Rating Rationale

Acuite has reaffirmed the long-term rating of '**ACUITE B-**' (read as **ACUITE B minus**) on the Rs. 10.00 Crore bank facilities of Bayarea Terminal LLP. The rating continues to be flagged as "Issuer Not-Cooperating" and is based on the best available information.

About the Company

Bayarea Terminal LLP, incorporated in 2012 as a private limited company, was later changed to Limited Liability Partnership in May, 2015. The firm is promoted by Captain Navjit Grewal and Mr. Inderneil Grewal. The firm was expected to start its operation in September, 2018. The firm was expected to be engaged in cleaning, testing and repairing of tanks, which are used to transport liquids and gases. The tank cleaning station of the firm is located near Surat district of Gujarat, which is around 10 km from the Hazira Port Gate. The cleaning unit has an installed capacity of 900 containers per month.

Non-cooperation by the issuer/borrower:

Acuite has been requesting for data, information and undertakings from the rated entity for conducting surveillance & review of the rating. However, the issuer/borrower failed to submit such information before the due date. Acuite believes that information risk is a critical component in such ratings, and non-cooperation by the issuer along with unwillingness to provide information could be a sign of potential deterioration in its overall credit quality. This rating is, therefore, being flagged as "Issuer not-cooperating", in line with prevailing SEBI regulations and Acuite's policies.

Limitation regarding information availability

This rating is based on information available from sources other than the issuer / borrower (in the absence of information provided by the issuer / borrower) . Acuite endeavoured to gather information about the entity/industry from the public domain. Any rating with the suffix

'Issuer not cooperating' is assigned without any management interaction with the issuer entity or any data / information from the entity. Sometimes this non co-operation by a rated entity

may be due to a result of deterioration in the credit risk profile of the entity. Therefore, Acuité cautions lenders and investors regarding the use of such information, on which the indicative credit rating is based.

Note on complexity levels of the rated instrument

In order to inform the investors about complexity of instruments, Acuite has categorized such instruments in three levels: Simple, Complex and Highly Complex. Acuite's categorisation of the instruments across the three categories is based on factors like variability of the returns to the investors, uncertainty in cash flow patterns, number of counterparties and general understanding of the instrument by the market. It has to be understood that complexity is different from credit risk and even an instrument categorized as 'Simple' can carry high levels of risk. For more details, please refer Rating Criteria "Complexity Level Of Financial Instruments" on www.acuite.in.
