

## Press Release

### T C SPINNERS PRIVATE LIMITED (TCSPL)

15 February, 2018

#### Rating Reaffirmed and Assigned

<b>Total Bank Facilities Rated*</b>	Rs. 115.00 Cr. (Enhanced from Rs.25.00 crore)
<b>Long Term Rating</b>	SMERA BBB/Stable (Assigned and Reaffirmed)
<b>Short Term Rating</b>	SMERA A3+ (Assigned)

*\*Refer annexure for details*

SMERA has reaffirmed the long term rating of '**SMERA BBB**' (read as **SMERA triple B**) on Rs.43.00 crore. Further SMERA has assigned the long term rating of '**SMERA BBB**' (read as **SMERA triple B**) and short term rating of '**SMERA A3+**' (read as **SMERA A three plus**) on the Rs. 72.00 crore on the above bank facilities of T C Spinners Private Limited (TCSPL). The outlook is '**Stable**'.

TCSPL is engaged in the manufacturing of cotton, polyester yarn and spun sewing thread of counts ranging from 10's to 40's at Lalru, Punjab. In 2006, Mr Satia and family, promoter of Satia Industries Limited (SIL), a listed company acquired the cotton spinning facility of Euro Cotspin Limited (Division of M/s A.V. Cottex Ltd) from Punjab National Bank under the SARFAESI Act and changed the name to T C Spinners Private Limited (TCSPL). The company is currently being managed by, Mr Ajay Satia, Mr Chirag Satia, Mr R.K. Bhandari, Mr Narinder Kumar Chugh and Mr Avinash Jain.

#### Key rating drivers

##### **Strengths**

##### **Established position in yarn manufacturing, long standing relations with customers:**

TCSPL has been in the aforementioned business for more than a decade. The company is closely held by the promoters of Satia Industries viz. Mr. Chirag Satia, Mr. Ajay Satia, Mr. Dhruv Satia and Mr. Narinder Kumar Chugh who possess over two decades of experience in various industries including paper, cotton ginning and spinning.

TCSPL has an established customer base in India as well as abroad. It has been supplying to reputed clients such as Welspun Global, Platinum Yarns, Mittal Enterprises and others. TCSPL caters to PAN India.

##### **Healthy financial risk profile marked by financial support from its promoters:**

The financial risk profile of TCSPL is healthy marked by networth of Rs.81.45 crore as on 31 March, 2017 as against Rs74.24 crore as on 31 March, 2016 (The networth comprises interest free unsecured loan to the tune of Rs.53.30 crore subordinated to bank debt as on March 31, 2017). The gearing improved to 0.99 times (Adjusted Debt-equity at 0.90 times) as on 31 March, 2017 as against 1.18 times in the previous year on account of additional infusion of unsecured loans

by directors. The total debt of Rs. 80.99 crore comprises working capital funding of Rs.37.55 crore, term loan of Rs. 28.04, Current portion of long term debt (CPLTD) of Rs.7.84 and unsecured loan of Rs.7.56 crore as on March 31, 2017. The ICR remained moderate at 2.43 times in FY2017 and 1.93 times in FY2016. The net cash accruals stood at 11.34 crore for FY2017.

SMERA believes that TCSPL will benefit from SIL's power generation capacity plant post-merger. At present SIL are having 28 mw power plants which are underutilised. Moreover SIL has set up another solar power plant of 2MW in FY17-18. The additional capex will increase SIL's power generation capacity and is likely to reduce external power procurement in the combined entity, thereby resulting in power cost saving

**Moderate profitability:** The operating margins improved from FY2015 to FY2017. The operating margin increased to 11.25 percent in FY2017 from 11.06 percent in FY2016 and 7.36 percent in FY2015 mainly on account of low cost of raw material.

SMERA believes that the merger will enable TCSPL to use the surplus power generated by SIL reducing its power cost leading to improvement in the EBITDA margins.

**On-going support from promoters:** The promoters of SIL have infused Rs.60.86 crore as unsecured loans in TCSPL as on 31 March, 2017 as against Rs.47.25 crore in the previous year for providing financial aid.

### Weaknesses

**Working capital intensive operations:** The operations are working capital intensive marked by high Gross Current Asset days (GCA) of 194 days for FY2017 and 225 days in the previous year. The Inventory days stood high at 164 days in FY2017 and 165 days in FY2016. Moreover, the average utilisation of working capital facility stood at 95 percent for the last six months ended November 2017.

**Susceptible to changes in raw material prices:** The margins are susceptible to changes in cotton prices. The price of cotton is fixed by the government through Minimum Support Price (MSP). However, the purchase price depends on the prevailing demand-supply situation which restricts bargaining power with suppliers. Adverse movements in cotton prices further impacts profitability.

**Highly fragmented industry:** The company faces stiff competition from other players in the industry.

### Analytical approach:

SMERA has considered the standalone business and financial risk profiles of TCSPL to arrive at the rating. SMERA has also considered the support of the group company Satia Industries Limited (SIL) since the promoters have informed the exchange vide letter dated August 04, 2017 about a proposal to merge both the companies.

## Outlook: Stable

SMERA believes that TCSPL will maintain a Stable outlook owing to the management's extensive experience in the textile industry and established relations with customers. The outlook may be revised to 'Positive' in case of sustained growth in revenue and profitability while maintaining the working capital cycle. Conversely, the outlook may be revised to 'Negative' in case of significantly lower than expected net cash accruals, elongation of working capital cycle or occurrence of any event that could results in delay in merger with SIL.

## About the group company

Satia Industries Limited (SIL) was incorporated in 1980. The company manufactures writing and printing paper. SIL has a manufacturing facility with capacity of 1,00,000 MTPA at Malout, Mukhtsar. The company manufactures a range of products including colored paper, ledger paper, cartridge paper among others.
