

## Press Release

### Prakash Ferrous Industries Private Limited

January 17, 2020

### Rating Withdrawn

<b>Total Bank Facilities Rated*</b>	Rs. 110.00 Cr.
<b>Long Term Rating</b>	ACUITE BBB (Withdrawn)
<b>Short Term Rating</b>	ACUITE A3+ (Withdrawn)

\* Refer Annexure for details

### Rating Rationale

Acuité has withdrawn its long-term rating at '**ACUITE BBB**' (read as **ACUITE triple B**) and short term rating at '**ACUITE A3+**' (read as **ACUITE A three plus**) on the Rs. 110.00 crore bank facilities of PRAKASH FERROUS INDUSTRIES PRIVATE LIMITED.

The rating withdrawal is in accordance with the Acuité's policy on withdrawal of rating and on account of request from the company and NOC received from the bankers.

Andhra Pradesh based, Prakash Ferrous Industries Private Limited (PFIPL) was incorporated in 2007. It is engaged in manufacturing Thermo Mechanical Treatment (TMT) bars. PFIPL has over 700 dealers spread across Andhra Pradesh, Tamil Nadu Kerala and Karnataka. Further, the company also caters to institutional buyers in real estate. The company's manufacturing facility is located at Srikalahasti, Andhra Pradesh with an installed capacity of 3 lakh metric tonne (MT) per annum. These products are sold under 'Tirumala' brand.

### Analytical Approach

Acuité has considered standalone financials and business risk profiles of PFIPL to arrive at this rating.

### Key Rating Drivers

#### Strengths

#### • Experienced management and long track record of operations

PFIPL is promoted jointly by the Agra-based Prakash India group (managed by Garg family) and Chennai-based Meenakshi group (managed by Agarwal family) who possess over a decade experience in the steel industry. The day-to-day operations of the company are jointly managed by both this groups. The rich experience of the promoters in the industry has helped the company in increase the dealer network in south India region from 300 to 700, and addition of more institutional buyers in construction and real estate sector. The same has reflected in healthy revenue growth over the last three years through FY2019. The revenues of the company grew at a compound annual growth rate of 22.5 percent to Rs.561.39 crore in FY2019 from Rs.335.32 crore in FY2017. Further, revenue growth is also backed by the capital expenditure of Rs.18 crore during the last three years through FY2019 for capacity expansion. Acuité believes that, experience of the management in the industry, increase in dealer network across south India is expected to support in improving its business risk profile over the medium term.

#### • Moderate financial risk profile

The financial risk profile of the company is moderate marked by healthy net worth, gearing and moderate debt protection metrics. The net worth of the company stood healthy at Rs.89.71 crore as on 31 March, 2019 as against Rs.82.63 crore as on 31 March, 2018. Gearing (debt to equity ratio) and TOL/TNW (Total outside liabilities to total net worth) stood moderate at 1.26 times and 2.05 times respectively in FY2019. Of the total debt outstanding of Rs.113.20 crore as on 31 March, 2019, long term debt constitutes to Rs.33.35 crore, unsecured loans of Rs.28.84 crore and short term debt of Rs.51.00 crore. The revenues of the company increased by around 29 per cent to Rs.561.39 crore during 2018-19, while its operating margins were in

the range of 6-8 per cent. The moderate profitability levels coupled with moderate debt levels has led to moderate debt protection measures. Interest coverage ratio and Net cash accruals to total debt stood moderate at 2.81 times and 0.10 times respectively in FY2019. Debt service coverage ratio stood moderate at 1.24 times in FY2019.

#### • **Moderate working capital management**

PFIPL's working capital cycle is moderate as is reflected by its gross current asset (GCA) days of around 70-90 days for the last three years through FY2019. The company maintains inventory of around two months for regular supply of materials to its customers. PFIPL extends a credit period of around 30-45 days to its customers, which reflected in debtor cycle of 24-37 days for the last three years through FY2019. On the other hand, the company gets 30-45 days credit from its suppliers. Acuite expects the working capital management to remain moderate over the medium term.

### **Weaknesses**

#### • **Highly competitive industry and geographic concentration risk**

PFIPL operates in a highly competitive steel products industry with much pressure on capacity utilisation and pricing power. The steel industry is cyclical in nature and so are end user industries like real estate and construction. Besides, PFIPL faces competition from other reputed brands in Andhra Pradesh, Tamil Nadu and Karnataka. The company is also exposed to geographical concentration risk as the company generates about 70 percent of revenues from the Andhra Pradesh state, and any sluggish environment in the industrial or real estate activity may impact the business risk profile of the company

### **Liquidity position: Adequate**

PFIPL has adequate liquidity marked by moderate net cash accruals to its maturing debt obligations. The company has generated cash accruals of Rs.14.9 to 11.2 crore during the last three years through 2019, while its maturing debt obligations were in the range of Rs.14.0-8.37 crore over the same period. The company's operations are moderate with gross current asset (GCA) days of 91 in FY2019. The company maintains unencumbered cash and bank balances of Rs.2.03 crore as on March 31, 2019. The current ratio of the company stood moderate at 1.22 times as on March 31, 2019.
