Rating Rationale

Acuite has downgraded the long term rating to '**ACUITE BB+**' (read as **ACUITE double B plus**) from '**ACUITE BBB+**' (read as **ACUITE triple B plus**) to the issue of non-convertible debentures of Rs. 500.00 Cr. of **Future Enterprises Limited**, the rating continuous to remain '**Under Watch with Negative Implications**'.

Acuite has downgraded the long term rating to the long term rating to '**ACUITE BB+**' (read as **ACUITE double B plus**) from '**ACUITE BBB+**' (read as **ACUITE triple B plus**) for non-convertible debenture (NCD) issue of Rs. 654.00 crore to Future Enterprises Limited (FEL). The rating continuous to remain '**Under Watch with Negative Implications**'.

Acuite has downgraded the long term rating to '**Provisional ACUITE BB+**' (read as **Provisional double B plus**) from '**Provisional ACUITE BBB+**' (read as **Provisional ACUITE triple B plus**) to the Rs. 196.00 crore proposed non-convertible debenture (NCD) issue. The rating continuous to remain '**Under Watch with Negative Implications**'.

Further Acuite has downgraded the long term rating to the long term rating to '**ACUITE BB+**' (read as **ACUITE double B plus**) from '**ACUITE BBB+**' (read as **ACUITE triple B plus**) to the Rs. 300.00 crore proposed non-convertible debentures (NCD) issue. The rating continuous to remain '**Under Watch with Negative Implications**'.

Acuité has downgraded the short term rating to **'ACUITE A4+' (read as ACUITE A four plus)** from **'ACUITE A2' (read as ACUITE A two)** to the Rs. 500.00 Cr Commercial Paper Programme of FEL.

Acuité has downgraded the long term rating to **'ACUITE BB+' (read as ACUITE double B plus)** from **'ACUITE BBB+' (read as ACUITE triple B plus)** and the short term rating to **'ACUITE A4+' (read as ACUITE A four plus)** from **'ACUITE A2' (read as ACUITE A two)** to the bank facilities of Rs. 1877.00 Cr. The rating continuous to remain **'Under Watch with Negative Implications'**.

Acuité has further downgraded a rating to **'ACUITE FBB+' (read as ACUITE F double B)** from **'ACUITE FBBB+' (read as ACUITE F triple B plus)** to the Fixed Deposit Programme of Rs. 700.00 Cr. The rating continuous to remain **'Under Watch with Negative Implications'**.

In addition to the above instruments, Acuité has downgraded its rating of 'Provisional ACUITE BB+' (read as Provisional ACUITE double B plus) on the proposed NCDs of Rs. 196.00 Cr. The conversion to final rating is subject to the execution of a trust deed and confirmation from debenture trustee.

Rationale for downward revision

Acuité had, vide its release dated, 30 July, 2020, revised the rating on instruments and facilities of FRL and FEL to ACUITE BBB+ / A2 while keeping the rating on Watch with Negative Implications. The said rating action was primarily driven by recent slippage of coupon payment on its Foreign Currency Bonds for which the company had availed grace period of 30 days before categorizing a slippage as an 'Event of Default'. While arriving at the previous rating action, Acuité had relied on the dispensation provided by the regulators (Circular No.: SEBI/ HO/ MIRSD/ CRADT/ CIR/ P/ 2020/ 53) to decide the magnitude of the downward revision. Acuité has been in touch with the management and lenders to obtain clarity on the liquidity for the timely payment of these coupons. During the previous rating action, Acuité had relied on its discussions with the company's management regarding the release of limits by the lender banks and other issues such as induction of the strategic investor. The strategic investment initiatives as an when they are expected to materialise could significantly alter the credit profile and the perceptions of the lenders/investors.

Acuité observes that the deal with the strategic investor is taking longer than initially envisaged and the group's interim liquidity management has been suboptimal. The Group has been facing continuing challenges in restoring its operational cash flows and also in seeking a release of additional limits from its banks. In view of the major upcoming debt obligations, Acuité believes that the liquidity pressures are expected to intensify. In the event of the group not being able to arrange for timely funding to support the near term obligations, there could be an elevated possibility of the group facing more credit events. The announcement of the deal with a strategic investor could have inspired confidence in the existing lenders thereby, facilitating the release of additional limits. However, no significant announcements have been made by the group in this regard since the last rating action of July 30, 2020.

