## Analytical Approach

SMERA has considered the standalone business and financial risk profiles of AGC to arrive at the rating.

## Outlook- Stable

SMERA believes that AGC will maintain a Stable outlook and benefit over the medium term from its experienced management. The outlook may be revised to 'Positive' if the company exhibits significant improvement in its scale of operations and profitability, backed by sustained increase in occupancy and room tariffs. Conversely, the outlook may be revised to 'Negative' if AGC reports decline in occupancy leading to lower-than-expected cash accruals or undertakes larger-than-expected debt-funded capex. Further any increase in advances to group companies may deteriorate its financial risk profile, resulting in a negative outlook.
