Rating Rationale

Acuite has downgraded its long-term rating to ‘**ACUITE BB**’ (read as **ACUITE double Bf**) from ‘**ACUITE BB+**’ (read as **ACUITE double B plus**) on the Rs. 9.05 Cr. and reaffirmed its short-term rating of ‘**ACUITE A4+**’ (read as **ACUITE A four plus**) on the Rs.4.00 Cr. bank facilities of Paramount Powders Private Limited (PPPL). The rating downgrade is based on non-submission of NDS for 03 consecutive months. The rating is now flagged as “Issuer Not-Cooperating” on account of information risk and is based on the best available information.

About the Company

Based in Delhi, Paramount Powders Private Limited (PPPL) is established in 1997 and is managed by Mr. Tarlochan Singh Badyal and Mr. Manish Jain. The company is engaged in the manufacturing of polyurethanes and thermosetting powder coating.

Unsupported Rating

Not applicable

Non-cooperation by the issuer/borrower

Acuite has been requesting for No Default Statements (NDS); however, despite multiple requests; the Company’s management has remained non-cooperative and not submitted the NDS for the preceding 03 consecutive months. Acuite believes that information risk is a critical component in such ratings, and noncooperation by the issuer along with unwillingness to provide information could be a sign of potential deterioration in its overall credit quality. This rating is therefore being flagged as “Issuer not-cooperating”, in line with prevailing SEBI regulations and Acuite’s policies.

Limitation regarding information availability

This rating is based on information available from sources other than the issuer / borrower (in the absence of information provided by the issuer / borrower) . Acuite endeavoured to gather information about the entity/industry from the public domain. Any rating with the suffix ‘Issuer not cooperating’ is assigned without any management interaction with the issuer entity or any data / information from the entity. Sometimes this non co-operation by a

rated entity may be due to a result of deterioration in the credit risk profile of the entity. Therefore, Acuite cautions lenders and investors regarding the use of such information, on which the indicative credit rating is based.

Note on complexity levels of the rated instrument

In order to inform the investors about complexity of instruments, Acuité has categorized such instruments in three levels: Simple, Complex and Highly Complex. Acuite's categorisation of the instruments across the three categories is based on factors like variability of the returns to the investors, uncertainty in cash flow patterns, number of counterparties and general understanding of the instrument by the market. It has to be understood that complexity is different from credit risk and even an instrument categorized as 'Simple' can carry high levels of risk. For more details, please refer Rating Criteria "Complexity Level Of Financial Instruments" on www.acuite.in.