Analytical Approach

Acuité has consolidated the financial and business risk profiles of Future Enterprises Limited (FEL) and Future Retail Limited (FRL), hereinafter referred to as Future Enterprises and Retail Group (FERG) on account of their common management, strong operational and financial linkages. FEL's business and financial risk profile also includes that of its subsidiaries and associate companies. Extent of Consolidation: Full.

About FERG:

Future Retail Limited (FRL)

Future Retail Limited (FRL), the flagship company of the Future Group (one of India's largest retailers), is engaged mainly in value retailing. FRL, the retail arm of Future Group, operates diverse and multiple retail formats namely Big Bazaar, FBB, Easy day, E-zone etc. As on December 2019, the company operates across 1,388 large and small format stores spread across 414 cities in India with an area of around 16.05 million sq. ft. and a mix format of large and small stores across Big Bazaar, Food Bazaar, Foodhall, ezone and others.

Future Enterprises Limited (FEL)

FEL owns the physical assets and other retail infrastructure associated with the retail activity of FRL, apart

from the strategic investments in various other companies in Future Group like Future bazaar India Limited, Future Supply Chain Solutions Limited, and Future Media (India) Limited among others. Further, FEL is also engaged in e-retail, media ventures and global sourcing of food, fashion, footwear and others from international markets among other businesses. Mr. Kishore Biyani, key promoter continues to be associated with both, FEL and FRL. There are significant inter-company transactions between FRL and FEL pertaining to sale and purchases and lease rentals etc.

Key Rating Drivers

Strengths

- **Long track record and established position in organised retail**

FERG benefits from the established track record and extensive experience of the promoters in retail. Mr. Kishore Biyani, the founder and Group CEO of the Future group, is widely recognized as a pioneer of modern retail in India. The promoters are supported by a strong management team with significant experience in retail. FRL enjoys a leading position in organized retail with pan India presence across multiple formats including Big Bazaar, FBB and Easy day. As on December 2019 FRL, operates across 1,388 stores spread across 16.05 million square feet in 414 cities. There are around 394 large format stores (13.82 million square feet), 990 small format (2.20 million square feet) and 4 others. Further, the company has recently shut down its 162 store mainly from the small format segment which contributed 157 stores. The company has also started a premium Food Hall in Bandra (Mumbai) spread over 25,000 square feet in four storey building. This store will cater to premium segment of footfall. The group has also witnessed a growth in same store sales growth (SSSG) of around 6.8% in FY2019 over previous year.

FERG has witnessed a significant increase in other business such as Future Pay and Big Bazaar Profit Club. The total customer base stood at 13.5 mn in June 2019 as against 6 mn in June 2018. Further, the total number of members for Big Bazaar Profit Club has increased to 1 mn in December 2019 as against 0.3 mn in December 2018.

Big Bazaar is one of the strongest retail brands in India and was ranked at number 6 in the 'Brand Asia – 2017' Survey by Market Xcel in association with Nikkei BP, Japan. The management has been expanding its footprint in the domestic retail segment through a mix of organic and inorganic initiatives. With 100 per cent FDI in single brand and 51 per cent in multi brand retail permitted by the government, the investments are likely to increase further and will enhance the penetration of the formal retail sector in a significant manner over the medium term.

Acuite believes that FERG's pan India presence will leverage its established position in organized retail and its strategy of scaling up operations through a mix of organic and inorganic initiatives once economic condition is improved after the unwinding of lockdown. Acuite believes that while FERG's operational performance over the near term may be impacted on account of outbreak of COVID – 19 and the lockdown situation across the country, and the headwinds faced both on the demand and supply side. However, from a medium to long term perspective FERG will benefit from its established presence across the country.

