In FY 2017, the networth levels of the company has increased to Rs. 5.31 crores as on March 31, 2017 from Rs. 1.94 crores in the previous year, majorly on account of infusion of Rs. 2.67 crores of unsecured loans from promoters. The gearing levels (debt to equity ratio) of the company stood at 0.97 times as on March 31, 2017

- Working capital intensive nature of operations**

The inventory days stood at 64 in FY2017 as against 89 in FY2016 while debtor days stood at 157 in FY2017 as compared to 75 days in FY2016, mainly due to high orders received towards the end of financial year.

### Analytical Approach

Acuite has considered the standalone business and financial risk profiles of the BWMTPL to arrive at this rating.

### Outlook: Stable

Acuite believes that Blue Whale Machinery Technologies Private Limited will remain 'Stable' and the company will be able to maintain its credit profile over the medium term on account of its experienced management. The outlook may be revised to 'Positive' in case the entity receives higher than expected revenues and profit margins. The outlook may be revised to 'Negative' in case significant decline in firms revenue and profitability or in case of higher than expected debt funded working capital requirement leading to strain on its debt servicing ability.
