Rationale for Rating

Non Convertible Debentures

Total Outstanding Quantum

(NCD)

(Rs. Cr)

The rating continues to factor in company's established presence in the areas of operations, experienced management, and representation of institutional investors on the MML's board. The rating further takes into account the improvement in company's AUM and its improved capital structure supported by regular capital infusion by its promoters. Midland Microfin Limited's AUM grew by ~42 percent to Rs. 2543.25 crore as on March 31, 2024 from Rs. 1789.45

Cr. as on March 31, 2023. During FY24, the company received a capital infusion of Rs. 71.02 crore from its existing shareholders and ICICI Bank in the form of Compulsorily convertible preference shares and equity, resulting in improvement in its gearing levels at 4.06 times as on March 31, 2024 as against 4.50 times and 4.60 times as on March 31,2023 and March 31, 2022 respectively. The ratings also considers the company's adequate capitalization profile with capital adequacy ratio (CAR) at 28.34 percent as on March 31, 2024. Going forward, the company's ability to maintain its capital structure through capital infusions will remain a key rating sensitivity. The above strengths are partially offset by the increased slippages and higher credit costs in FY24 coupled with the inherent risks in the micro finance segment and modest capital structure.

Unsupported Rating

ACUITE A-/ Stable

Analytical Approach

Acuité has considered the standalone business and financial risk profile of MML, the rating of MML (ACUITE A-/ Stable) and has further factored in the credit enhancement arising from the structure.

For Rs. 11.00 Cr. PCE transaction:

The suffix (CE) indicates credit enhancement arising from the PCE in the form of unconditional, irrevocable, payable on demand guarantee covering 18% of the initial principal value of the facility amount. The strength of the underlying structure and continued adherence to the same is central to the rating. Accounting for the Partial Credit Enhancement, the agency has enhanced the rating of the Rs. 11.00 Cr facility to ACUITE A (CE)/ Stable. The Credit Enhancement (CE) in the rating is solely for the rated issue and its terms and structure. The notched up rating of the loan facility incorporates the PCE in the form of guarantee by Northern Arc Capital Limited ("Northern Arc"), acting as the Credit Enhancer/ Guarantor.

Key Rating Drivers

Strength

Strength of underlying structure

The Rs. 11.00 Cr. transaction has a PCE in the form of unconditional, irrevocable, payable on demand guarantee by Northern Arc covering 18 percent of the issue size of facilities. The level of guarantee as a percentage of the aggregate outstanding principal of the issuance is, however, capped at 24 percent. If due to the amortization of the facilities, the credit enhancement percent exceeds 24 percent of the aggregate outstanding principal of the facilities, the Guarantee Cap shall be reduced to 24 percent of the aggregate outstanding principal of the facilities (Revised Guarantee Cap). MML shall make payments of interest and principal amounts due along with all other obligations (if any) under the Transaction Document on T-3 business days. In the event of failure of the Issuer to comply, on T-3 Business Days, the Trustee shall invoke the PCE and the credit enhancement shall be dipped on T-1 Business days. The issuances shall be secured by way of a first ranking, exclusive and continuing charge on identified receivables. The Hypothecated Receivables shall at all times be equal to the value of 1.1 times the outstanding amounts of the facility.

Established presence in the areas of operations

MML commenced its microfinance operations in 2011, extending micro-credit to women borrowers engaged in income generating activities under Joint Liability Group (JLG) model.

The company caters to rural and semi-urban areas where the borrowers are mainly engaged in agri and agri allied activities and providing essential services. MML commenced its operations in Punjab and over the years has expanded its presence in other states namely Bihar, Rajasthan, Haryana, Uttar Pradesh, Jharkhand, Himachal Pradesh, Gujarat, Madhya Pradesh, Uttarakhand and West Bengal. The company has presence in 209 districts with a network of 436 branches with an asset under management (AUM) of Rs. 2,543.25 Cr. as on March 31, 2024. MML is promoted by Mr. Amardeep Singh Samra (Managing Director) who has been previously engaged in asset financing, hire-purchase and leasing businesses. Mr. Samra purchased an existing NBFC - Sajan Hire Purchase Private Limited in 2010 and renamed it to Midland Microfin Limited. The company is led by Mr. Samra who is supported by other members on the board which comprise Mr. Vijay Kumar Bhandari, ex- GM Central Bank of India, having around three decades of experience in banking, Mrs. Kamna Aggarwalla, ex Chairperson of the Confederation of Indian Industry (CII), Punjab amongst others. Private equity investor Kitara Capital have board representation and MML benefits from their expertise. Mr. Sachin Kamath founder member of Kitara Capital International Limited is on the board of MML. The company has on-boarded Mr. Praveen Kumar Gupta as an Independent Director who has over 3 decades in the banking sector to further strengthen their management board.