Weaknesses

- **Elevated debt levels; Intense liquidity pressures due to significant debt obligations vis-a-viz Cash flows from Operations**

The tangible net worth of FERG stood at ~Rs. 8920 Cr (Unaudited) as on 31 December, 2019. The gearing (debt to equity ratio) of FERG (combined) stood at 1.16 times as on 31 December 2019 (1.28 times as on 31 March, 2019). The total debt for FERG of ~Rs.10,386 Cr as on 31 December 2019, comprised term loans, debentures, working capital borrowings and Commercial Paper issuances. The total debt outstanding as on 31 December 2019 for FEL and FRL stood at Rs. 6485 Cr. and Rs. 3901 Cr respectively. Further, the sharp rise in debt levels is on account of certain adjustments such as the treatment of lease obligation as debt to comply with IND AS 116. Debt/EBITDA (annualised) on a standalone basis for FRL stood at 1.5 times for 9MFY2020 for FEL 4.4 times for 9MFY2020. Based on FY2019 figures, consolidated Debt/EBITDA stood at 3.7

times. Besides the on balance sheet borrowings, FERG has contractual commitments towards rentals (included as lease rental expenses in P&L) and asset purchase agreements for other companies.

FRL had recently raised USD 500 million through ECBs, and the proceeds of these issuances were to be primarily utilized for acquiring certain assets from FEL. As per discussion with management, some of the assets are still pending transfer and the borrowing consequently are on books of FRL. Acuité believes that continuing cash losses in Q1FY2021 due to sub optimal level of operations would have significantly depleted the company's liquidity and hence, in the absence of sustainable long term funding support preferably by way of equity, the group will continue to face the liquidity pressures. The management has been planning to bring in a strategic investors in the immediate term. In the interim till the strategic investor comes in, with requisite funding support, the group is managing the liquidity by seeking the release of additional limits from existing bankers and the gradual elongations of borrowing profile.

In addition to the high debt in the operating companies, i.e., FERG, Acuité has also taken a note of the significant debt raised through pledge of promoter holdings. As on December 2019, only ~42 per cent and ~8 per cent of the promoter holding in FRL and FEL respectively was unencumbered indicating restricting financial flexibility. The high proportion of pledge promoter stake also impedes the possibility of raising further funding through this route. Acuité believes that the ability to attract strategic investor over the immediate term and the contours of the strategic investment will be a key determinants of the Group's near term credit profile.

- **Susceptibility to timely revival of consumer spending amidst the ongoing economic slowdown; COVID -19 like calamities and intense competition impose near term challenges**

FERG has a significant presence in grocery segment, the business profile is linked to level of retail spending. Any improvement in the economic parameters such as per capita income, high level of disposable income, improved job creation etc. leads to higher level of retail spending. Conversely, in the event of prolonged economic slowdown due to myriad factors like natural calamities, there could be job losses and consequently slowdown in retail spending by the consumers. While the challenges will be more acute in the discretionary segments, players like Future Group who cater to the products of mass consumption will be relatively insulated from these economic events. The competition in the retail segment will have a bearing on the future growth trajectory of such players.

Organised retailers face immense competition from unorganised or Kirana stores that largely cater to customers in and around their locality. Additionally, within organised retail too there exists stiff competition from established players like Avenue Supermart, Shoppers Stop, and Reliance Retail etc. Moreover, the offline as well as online players have added significantly to price wars and discounts. Further, 100% (or 51%) foreign direct investments (FDI) in single brand retail and multi brand retail may also result in higher competition. However, the organised retail segment is expected to grow significantly on the back of higher disposable incomes which will help players like FRL to expand their footprint.

Acuité notes that FERG is into a mass consumption segment which is relatively insulated from economic cyclicity. However, in the event of significant and sustained slowdown in the economic activity, the retail spends of the consumers are likely to be impacted which in turn could slow the growth trajectory for players like FERG.

Liquidity Position: Stretched

The liquidity buffers of FERG are currently impacted and the stress is expected to continue till the restoration of normalcy in the group's operations. The group has significant near term debt obligations both towards banks and investors in Capital Market instruments. The management is in discussions with the lenders/investors to manage the liquidity and to ensure the timely servicing of the debt. The stance of the lenders and investor will be critical in this regards. Acuité believes the group might require a significant realignment of its debt profile commensurate with its reduced cash flows from operations to maintain its liquidity profile. The liquidity is expected to support by expected capital infusion from the strategic investors. Acuité will be closely monitoring the developments regarding the ongoing discussions with banks and other debt investors.

Rating Sensitivities

- Significant delays in infusion of fresh equity and deleveraging of FERG
- Higher than expected increase in debt levels leading to deterioration in debt protection indicators
- Possible challenges in restoration of normal operations beyond September 2020
