Key Rating Drivers

Strengths

• Established track record of operations and experienced management

Mumbai based, DSSL was incorporated in 1995, thus the company has an operational track record of over two decades in IT industry. Mr. Shirish Anjaria (Managing Director) is also the Founder of the Millennium PC, an initiative which was recognized by Intel (USA). Further, Mr. Dharmesh Anjaria (Director) is a Chartered Accountant & Cost Accountant and has completed his Cisco and Intel certifications. The directors of the company have an experience of over two decades in the aforementioned line of business. The long track record of operations and experience of the management have helped the company develop healthy relationships with its customers and suppliers. Acuité believes that DSSL will sustain its existing business profile on the back of established track record of operations and experienced management.

• Consistent growth in operating income and healthy order book position

The operating income of DSSL has grown at a CAGR of 35 percent for the period FY2016-FY2019 (Prov.). The revenues increased to Rs. 303.72 crore in FY2019 (Prov.) from Rs. 210.70 crore in FY2018, Rs. 158.29 crore in FY2017 and Rs. 124.18 crore in FY2016. This is mainly on account of increased orders from existing as well as new customers. The company caters to reputed clientele such as LIC, Municipal Corporation of Greater Mumbai (MCGM), Central Bank of India, Reserve Bank of India (RBI), National Payments Corporation of India (NPCI) and Google India to name a few. However, the revenues on Q-to-Q basis has been on a declining trend. The revenues for Q1FY2019 stood at Rs 85.80 crore as against Rs. 68.79 crore in Q4FY2019. However, on Y-o-Y basis the revenues have improved in FY2019 as against FY2018. Acuité believes that the revenues are expected to improve on account of healthy order book position of Rs. 386.01 crore which are to be executed in next 1-2 years, hence giving a revenue visibility over near to medium term. It is also critical for the company to get repeat orders from its existing clients and from its new customers.

- **Healthy financial risk profile**

The financial risk profile of the company stood healthy marked by healthy net worth, debt protection metrics and coverage indicators. The net worth of DSSL stood at Rs. 30.73 crore as on 31 March, 2019 (Prov.) as against Rs. 23.14 crore as on 31 March, 2018. The increase in net worth is mainly on account of equity infusion of Rs. 3.40 crore as on 31 March 2019 (Prov.). The gearing (debt-equity) stood at 1.15 times as on 31 March, 2019 (Prov.) as against 1.53 times as on 31 March, 2018. Further, the coverage indicators stood moderate marked by Interest Coverage Ratio (ICR) which stood at 2.37 times for FY2019 (Prov.) as against 1.92 times for FY2018. Debt to EBITDA stood at 2.91 times in FY2019 (Prov.) which has improved from 4.74 times in FY2018. Acuité believes that the financial risk profile of the company is expected to remain healthy backed by healthy net cash accruals and in the absence of any major debt funded capex in near to medium term.

- **Efficiently managed working capital operations**

The company has efficiently managed its working capital operations marked by Gross Current Assets (GCA) of 90 days for FY2019 (Prov.) as against 98 days for FY2018. The debtors stood at 69 days for FY2019 (Prov.) as against 68 days for FY2018. The inventory level stood low at 21 days for FY2019 (Prov.) as against 25 days for FY2018. Further, the average bank limit utilization stood at ~70.47 percent for past six months ended May 2019. This is mainly on account of elongation of creditor days to 36 for FY2019 as against 12 in the previous year. Acuité believes that the company's ability to maintain its working capital efficiently will remain a key to maintain stable credit profile.

Weaknesses

- **Thin profitability**

The operating profitability of the company stood low at 3.63 percent in FY2019 (Prov.) as against 3.16 percent in FY2018. Further, Profit after tax (PAT) margins stood thin at 1.38 percent in FY2019 (Prov.) as against 0.90 percent in FY2018.

The company generated cash accruals of Rs. 4.91 crore for FY2019 (Prov.) while its maturing debt obligations were Rs. 0.18 crore for the same period. The cash accruals of the company are estimated to remain in the range of around Rs. 5.50 crore to Rs. 8.00 crore during 2020-22 against no expected repayment obligation. The company's working capital operations are moderate marked by gross current asset (GCA) days of 90 days for FY2019 (Prov.). The company maintains unencumbered cash and bank balances of Rs. 0.16 crore as on 31 March 2019 (Prov.). The current ratio stands at 1.28 times as on 31 March 2019 (Prov.). Acuité believes that the liquidity of the company is likely to remain adequate over the medium term on account of moderate cash accrual against no major debt repayments over the medium term.

Outlook: Stable

Acuité believes that DSSL will maintain a 'Stable' outlook over the medium term on the back of its established track record of operations, experienced management and reputed clientele. The outlook maybe revised to 'Positive' in case the company registers higher-than-expected growth in its revenues and profitability while maintaining its liquidity position. Conversely, the outlook may be revised to 'Negative' in case the company registers lower-than-expected growth in revenues and profitability or in case of deterioration in the company's financial risk profile or significant elongation in working capital cycle.
