Rating Rationale

Acuite has downgraded the long-term rating to '**ACUITE B**' (read as **ACUITE B**) from '**ACUITE B+**' (read as **ACUITE B plus**) on the Rs. 5.60 crore bank facilities of Nahal Poultry Farm on account of information risk. The rating continues to be flagged as "Issuer Not-Cooperating" and is based on the best available information.

About the Company

Punjab-based, Nahal Poultry Farm (NPF) was established in the year 1980 as a proprietorship firm by Mr. Jaswinder Singh. The firm is engaged in the business of trading of eggs and cull birds. The ratings continue to draw comfort from the experienced promoters and moderate financial risk profile. However, the aforementioned strengths are partially offset by the small scale of operation, stretched working capital cycle and highly fragmented in the domestic industry.

Unsupported Rating

Not Applicable

Non-cooperation by the issuer/borrower:

Acuité has been requesting for data, information and undertakings from the rated entity for conducting surveillance & review of the rating. However, the issuer/borrower failed to submit such information before the due date. Acuité believes that information risk is a critical component in such ratings, and noncooperation by the issuer along with unwillingness to provide information could be a sign of potential deterioration in its overall credit quality. This rating is, therefore, being flagged as "Issuer not-cooperating", in line with prevailing SEBI regulations and Acuité's policies.

Limitation regarding information availability:

The rating is based on information available from sources other than the issuer/borrower (in the absence of information provided by the issuer/borrower). Acuité endeavoured to gather information about the entity/ industry from the public domain. Therefore, Acuité cautions lenders and investors regarding the use of such information, on which the indicative credit rating is based.

Note on Complexity Levels of the Rated Instrument

In order to inform the investors about complexity of instruments, Acuite has categorized such instruments in three levels: Simple, Complex and Highly Complex. Acuite's categorisation of the instruments across the three categories is based on factors like variability of the returns to the investors, uncertainty in cash flow patterns, number of counterparties and general understanding of the instrument by the market. It has to be understood that complexity is different from credit risk and even an instrument categorized as 'Simple' can carry high levels of risk.
