Rating Rationale

Acuité has reaffirmed the long term rating of '**ACUITE A-**' (**read as ACUITE A minus**) and the short term rating of '**ACUITE A2+**' (**read as ACUITE A two plus**) to the Rs. 102.80 Cr bank facilities and assigned the long term rating of '**ACUITE A-**' (**read as ACUITE A minus**) to the Rs. 7.65 Cr bank facilities of Nutan Ispat & Power Private Limited. The outlook is '**Stable**'.

The rating upgrade is driven by an improvement in the overall business risk profile of the company marked by sharp increase in the operating income along with an improvement in profitability arising from improved realizations as well as better cost efficiencies. The rating also factors in its management's long track record in the sector, integrated nature of operations, efficient collection mechanism and the healthy financial risk profile of the company characterized by comfortable leverage. These strengths are, however, partly offset by the cyclical nature of the steel industry and the volatility in commodity prices.

Key Rating Drivers

Strengths

- Long operational track record and experienced management**

The Maruti Group has been in the iron and steel industry for over two decades. Acuité believes that the long track record of operations will benefit the company going forward, resulting in steady growth in the scale of operations. Further, the key promoters Mr. Ashok Chowdhary and Mr. Saurabh Tola have been associated with the iron & steel industry for two decades. In addition to this, the second generation promoters Mr. Bimal Kishore Khetan, Mr. Prashant Khetan, Mr. Ankit Chowdhary and Mr. Saurabh Tola are having experience of around a decade. Acuité derives comfort from the long experience of the promoters.

- Strong business risk profile supported by integrated nature of operations and locational advantage**

The strong business risk profile of the Group is supported by the integrated nature of operations of the Group; this enhances the operating efficiencies and mitigates the risks arising from the cyclical nature of steel industry to some extent. The diversity in revenue streams of the Group also augurs well. Also, the revenue of the group has improved to Rs.980.21 Cr in FY2021 as compared to revenues of Rs.757.13 Cr in FY2020, thereby registering a growth of 29.46 per cent. Further, the operating margin of the group increased to 7.78 per cent in FY2021 as compared to 6.95 per cent in the previous year. The PAT margins stood at 2.45 per cent in FY2021. The ROCE levels stood at a comfortable level of about 13.22 per cent in FY2021 as against 12.26 per cent in FY2020. Acuité believes that the sustainability in the revenue growth and profitability margins would be a key monitorable going forward. In addition to this, the Group has a locational advantage as the plants are located in the industrial area of Raipur, Chattisgarh, which is in close proximity to various steel plants and sources of raw materials. Further the plants are well connected through road and rail transport which facilitates easy transportation of raw materials and finished goods.

- Healthy financial risk profile**

The Group's healthy financial risk profile is marked by healthy networth, comfortable gearing and strong debt protection metrics. The tangible net worth of the Group increased to Rs.265.13 Cr as on March 31, 2021 from Rs.244.15 Cr as on March 31, 2020 due to accretion of reserves. Acuité has considered unsecured loans to the tune of Rs.87.24 Cr as on March 31, 2021 as part of networth as these loans are subordinated to bank debt. However, the debtor period stood comfortable at 11 days in 31st March 2021 as compared to 8 days in 31st March 2020. Weaknesses

• **Intense competition and inherent cyclical nature of the steel industry**

The downstream steel industry remains heavily fragmented and unorganised.
