Rating Rationale

Acuité has reaffirmed the long-term rating of 'ACUITE BBB+' (read as ACUITE triple B plus) on the Rs. 750.00 Cr. bank facilities and on the Rs. 50.00 Cr. Non-Convertible Debenture issue of Vedika Credit Capital Limited (VCCL). The outlook is 'Stable'.

Rationale for the rating

The rating factors in comfortable capitalization levels supported by regular and timely equity infusion by promoter group, steady financial performance, comfortable asset quality metrics coupled with healthy provision buffers. During FY23, the promoter group infused capital of Rs.20.21Cr augmenting capitalization levels to 23.13% as on September 30, 2022^. VCCL was able to maintain comfortable asset quality metrics as on September 30, 2022 characterized by GNPA of 1.71% [September 30, 2021: 2.06%] and nil NNPAs. Despite disbursements picking up momentum post H2FY23, the company's financial performance has improved owing to lower credit costs and curtailment of operating costs. The company's total AUM increased to Rs 816.25 Cr as in September 30, 2022 from Rs 745.72 Cr as in March 31, 2022. The company reported PAT of Rs. 23.25 Cr in FY2022. The rating continues to factor in the long standing presence of the company in the microfinance sector adequate liquidity profile and comfortable resources raising ability. However, the rating is constrained by VCCL's moderate scale of operations and its relatively leveraged capital structure whereby gearing stood at 4.77x as on September 30, 2022.

Going forward, VCCL's ability to raise capital and profitably grow its loan portfolio while maintaining a conservative leverage level will be a key monitorable.

Key Rating Drivers

Strength

Established track record of operations

VCCL commenced its lending operations since 2007 through a mix of Individual loans and Microloans, VCCL has a 7-member Board led by Mr. Ummed Jain (Chairman), of which four are Directors and three are independent Directors who have over two decades of experience in the field of banking, law and social services. The strong managerial base has supported the growth strategy of the company. The company has increased its geographical presence from three states, i.e. Bihar, Jharkhand, and West Bengal in 2016 to seven states in 2022 by diversifying to Assam, Uttar Pradesh, Tripura and Odisha and increased network coverage from 44 branches as on March 31, 2016 to 192 branches as on November 30, 2021. The company's AUM stood at Rs. 900.65 Cr. as on November 30, 2022 as compared to Rs. 745.72 Cr in FY22 and Rs. 517.99 Cr. in FY2021. The company has also leveraged its capital funds to finance its business growth. The company has strengthened its operational presence over the years by diversifying its geographical penetration along with lower dependence towards a single product. Microfinance loans are usually disbursed in clusters and are lent to marainal borrowers with limited ability to absorb income shocks. The management has judiciously improved its geographical penetration resulting in a diverse borrower base spread across various districts and geographies. As on November 30, 2022, West Bengal and Bihar contributed 32.28 percent and 17.87 percent of VCCL's portfolio, respectively. The balanced portfolio was distributed across Jharkhand, Assam, Uttar Pradesh, Odisha and Tripura.

The company also has individual exposure through business loans and cross sale products in case of regulatory restrictions on lending through the normal microfinance channels. As on November 30, 2022, microloans comprised 74 percent of the overall AUM, with the balance being contributed by cross sale and business loans. The company plans to balance its risk metrics for business loans by migrating its existing customers from small to medium level, this change in product mix will help them in improving its fee income.

The contribution of off book exposure to overall AUM has increased to 29.79 percent as on November 30, 2022 as against 22.1 percent as on March 31, 2022. The company takes off book exposure through the Business correspondent model for entities such as MAS Financial Services Limited, Reliance Commercial Finance Limited, IDFC First Bank Limited, SIDBI, IDBI and Fincare SFB. It has also entered into Co Lending arrangements to support its funding requirement. Going forward, AUM exposure will not only be organic but will also increase their managed portfolio through co-lending arrangements which will consequently result in growth of total loan book. Acuité believes that VCCL's established presence and long track record of operations in the area of operations will support its credit profile.

Comfortable capitalization levels coupled with resources raising ability

Capital Adequacy Ratio in September 30, 2022 stood comfortable at 23.13 percent (Tier 1: 20.86 percent) as against 20.05 percent (Tier 1: 16.76 percent) in FY2022. Equity infusion by the promoters will improve the capitalization buffers. During Q1FY23, the company received equity infusion of Rs. 20.21 Cr by promoters to support the capital adequacy levels. Further, in H2FY2023, there is expected to be an equity infusion of Rs. 15 Cr. In addition to this, the company received subscription to NCD amounting to Rs.22.90 Cr. This will improve company's Tier II capital. The Company has plenty of borrowings in pipeline from various PSU, MFI/NBFC

and PVT Banks. Under the CGTMSE scheme, the company has been able to borrow at lower rates for a longer tenor. The ability of the company to raise capital, to maintain its capital adequacy levels will be key monitorable.

Improvement in asset quality and financial performance

The asset quality profile of the company has improved as characterized by sequential improvement in monthly collection efficiency rates and low pool of restructured assets. The asset quality is stable marked by its on time dpd portfolio at 93.1 percent as on November 30, 2022 as against 92.2 percent in FY2022 and 91.6 percent in FY2021.

Gross NPA has reduced from 2.01% in FY2022 to 1.71% as on November 30, 2022 whereas in FY21 it stood at 2.21%. Net NPA were nil on account of provisions made by the company. With marginal increase in AUM and lower cost of funds during H1FY2022, overall profitability had improved where Net Interest Income stood at Rs. 25.88 Cr. The same stood at Rs. 40.64 Cr in FY2022 against Rs. 41.81 Cr in FY2021. PAT had improved from Rs. 4.71 Cr in FY2021 to Rs. 23.25 Cr in FY2022. Further, half yearly PAT for FY2023 stood at Rs. 6.52 Cr. Due to improvement in profitability, ROAA stood at 3.92 percent in FY2022 as compared to 0.99 percent in FY2021 and annualized ROAA for H1FY2023 stood at 3.39 percent.
