

## Press Release

### Shree Shakambari Rice Mill Private Limited

16 March 2018

### Rating Reaffirmed

<b>Total Bank Facilities Rated*</b>	Rs. 20.00 Cr.
<b>Long Term Rating</b>	SMERA BB+ /Stable (Reaffirmed)

\* Refer Annexure for details

### Rating Rationale

SMERA has reaffirmed long-term rating of '**SMERA BB+**' (read as **SMERA double B plus**) on the Rs. 20.00 crore bank facilities of Shree Shakambari Rice Mill Private Limited (SSRMPL). The outlook is '**Stable**'.

Shakambari Rice Mill Private Limited was established in the year 2006. In 2013, the promoters of Aadhar Rice Mill Private Limited (ARMPL) acquired SSRMPL. The company is engaged in manufacturing of Basmati and Non-Basmati Rice. The company has installed capacity of 8 TPH. It procures paddy from Bihar, Jharkhand, Uttar Pradesh and sells rice in the state of Jharkhand, Bihar, Haryana, Karnataka and Andhra Pradesh.

### Key rating drivers

#### Strengths

##### Experienced Management

SSRMPL is incorporated in 2006 and has presence of almost a decade in the rice industry. The group is led by Mr. Ram Prakash Agarwal, Mr. Rajnish Kumar and Mr. Satyadeo Roy who have an experience of more than a decade in the same line of business. The experience of promoters has helped the group to develop healthy relations with its suppliers and customers.

##### Moderate financial risk profile

The financial risk profile of the group is moderate marked by net worth of Rs. 21.27 crore as on 31 March, 2017 as against Rs. 20.49 crore as on 31 March, 2016. The gearing stood at 2.04 times as on 31 March, 2017 as against 1.88 times on 31 March, 2016. The total debt of Rs. 43.41 crore as on 31 March, 2017 consists of long term debt of Rs. 1.57 crore, interest free unsecured loans from promoters of Rs. 4.05 crore and short term working capital facility of Rs. 37.79 crore. The interest coverage ratio stood at 1.64 times for FY17. The net cash accruals to total debt (NCA/TD) stood at 0.06 times for FY17. Total outside liabilities to Tangible networth (TOL/TNW) stood at 2.25 times for FY17.

##### Proximity to raw materials

Jharkhand being one of the major rice producing states in India lends the group locational advantage in terms of procuring raw materials.

#### Weaknesses

##### Working capital intensive nature of operations

The group has working capital intensive nature of operations marked by high GCA days of 139 days in FY2017 as against 151 days in FY2016. This is majorly on account of high inventory holding period of 114 days in FY2017. Rice in itself is working capital intensive business because of the need to store large quantities of paddy as the harvesting season is during September-November. Also, companies store rice in order to 'age' which improves its characteristics in terms of taste, aroma etc. and thus fetches better realizations.

## Agro climatic risk

Paddy which is the main raw material required for rice is a seasonal crop and the production of the same is highly dependent upon monsoons. Thus inadequate rainfall may affect the availability of paddy in adverse weather conditions. As paddy price is largely dependent on several external factors like domestic demand outlook, international trade regulations and domestic productions.

## Highly fragmented and competitive industry

The agro processing industry is highly competitive and fragmented with several organised and unorganised players. The intense competition and low value addition in the agro processing industry results in low operating margins.

## Analytical Approach

SMERA has consolidated the financial and business risk profiles of ARMPL and Shree Shakambari Rice Mills Private Limited (SSRMPL), together referred to as the Aadhar Group, on account of high operational fungibility between the entities and common ownership.

## Outlook: Stable

SMERA believes that the group will continue to maintain a 'Stable' outlook over the medium term owing to the experience of its management and moderate financial risk profile. The outlook may be revised to 'Positive', if the group achieves sustained improvement in profit margins while maintaining healthy revenue growth. Conversely, the outlook may be revised to 'Negative' in case of steep decline in revenues, profit margins or deterioration in the capital structure or coverage indicators.

## About the Rated Entity - Key Financials (Consolidated)

	Unit	FY17 (Actual)	FY16 (Actual)	FY15 (Actual)
Operating Income	Rs. Cr.	149.52	133.04	114.42
