13 January 2020

Rating Reaffirmed

Total Bank Facilities Rated*	Rs. 40.00 Cr.
Long Term Rating	ACUITE BBB-/Stable (Reaffirmed)

* Refer Annexure for details

Rating Rationale

Acuité has reaffirmed the long-term rating of '**ACUITE BBB-**' (read as **ACUITE triple B minus**) and bank facilities of Rs.40.00 crore of NRVS Steels Limited. The outlook is '**Stable**'. On April 2019, Seleno Steels Limited had changed its name to NRVS Steels Limited.

Seleno Steels Limited had changed its name of NRVS Steel Limited. Company was acquired by NR group in FY18. In FY19, company had enhanced its installed capacity to 135000 per annum from 45000 MT per annum.

NR TMT India Pvt Ltd is part of NR group which has billet unit with a capacity of 115200 MT per annum. In FY19, company had added a rolling mill with installed capacity of 110000 MT per annum.

NR Ispat & power Private Limited was incorporated in 2008 and engaged into manufacturing of Sponge iron, billet and TMT. Company has installed capacity of 60,000 MT per annum for sponge iron, 68000 MT per annum for Ms Billet. Company has rented its rolling mills of 40,000 MT per annum from its associate concern.

Analytical Approach:

ACUITE has taken a consolidated view of NR Ispat & Power Private Limited, NR TMT India Private Limited and NVRS Steels Limited (Formerly Seleno Steels Limited) as all the 3 entities are in the same line of business, common management and operational and financial linkages (NR TMT India India procures sponge iron from NRVS Steels Limited) and NR Ispat & Power Private Limited holds around 42 percent of shares in NVRS Steels Limited. The group herein is referred to as NR Group.

Key Rating Drivers:

Strengths

Experienced management.

The NR group is promoted by Agrawal family of Raigarh (Chattisgarh). Group is managed by Mr. Sanjay Agarwal who has two decades of experience in steel business. Group has integrated operation as group produces both intermediate and long products. In order to further integrate its operations, management has undertaken capex plan to enhance capacity of sponge iron and billet along with setting up of 15 Megawatt of captive power plant.

Healthy financial risk profile

The financial risk profile of the group is marked by healthy net worth, comfortable gearing and strong debt protection metrics. The net worth of the group stands at Rs.127.37 crore in FY2019 as compared to Rs.96.42 crore in FY2018. This improvement in Net worth is mainly due to retention of current year profit along with infusion of Rs.4.86 crores quasi equity. In NRVS steel, there was an addition of unsecured loan which is subordinate to company's external debt which has been treated as quasi equity by Acuité. The gearing of the group stands at 0.89 times as on March 31, 2019 when compared to 0.63 times as on March 31, 2018. The total debt of Rs.104.13 crore in FY2019 consists of short-term loan of Rs.46.27 crore, unsecured loan from promoters of Rs.8.73 crore and long-term debt of Rs.53.26 crore. Interest coverage ratio (ICR) is strong and stands at 4.87 times in FY2019 as against 4.20 times in FY 2018. The debt service coverage ratio (DSCR) also stands comfortable at 1.72 times in FY2019 as against of 1.79 times in FY2018. The net cash accruals against

total debt (NCA/TD) stand at 0.37 times in FY2019 as compared to 0.38 times in previous year. Acuite believes the financial risk profile of the group will remain healthy over the medium term backed by steady accruals and moderate debt funded capex plans.

Healthy improvement in the scale of operation

The scale of operation of the group stood healthy at Rs. 667.03 crore in FY2019 as compared to Rs.341.57 crore in the previous year. This improvement was driven by rise in capacity utilization and increased average realization of TMT bars and billet. The group has increased production capacity of billet and sponge iron units through combined debt funded capex of Rs.65.85 crores in FY19. Acuite believes scale of operation is likely to improve over the medium term because of stabilization in operation of newly installed sponge iron and billet unit

Prudent working capital cycle

Group has comfortable working capital cycle of 26 days in FY19 because of decline in inventory days.

Weaknesses

Ongoing debt funded capex plan

Management has undertaken fresh debt funded capex plan of around Rs.64 crore, which is expected to be complete by Q4FY20. Group has already availed additional external debt of Rs.25 crore, which will lead to increase in overall debt size and financial cost in FY20. ACUITE expects interest coverage and gearing ratio will witness marginal deterioration during coming years.

Inherent cyclical in the steel industry

NR Group is exposed to inherent risks of steel industry, which includes cyclical nature along with high competitive market due to presence of large number of players. In addition, prices of raw materials and products are highly volatile in nature.

Rating Sensitivity

- Sustenance of revenue growth while maintaining profitability
- Working capital management

Material Covenant

None

Liquidity Position: Adequate

The NR group has adequate liquidity reflected from low utilization of working capital limits ranging from 40 percent to 70 percent during last 6 months ended October 2019. In addition, group has healthy net cash accrual of Rs. 38.93 crores during FY19 as against current maturity of 8.73 crores. Current ratio stood at 1.12x during FY19. The group has maintained positive cash flow from operation during FY19. Acuite believes the liquidity position of the group will improve backed by steady cash flow and accrual over the medium term.

Outlook: Stable

Acuite believes that NR group will benefit over the medium term from the promoters vast experience in the steel industry. The outlook may be revised to 'Positive' if NR group successfully completes their ongoing capex on time resulting in improved topline and accruals. Conversely, the outlook may be revised to 'Negative' if the company fails to achieve stabilization in operation of new units or if its financial risk profile deteriorates.

About the Rated Entity - Consolidated
