Analytical Approach

SMERA has consolidated the financial and business risk profiles of Ramson and Bros (Partnership) and Tulsi Trading Corporation (TTC) together referred to as the Tulsi Group. The consolidation is in view of the common ownership and similarities in the lines of business.

Outlook: Stable

SMERA believes that the Tulsi Group will maintain a stable outlook over the medium term on account of its established track record and experienced management along with long association with its suppliers. The outlook may be revised to 'Positive' in case the group registers significant growth in revenue and accruals along with improvement in the financial risk profile. Conversely, the outlook may be revised to 'Negative' in case of significant elongation in the working capital cycle, lower-than-expected growth in revenue and profitability or deterioration in the financial risk profile.
