## **Rating Rationale**

Acuité has reaffirmed the long term rating of 'ACUITE BBB-' (read as ACUITE triple B minus) on the Rs.40.00 crore bank facilities of Pinkku Traders. The outlook is 'Stable'.

#### Rationale for Reaffirmation

The rating has been reaffirmed basis the stable operating and financial performance of the group, albeit slight decline in operating income. The operating income of the Group stood at Rs. 491.68 Cr in FY22(Prov.) as against Rs. 556.21 Cr, while the operating margins continued to range between 2.40-2.70 percent for the three years ended FY2022. The rating draws comfort from the extensive experience of the promoters and their established presence in liquor distribution segment. The Group has been a licensed trader of Indian made foreign liquor for more than two decades and continues to be exclusive distributor of key brands in the segment in its region. The rating is however constrained by the below average financial risk profile, working capital intensive nature of operations and overall stretched liquidity position of the Group. Going forward, ability of the Group to improve its financial risk profile and maintain its scale of operations and profitability margins will be remain key rating monitorables.

#### **Analytical Approach**

For arriving at the ratings, Acuité has consolidated the business and financial risk profiles of Pinkku Traders and Balaji Enterprises, together referred to as the PB Group. The consolidation is mainly on account of similarity in the line of business and common management.

# Key Rating Drivers Strengths

## • Extensive experience of the promoters and their established presence in liquor distribution segment

The promoter, Mr. Ramesh Kishnani has an extensive experience in the liquor distribution segment for more than two decades. The other members of the family like Mr. Rajkumar Kishnani, Mr. Pradeep Kishnani, Mrs. Sheela Kishnani and Ms. Disha Kishnani are also engaged in the business. The extensive experience of the promoters and established presence in the industry has helped the company to generate healthy relations with various customers and suppliers in the domestic market. The operating income saw a moderation in FY22 to Rs. 491.68 Cr in FY22(Prov.) as against Rs. 556.21 crore in FY21 due to reduction in the distribution area in Balaji Enterprises. However, the group's revenue picked up in FY23 and it has generated a revenue of approx. Rs. 287 Cr in 7 months period ended October, 2022.

Acuité believes that the company will continue to benefit from the promoters' experience and established track record of operations in improving its business risk profile over the medium term.

Acuité expects the working capital operations of the company to remain intensive over the medium term

## • Risk of capital withdrawal

PB Group is exposed to the risk of capital withdrawal considering its partnership constitution. Any significant withdrawal from the partner's capital will have a negative bearing on the financial risk profile of the group.

The outlook may be revised to 'Positive' in case the group achieves higher than expected growth in revenues and improvement in profitability, working capital management and debt protection metrics. Conversely, the outlook may be revised to 'Negative' in case of a significant decline in revenues and operating profit margins, or deterioration in the capital structure and liquidity position on account of higher-than-expected working capital requirements.
