 March, 2019. The gearing (debt to equity ratio) of FERG (combined) stood at 1.28 times (PY: 1.07 times) as on 31 March, 2019. The total debt of Rs.9389.86 crore as on 31 March 2019, comprised term loans, debentures of Rs. 6919.09 crore

and working capital borrowings and Commercial Paper issuances. Debt/EBITDA on a standalone basis for FRL stood at 2.54 times for FY2019 for FEL 4.58 times for FY2019. Based on FY2019 figures, consolidated Debt/EBITDA stood at ~3.7 times. Besides the on balance sheet borrowings, FERG has contractual commitments towards rentals (included as lease rental expenses in P&L) and asset purchase agreements for other companies.

With proposed takeover of assets by FRL from FEL, the Debt/EBITDA for the following year is expected to change for both the entities on standalone basis. However, on a consolidated basis no major improvement is expected on Debt/EBITDA levels by March 2020, even after considering the deleveraging on account of Amazon deal. FERG is also focusing on optimising the interest cost and rebalancing the liability profile so as to achieve an elongation in the overall maturity of the debt. The management is now actively exploring avenues to monetise its investment in Insurance arms.

In addition to the high debt in the operating companies, i.e., FERG, Acuité has also taken a note of high level of debt raised through pledge of promoter holdings. The high level of encumbrances inhibits the promoter's future financial flexibility.

Acuité believes that timely deleveraging of the operating companies and the significant reduction of debt at the promoter level will be a key monitorable.

• **Susceptibility to spending patterns of consumers amidst highly competitive landscape of the retail segment**

Organised retailers face immense competition from unorganised or Kirana stores (constitute over 94 per cent of the total retail market) that largely cater to customers in and around their locality. Additionally, within organised retail too there exists stiff competition from established players like Avenue Supermart, Shoppers Stop, Reliance Retail etc. Moreover, the offline as well as online players have added significantly to price wars and discounts. Further, 100% (or 51%) foreign direct investments (FDI) in single brand retail and multi brand retail will result in higher competition. However, the organised retail segment is expected to grow significantly on the back of higher disposable incomes which will help players like FRL to expand their footprint.

Acuité notes that FERG is into a mass consumption segment which is relative insulated from economic cyclicity. However, in the event of significant and sustained slowdown in the economic activity the retail spends of the consumers are likely to be impacted which in turn could flatten the growth trajectory for players like FERG.

Liquidity position

FERG has moderate liquidity marked by healthy net cash accruals to its maturing debt obligations. FERG generated net cash accruals of Rs. 1824.42 crore in FY2019 (PY: Rs. 829.95 crore) while its maturing debt obligation were in the range of 138.27 crore in FY2019. Further the cash accruals of FERG are estimated to remain at around Rs. 2000.00 crore to Rs. 2500.00 crore for FY2019 to FY2021. The operations of the combined entity are moderately working capital intensive and the average working capital limit utilization for both FEL and FRL has been between 69% to 75% over the last five months ended August, 2019. FERG has also been supporting its working capital requirements through Commercial Paper. The combined entity had maintained unencumbered cash and bank balance of Rs. 346.32 crores as on 31 March, 2019. Further, the liquidity is also supported by profit shared by Bharti Family from sales proceed of shares held in FRL. The total share for FRL stood at ~Rs.652 crore as on 31 March 2019. Acuite believes that the liquidity of FERG is likely to remain moderate over the medium term due to the nature of the retail business

Rating Sensitivities

- Significant improvement in capital structure leading to reduction in debt
- Higher than expected increase in debt levels leading to deterioration in debt protection indicators
- Debt/EBITDA for the combined entity to be maintained below 2.75 times for annualized as well as yearly basis

Material Covenants

None

Outlook: Negative

Acuite believes that elevated debt levels will continue to have a bearing on the credit profile of FERG over the near to medium term. The high level of promoter level debt will also have an impact on the overall group's financial flexibility. The rating may be downgraded in case the debt levels further increases thereby impacting the debt protection indicators of FERG or if the operating performance is significantly below expectation. Further, the outlook may be revised to 'Stable' in case of significant improvement in capital structure by reduction in debt levels in FERG as well as in promoter level debt.

About Acuité Ratings & Research:

Acuité Ratings & Research Limited (*erstwhile SMERA Ratings Limited*) is a full-service Credit Rating Agency registered with the Securities and Exchange Board of India (SEBI). The company received RBI Accreditation as an External Credit Assessment Institution (ECAI), for Bank Loan Ratings under BASEL-II norms in the year 2012. Since then, it has assigned more than 6,000 credit ratings to various securities, debt instruments and bank facilities of entities spread across the country and across a wide cross section of industries. It has its Registered and Head Office in Mumbai.

Disclaimer: An Acuité rating does not constitute an audit of the rated entity and should not be treated as a recommendation or opinion that is intended to substitute for a financial adviser's or investor's independent assessment of whether to buy, sell or hold any security. Acuité ratings are based on the data and information provided by the issuer and obtained from other reliable sources. Although reasonable care has been taken to ensure that the data and information is true, Acuité, in particular, makes no representation or warranty, expressed or implied with respect to the adequacy, accuracy or completeness of the information relied upon. Acuité is not responsible for any errors or omissions and especially states that it has no financial liability whatsoever for any direct, indirect or consequential loss of any kind arising from the use of its ratings. Acuité ratings are subject to a process of surveillance which may lead to a revision in ratings as and when the circumstances so warrant. Please visit our website (www.acuite.in) for the latest information on any instrument rated by Acuité.
