Rating Rationale

Acuite has reaffirmed and withdrawn its long-term rating of '**ACUITE BB+ (read as Acuite double B plus)**' on the Rs.40.00 crore bank facilities of Pinkku Traders. The rating is being withdrawn on account of the request received from the company and the NOC received from the banker's as per Acuite's policy on withdrawal of ratings as applicable to the respective facility / instrument.

Rationale for rating reaffirmation

The rating reaffirmation is on account of moderation recorded in PB Group's operating and financial performance over the last two years. The group has recorded a declining trend in both revenue and operating profitability over the period FY2021-23. The revenue declined to Rs.435.37 Cr. in FY2023 from Rs.491.14 Cr. in FY2022 and Rs. 556.21 Cr. in FY2021. The decline in revenue is attributed to discontinuation of distributorship of one of the brands and some products in the existing distributorship facing price competition from the rival brand in the target market. The trend of moderation in revenues has continued in the current financial year as well, with the group reporting a revenue of Rs.277 Cr. in 9MFY2024 (Rs.366 Cr. in 9MFY2023). The operating margins stood at 2.38 percent in FY2023 as against 2.43 percent in FY2022 and 2.59 percent in FY2021.

Further, the financial risk profile moderated mainly due to withdrawal of capital by the partners and decline in absolute profitability, thereby resulting in slightly higher gearing levels, which stood at 2.38 times for FY2023 as against 2.06 times for FY2022, and deterioration in other debt coverage indicators.

The rating is further constrained on account of moderately intensive working capital operations of the group.

However, ratings also factor in the extensive experience of the promoters and their established presence in the liquor distribution segment.
