Rating Rationale

Acuite has reaffirmed its long-term rating of '**ACUITE BB**' (read as **ACUITE double B**) and its short-term rating of '**ACUITE A4+**' (read as **ACUITE A four plus**) on the Rs.11.00 Cr. bank facilities of Spectra Chemicals (SC).

Acuite had sent repeated reminders to the company for sharing critical information for surveillance of the ratings. But despite multiple requests, the company has remained non-cooperative in providing the information within timelines. The rating is now flagged as "Issuer Not-Cooperating" and is based on the best information available.

About the Company

Spectra Chemicals (SC), established in 1978, is a Mumbai-based proprietorship concern promoted by Mr. Mrugesh Gandhi. The firm is engaged in importing and trading of chemicals. The firm imports from Taiwan, Vietnam, Brazil, Europe, and China to name a few. SC caters mainly to agrochemicals, edible oil, fertilizers, food & beverages, and the sugar industry amongst others.

Unsupported Rating

Not Applicable

Non-cooperation by the issuer/borrower

Acuite has been requesting for data, information and undertakings from the rated entity for conducting surveillance & review of the rating. However, the issuer/borrower failed to submit such information before the due date. Acuite believes that information risk is a critical component in such ratings, and non cooperation by the issuer along with unwillingness to provide information could be a sign of potential deterioration in its overall credit quality. This rating is therefore being flagged as "Issuer not cooperating", in line with prevailing SEBI regulations and Acuite's policies.

Limitation regarding information availability

The rating is based on information available from sources other than the issuer/borrower (in the absence of information provided by the issuer/borrower). Acuité endeavoured to gather information about the entity/industry from the public domain. Therefore, Acuité cautions lenders and investors regarding the use of such information, on which the indicative credit

rating is based.

Note on Complexity Levels of the Rated Instrument

In order to inform the investors about complexity of instruments, Acuite has categorized such instruments in three levels: Simple, Complex and Highly Complex. Acuite's categorisation of the instruments across the three categories is based on factors like variability of the returns to the investors, uncertainty in cash flow patterns, number of counterparties and general understanding of the instrument by the market. It has to be understood that complexity is different from credit risk and even an instrument categorized as 'Simple' can carry high levels of risk. For more details, please refer Rating Criteria "Complexity Level Of Financial Instruments" on www.acuite.in.