Acuité believes that MML will continue to benefit from its established presence and experience of the promoters in micro finance segment.

Demonstrated fund raising ability

MML's networth stood at Rs. 487.86 Cr. as on March 31, 2024, as compared to Rs.347.57 Cr. as on March 31, 2023 and Rs. 270.85 crore as on March 31, 2022. The company has demonstrated fund raising ability by raising funds from private equity investor and promoter group. Over the last four years the company has raised ~224 crore of capital from its investors in the form of equity or Compulsorily convertible preference shares (CCPS). Further, during FY24 and 1QFY24, MML received a capital infusion of Rs. 71.02 crore from its existing shareholders and ICICI Bank in the form of Compulsorily convertible preference shares and equity. MML received sanctions totalling to ~Rs. 2,157 Cr. during FY2024 in the form of term loans and NCDs from Banks & NBFC/FI's throughout the year. MML has demonstrated its fund raising ability with access to funds from Banks, NBFC/FI's, External commercial borrowings, NCD's and also securitization.

Acuité believes that the company's growth prospectus will be supported by promoter's experience in the industry along with their demonstrated track record of resource raising ability.

Sustained growth in AUM and profit ability

MML's AUM growth during FY24 led by expansion in newer geographies and thereby also reducing its overall geographical concentration. The company has expanded its overall network to 436 branches in 209 districts as on March 31,2024. The AUM of the company stood at Rs. 2,543.25 crore as on December 31,2024 as against 1,789.45 crore as on March 31, 2023 and Rs. 1,137.42 crore as on March 31, 2022. The company's AUM comprises of a mix of onbook and off book exposure. MML takes off book exposure through securitized transactions like Pass through Certificates (PTC) and Direct Assignments. As a result of the increased scale, the profitability of the company has improved reflected by improvement in Return on Average Assets (RoAA) and Net Interest Margins (NIM). The ROAA for FY24 stood at 3.14 percent as against 2.64 percent for FY23. The Net interest Margins of the company improved to 15.10 percent for FY24 as against 15.62 percent for FY23. The profit after tax for FY24 stood at Rs. 72.15 crore as against Rs. 46.83 crore for FY23.

Weakness

Modest albeit improving capital structure

MML is engaged in microfinance lending providing short term loans up to 12-24 months. The company extends micro-credit through the Joint Liability Group (JLG) model. The company's networth stood at Rs. 487.86 Cr. and total borrowings at Rs. 1,982.77 Cr. as on March 31, 2024 which translates into a gearing of 4.06 times. While the gearing has seen a sequential improvement the capital structure of the company continues to remain modest. The

improvement seen in the capital structure is supported by regular capital infusions by the promoters and investors and increased accretion of profits to reserves. To support the growth momentum MML would require further debt and in order to maintain the capital structure the promoters might be required to infuse additional equity to support any future business growth. Acuité believes that company's ability to manage its gearing will be a key monitorable.

Profits susceptible to higher credit cost

On account of slippages, the GNPA of the company slightly improved to 2.97 percent with NNPA of 0.82 percent as on March 31, 2024 as against 3.09 percent with NNPA of 1.18 percent as on December 31, 2023. There is a sharp increase in GPNA from 0.06 percent in FY 23 to 2.97 percent in FY 24 is largely on account of factors such as expectation of loan waivers to be extended by RBI, farmer's protests and floods.

Acuite believes that the ability of the company to profitably scale-up its operations while maintaining healthy asset quality will be key monitorable.

Inherent risk in microfinance segment

MML primarily extends unsecured loans to economically challenged borrowers who have limited ability to absorb income shocks and it majorly focusses on the rural areas. Since financial assistance to economic challenged borrowers is a sensitive issue, from government standpoint the regulatory dispensation in respect of the policies becomes relevant. Any changes in the regulatory environment impeding the ability of entities like MML to enforce collections, etc will have an impact on its operational performance. Besides the regulatory risks, the inherent nature of the business renders the portfolios vulnerable to event risks such as natural calamities in the area of operations.

Acuité believes that containing additional slippages while maintaining the growth in the loan portfolio will be crucial.

Assessment of Adequacy of Credit Enhancement (Applicable only for CE Ratings)

MML has significant experience in the MFI segment, and its adequate capital position has been bolstered by capital infusions. Thus, even after considering risks such as geographical concentration and possible asset quality deterioration, Acuité believes that the CE will stand adequate in all scenarios and in the event of any requirement, Northern Arc will provide the necessary support.
