The consolidation is in view of the common management, operational and financial alignment. Mr. Jesus Lall oversees the day-to-day activities of all the institutes.

## **Key Rating Drivers**

### **Strengths**

- **Established track record of operations and experienced management**

UEG was established in 1968 largely into informal education segment and providing supporting services related to education sector. Further, they entered into formal education in 2003. The group runs 42 educational institutions offers K-12 education, degree and technical courses.

The group is promoted by Mr. Jesus S. M. Lall, who is a member of the International Advisory Committee of the Educational Institute of India; a Fellow of the Indian Institute of Educational Management; and 2005 "Educational Personality of the Year". Apart from being the CEO of Universal Education, Mr. Lall is also a director of the NGO, S. M. Lall Foundation.

Acuite believes that the group's business risk profile will be supported by its established position in educational sector across Maharashtra, Karnataka and Tamil Nadu and experienced promoter.

- **Healthy student intake expected to translate into steady growth in revenues**

UEG has a healthy occupancy ratio of around 85 per cent for academic year 2017-18. The cumulative numbers of students have increased to 37,880 in FY18 from 28,292 in FY16. Out of the total 37,880 students 24,717 are school students and the remaining are college students. Further, the group has added two new institutes under Alpha and Primus in FY17, which have additional capacity available for growth in future. Also, 2 other colleges Universal School – Andheri and Universal School Pali-Hill, Bandra are sanctioned and expected to generate revenue from FY22.

The group is mainly dependent on its tuition fee income which is approx. 80 per cent of its net revenue in FY2018. The group has been growing at a CAGR of 10.13 per cent from FY2015 to FY2018. It earned revenue of Rs. 209.96 crore in FY2017 and has achieved net revenue of Rs.256.52 crore for FY2018 (Provisional).

Acuite believes that continuous headcount growth and steady fee revisions will support the continuous growth in fee income.

- **Increasing demand prospects for education industry**

Lately, there has been a thrust on education by both the state and central governments. The institutes of the group are affiliated to Mumbai University, Maharashtra State Board, Tamil Nadu State Board, Karnataka State Board, International Baccalaureate (IB), International General Certificate of Secondary Education (IGCSE), Indian Certificate of Secondary School (ICSE), Central Board of Secondary Education (CBSE), and approved by All India Council for Technical Education. The private sector is playing a significant role in the education sector, especially professional education, in the country. With popularisation of private self-financing colleges and deemed universities, the role of the private sector in education has been accepted and recognised.

Acuite believes, private institutions are likely to witness healthy student enrolment over the medium term.

## Weaknesses

- **Recent debt funded capex plans impacting leverage levels**

UEG's recent debt funded capital expenditure plans has highly impacted its leverage levels. The total long term debt of the group stood at Rs. 409.37 crore as on 31 March 2017 as against Rs.343.81 crore as on 31 March 2016. The total debt has increase as compared to previous year, thereby impacting its Debt/EBITDA and debt coverage metrics also. The group's Debt/EBITDA stood at 7.53 times in FY2017 as against 6.68 times in FY2016. Further, the coverage indicators i.e. Interest Coverage Ratio (ICR) and Debt Service Coverage Ratio (DSCR) stood at 1.20 times and 1.05 times for FY2017 respectively.

Going forward, Acuite believes movement in the group's leverage levels will be a key rating factor.

- **Intense competition and stringent regulatory framework for the educational sector in India**

The institutes face competition from other private institutions offering similar courses. Given the competition, the ability of the institutes to attract requisite students in tune with its sanctioned intake would be a challenge. This is expected to limit the group's capability to increase fee along with the increase of occupancy. Further, various agencies under the State and Central Government prescribe regulatory framework depending on the professional courses offered. Hence, the group is subject to the stringent regulatory framework for the educational sector in India. Apart from the regulatory framework in India, the various affiliations with international boards like IGCSE also impacts and limits the group's day-to-day business activities.

## Outlook: Stable

Acuite believes that UEG will maintain a stable outlook over the medium term owing to its long standing presence in the industry. The outlook may be revised to 'Positive' if its scale of operations increases on the back of further increase in fee receipts, while improving its leverage levels, thereby translating improvement in debt protection indicators. Conversely, the outlook may be revised to 'Negative' if the group fails to achieve the scalability amidst intensifying competition in its area of operations or if there is no improvement in the leverage levels and debt protection indicators.
