#### Analytical Approach

Acuité has considered the standalone business and financial risk profile of RDSPL to arrive at the rating.

#### Key Rating Drivers

##### Strengths

- **Established track record of operation and experience management:**

RDSPL is a Delhi based public limited company which is engaged in infrastructure development for almost three decades with its major operations spread in Chennai, Kochi, Trivandrum, Port Blair and Mizoram. The company is being promoted by Mr. Madan Lal Goyal and Mr. Sumit Goyal. Founders of the company, Mr. Madan Lal Goyal, have a vast experience of over five decades in the aforementioned industry. The management is ably supported by a well-qualified and experienced team of professionals. The extensive experience of the promoters in the industry has helped the company build its market presence. The company caters to reputed clientele, which includes National Highways Authority of India, Central Public Work Department, Kerala Public Work Department, Other States Public Work Departments, Southern Railways, to name a few.

Acuité believes the company will benefit from its experienced management and healthy relations with suppliers.

- **Healthy financial risk profile:**

RDSPL's financial risk profile is healthy, marked by a healthy net worth, low gearing and healthy debt protection metrics. The company's net worth has subsequently improved to Rs.191.06 crore as on March 31, 2020 as against Rs.180.63 crore as on March 31, 2019 on account of healthy accretion to reserves during the same period. The company has followed a conservative financial policy in the past, the same is reflected through its peak gearing level. The gearing level (debt-equity) improved to 0.50 times as on March 31, 2020

from 0.68 times as on March 31, 2019. The gearing of the company is expected to remain low over the medium term on account of absence of any major debt funded capex plans and moderate accretion to reserves. The total debt of Rs.95.92 crore as on March 31, 2020 consists of long-term debt of Rs.23.57 crore and working capital borrowings of Rs.72.34 crore. The interest coverage (ICR) ratio stood moderate at around 2.37 times to 2.80 times over the last three years. Debt to EBITDA stood at 1.78 times in FY2020 as against 1.90 times in FY2019. NCA/TD (Net Cash Accruals to Total Debt) ratio stood at 0.27 times in FY2020 and 0.25 times in FY2019.

Acuité believes that the financial risk profile of the company is expected to remain healthy backed by above average net cash accruals and in absence of any major debt funded capex in near to medium term.

#### • **Healthy order book position**

RDSPL registered an operating income of Rs.320.27 crore in FY2020 as against Rs.415.75 crore in FY2019. The company has reported revenue of Rs.187 crore for April – December, 2020. The decline in revenue is due to slow execution of orders caused by COVID-19 pandemic followed by nationwide lockdown. Moreover, the company has an unexecuted order book position of ~Rs.1806 crore as on 31<sup>st</sup> December 2020, thereby giving healthy revenue visibility in medium term. The orders are spread across states and cities such as Chennai, Kochi, Trivandrum, Port Blair and Mizoram.

#### **Weaknesses**

##### • **Moderate working capital nature of operations**

The working capital management of the company is highly intensive in FY2020 marked by increase in Gross Current Assets (GCA) to 367 days in FY2020 as against 287 days in FY2019. The inventory and debtor levels stood at 258 days and 4 days in FY2020 as against 166 and 16 days in FY2019, respectively. The creditor days stood at 115 days in FY2020 as against 95 days in FY2019. As a result, the average utilization of bank limits stood high at ~95 per cent in the last six months ending November 2020.

Acuité believes that the working capital requirements will continue to remain moderate over the medium term on account of high inventory and debtor days.

##### • **Competitive and fragmented industry**

RDSPL is engaged as an EPC contractor. The company faces intense competition from the presence of several mid to large sized players in the said industry. The risk becomes more pronounced as tendering is based on minimum amount of bidding on contracts and susceptibility to inherent cyclical in the road sector. The recent relaxation of qualification norms by the Central Government for undertaking road projects is further expected to intensify the competitive scenario in the industry. However, in face of such competitive pressures, Acuité believes that RDSPL is well positioned on account of its longstanding relationship with the government authorities in the infrastructure industry and the long track-record and experience of its promoters spanning nearing three decades.

#### **Rating sensitivity**

- Continuous decline in operating income for the last 2 years.
- Significant deterioration in working capital

#### **Material Covenant**

None

#### **Liquidity position: Strong**

The Company has strong liquidity marked by high net cash accruals to its maturing debt obligations. The company generated cash accruals of Rs.25.54 Crore in FY2020 as against CPLTD of Rs.7.71 Crore for the same period. The cash accruals of the company are estimated to remain in the range of around Rs.26.00 Crore to Rs.40.00 Crore during FY2021-23 against CPLTD of not more than Rs.7.00 Crore each year for the same period. Although, company's working capital operations are intensive marked by Gross Current Asset (GCA) days of 367 days in FY2020. As a result, the average utilization of bank limits stood high at ~95 per cent in the last six months ending November 2020. Company maintains unencumbered cash and bank balances of Rs.16.84 Crore as on 31 March 2020. The current ratio stands at 1.59 times as on 31 March 2020.

#### **Outlook: Stable**

Acuité believes that RDSPL will continue to benefit over the medium term due to its experienced management, healthy revenue visibility and comfortable debt protection metrics. The outlook may be

revised to 'Positive', if the company demonstrates substantial and sustained growth in its revenues while maintaining its working capital. Conversely, the outlook may be revised to 'Negative', in case the company registers lower-than-expected growth in revenues and profitability or if the financial risk profile deteriorates due to higher than expected elongation in working capital leading to deterioration in liquidity.
