### Rating Rationale

Acuité has reaffirmed the long-term rating of '**ACUITE BB-**' (read as **ACUITE double B minus**) on the Rs. 20.00 Crore bank facilities of California Agri Nuts Corporation (CANC). The outlook is '**Stable**'.

### About the Company

Established in 2008, CANC is a Delhi based partnership firm engaged in the trading of dry fruits. The day to day operations are managed by partners, Mr. Raju Bhatia and Mrs. Simi Bhatia. The firm imports dry fruits and grocery goods from across the world (Australia, USA and Chile, among others) and sells them pan India.

### Analytical Approach

Acuité has considered the standalone business and financial risk profile of CANC to arrive at this rating.

### Key Rating Drivers

#### Strengths

- **Experienced Management**

CANC was established in 2008 as a partnership firm engaged in exporting of dry fruits. The partners, Mr. Raju Bhatia and Mrs. Simi Bhatia have an experience of around two decades in the trading industry. Mr. Raju Bhatia is the India ambassador to represent the dry fruit industry at the International Nut and Dry Fruit Council (INC).

Acuité believes that the company will benefit from its experienced management to maintain healthy relations with its customers and suppliers.

- **Efficient working capital management**

The working capital management of the firm is highly efficient in FY2020 marked by Gross Current Assets (GCA) of 33 days in FY2020 as against 36 days in FY2019. The inventory and debtor levels stood at 23 days and 5 days in FY2020 as against 23 days and 4 days in FY2019, respectively. The creditor days stood at 6 days in FY2020 as against 3 days in FY2019. As a result, the bank limits utilization is low at 36 percent in the last six months ending February, 2021. Acuité believes that the working capital requirements will continue to remain efficient over the medium term on account of low inventory and debtor days.

#### Weaknesses

- **Average financial risk profile-**

Firm's financial risk profile remained average marked by moderate net worth, gearing and moderate debt protection metrics. The net worth of the firm stood at Rs.7.75 Crore as on 31 March 2020 as against Rs.7.71 Crore as on 31 March 2019. The gearing level (debt-equity) stood at 2.54 times as on 31 March

2020 as against 2.89 times as on 31 March 2019. The total debt of Rs.19.67 Crore as on 31 March 2020 consists of unsecured loan of Rs.3.86 Crore and working capital borrowings of Rs.15.82 Crore. The interest coverage ratio (ICR) stood at 1.38 times in FY2020 as against 1.37 times in FY2019. NCA/TD (Net Cash Accruals to Total Debt) ratio stood high at 0.03 times in FY2020 as against 0.03 times in FY2019.

• **Competitive and fragmented nature of industry with foreign exchange fluctuation risk**

The dry fruits industry is highly competitive with multiple players coupled with low entry barrier which results into intense competition from both organized as well as unorganized players. Also, the firm faces a foreign exchange fluctuation risk due to heavy imports and less hedging mechanism in place.

**Rating sensitivity**

- Continuous improvement in operating income for the past three years, however in the current financial year the operating income is expected to show a decline due to decline in the prices.

**Material Covenant**

None

**Liquidity position: Adequate**

The company generated cash accruals of Rs.0.69 Crore in FY2020 as against no significant CPLTD for the same period. The cash accruals of the company are estimated to remain in the range of around Rs.0.76 Crore to Rs.1.00 Crore during FY2021-23 against no significant CPLTD for the same period. **Outlook: Stable**

Acuite believes CANC will maintain a stable business risk profile in the medium term on account of its experienced management. The outlook may be revised to 'Positive' in case the company registers higher-than-expected growth in revenues and net cash accruals while maintaining healthy debt protection metrics. Conversely, the outlook may be revised to 'Negative' in case the company registers lower-than-expected growth in revenues and profitability, or in case of deterioration in the company's financial risk profile or higher than expected working capital requirements.
