\* Refer Annexure for details

### Rating Rationale

Acuité has upgraded the long term rating to '**ACUITE BBB+** (read as ACUITE triple B plus) from '**ACUITE BBB** (read as ACUITE triple B) and the short term rating to '**ACUITE A2**' (read as ACUITE A two) from '**ACUITE A3+**' (read as ACUITE A three plus) on the Rs. 53.51 crore bank facilities of Siddharth Carbochem Products Limited (SCPL). The outlook is '**Stable**'.

Also, Acuité has assigned the long term rating of '**ACUITE BBB+** (read as ACUITE triple B plus) on the Rs. 0.49 crore bank facilities of SCPL. The outlook is '**Stable**'.

### Rationale for rating Upgrade

The ratings upgrade derive comfort from extensive experience of promoters in the chemical industry, long track record of operations, strong R&D Department and reputed as well as diversified product range and customer base across various industries. The rating assigned also factors in healthy financial risk profile of the group marked by low gearing of 0.49 times as on 31<sup>st</sup> March 2021 (Prov.), healthy debt-coverage indicators as evident from the interest coverage ratio of 8.12 times in FY2021 (Prov.) and debt service coverage ratio 6.78 times in FY2021 (Prov.). On the contrary, ratings are constrained on account susceptibility to fluctuations in prices of raw material and forex rates. Going forward, the ability of the group to improve its scale of operations along with the financial risk profile and liquidity position would be the key rating sensitivities.

The consolidation is in view of common management and cross guarantee given. Extent of consolidation: Full

### Key Rating Drivers

#### Strengths

- **Experienced management**

Rishabh group has presence in specialty chemical industry since 1975. The group is operated and managed by Mr. Ashesh who has an experience of nearly two decades in the aforementioned industry. SCPL is engaged in manufacturing of Methyl Salicylate & Salicylic Acid. Later, RMC was set up in 1983 and is engaged in manufacturing of specialty chemicals and water-soluble polymers. RMC manufactures range of specialty chemicals and water-soluble polymers like wet strength resins, poly amide resin, poly DCDA resins and blends of organic and inorganic coagulants.

Further, the group deals into various range of products which finds application in various industry such as pharmaceuticals, water and waste water, paper, textile and sugar industry. 90-95% of the group sales accounts for these major industries.

Acuité believes that the group will continue to benefit from the experienced management, which will help the group to maintain long standing relations with its customers and suppliers.

- **Healthy financial risk profile**

The financial risk profile of the group is healthy marked by moderate net worth, low gearing levels and healthy debt protection metrics and coverage indicators. The net worth of the group is moderate at Rs. 55.94 crore as on March 31, 2021(Prov.) as against Rs. 41.86 crore as on March 31, 2020. The net worth levels have seen improvement from FY2020 to FY2021 on account of higher ploughing back of profits in form of retained earnings.

The group has followed a moderately aggressive financial policy in the past and is continuing with the same policy as reflected through its gearing of 0.49 times as on 31<sup>st</sup> March 2021(Prov.) as against 0.08 as on 31<sup>st</sup> March 2020 the increase is mainly due to GECL loan taken by the group, the group has taken GECL as the group is able to get the loans at lower rate and also gets the benefit of interest subvention. The group has invested the money in short term liquid funds and has been able to take arbitrage benefit. Total outside liabilities to tangible net worth (TOL/TNW) levels of 1.33 times as on March 31, 2021 (Prov.). The company's debt coverage indicators have improved significantly as evident by rise in debt-service-coverage-ratio of 6.78 times as on 31<sup>st</sup> March, 2021 (Prov.) as against 3.99 times as on 31<sup>st</sup> March, 2020 and interest coverage ratio of 8.12 times as on 31<sup>st</sup> March, 2021 (Prov.) as against 4.74 times as on 31<sup>st</sup> March, 2020.

Acuité believes that the financial risk profile of the group will continue to remain healthy on account of moderate net worth and healthy debt protection metrics.

- **Healthy business risk profile**

The group has reported operating income of Rs.270.40 crore Provisional in FY2021 as against Rs. 279.54 crore in the previous year. The revenue from operations remained muted in FY2021 majorly on account of Covid pandemic which lowered the demand in the global market. Also, the group has increased its capacity in the financial year 2021 due to which the utilization for the current year has been low. Further, the introduction of new product like Sodium salicylate (application in pharma), salicylamide (application in pharma), hexyl salicylate (used in disinfectants, pest control products), benzyl salicylate (application in cosmetics), amyl salicylate (used for adhesion), homo salate (application in cosmetics) and aspirin (pharma) among other are expected to improve the operating income of the group over the medium term.

The EBITDA margin have been in an increasing trend coming from 5.08% in FY19 to 5.99% in FY20 to 7.22% in FY2021 (Prov.). The EBITDA margins have been increasing as the group has been continuously investing in automating the manufacturing process which has helped the group to lower the variable cost. The group has also diversified into many other products with higher margins. Further, Net Profit margin has increased coming from 2.39% in FY2019 to 3.22% in FY2020 to 5.21% in FY2021. The PAT margins have been in an increasing trend as the group has been able to efficiently manage its working capital cycle which in turn has helped the group to lower its interest cost.

The group has diversified customer base with 30-40 percent exports to the countries like USA, Indonesia, and South Africa etc. among others.

Acuité believes that the group will maintain a healthy business risk profile on the back of its established market.

### **Weaknesses**

- **Susceptible to fluctuation in prices of raw material and forex rates**

The group's total raw material constitutes around ~80 percent of total sales. Major raw material required for the group is monomers like dimethylamine, diethylamine, etc. which are 50 percent imported and 50 percent domestically procured. The group's profitability is exposed to any adverse fluctuations in prices of these raw

materials. Also, the group faces foreign exchange fluctuation risk as group exports are 30 percent. However, the forex risk is partially mitigated as the group also imports.

#### Rating Sensitivities

- Significant improvement in scale of operations while maintaining the profitability.
- Deterioration in working capital management leading to stretched liquidity.

#### Material Covenants

None

#### Liquidity position: Healthy

The group has healthy liquidity marked by healthy net cash accruals to its maturing debt obligations. The group generated cash accruals of Rs. 16.23 crore for FY2021 while the maturing debt obligations were in the range of Rs. 5.00 crore for the same period. The group has unencumbered cash and bank balances of only Rs. 13.09 crore as on 31st March 2021 and short term liquid investment in Mutual Fund of Rs. 14.60 Cr. Further, the fund-based working capital limits for Siddharth Carbochem Products Limited are hardly utilized, the average utilization stood at 0% and non-fund based working capital limits are utilized at an average of 27.90% for the last twelve months ending June 2021. For Rishabh Metals and Chemicals the average utilization for fund based facility stood at 4.65% and average utilization for non-fund based facility stood at 33.75% for the last twelve months ending June 2021. Therefore, there are enough net cash accruals & limits available to utilize more funds if required to support incremental requirements.

#### Outlook: Stable

Acuité believes that the group will maintain a 'Stable' outlook over the medium term on account of experienced management, comfortable financial risk profile, working capital and strong R&D Department. The outlook may be revised to 'Positive' in case of substantial and sustained growth in revenue and profitability. Conversely, the outlook may be revised to 'Negative' in case of deterioration in the financial and liquidity profile most likely as a result of higher than the envisaged working capital requirement.
