Rating Rationale

ACUITE has reaffirmed the long-term rating of 'ACUITE BBB' (read as ACUITE triple B) and the short-term rating of 'ACUITE A3+' (read as ACUITE A three plus) on the Rs.81.89 Cr bank facilities of Megaa Moda Private Limited (MMPL) and has assigned the long-term rating of 'ACUITE BBB (read as ACUITE t riple B) and the short-term rating of 'ACUITE A3+' (read as ACUITE A three plus) on the Rs.7.38 Cr bank facilities of Megaa Moda Private Limited (MMPL). The outlook is 'Stable'.

Rationale for the rating

The rating continues to derive comfort from the extensive experience of the promoters, established relationship with its customers and suppliers, moderate financial risk profile along with adequate liquidity position. However, the rating remains constrained on account of working capital intensive nature of operations, moderate profitability margins due to sudden spike in freight costs in FY22 along with inherent risk associated with sea food industry and exposure to forex risk.

About the Company

Incorporated in 2009, Megaa Moda Private Limited (MMPL) is a Kolkata based company, currently headed by Mr. Yogesh Gupta, Mrs. Sonali Gupta, Mr. Shankar Ramalingam and Mr. Sajit Kumar. The company is engaged in processing, packaging and exporting of shrimps and prawns. MMPL has an established name in the overseas market by its brand name of "MEGAA" and "MEGAA DELIGHT" (a Registered Brand). The company is recognized as a two star export house under Ministry of Commerce and Industry, Govt. of India. The company has its facility located in West Bengal with an installed capacity of 6000 MTPA and 1000 MT cold storage unit.

Analytical Approach

Acuité has taken a standalone view of the business and financial risk profile of MMPL to arrive at the rating.

Acuité Ratings & Research Limited

Key Rating Drivers

Strengths

Experienced management and long track record of operations

MMPL has a long operational track record of more than a decade in the sea food industry. The key promoters, Mr. Shankar Ramalingam and Mr. Yogesh Gupta have significant experience in the trading and exporting of shrimp. Over the years, the company has been able to establish comfortable relationships with reputed customers across various geographies. Acuité believes that the promoters' extensive understanding and expertise in marine food products will support the company's growth plans going forward.

• Steady business risk profile

The company's revenue increased to Rs 204.85 Cr in FY2022 as against Rs 186.85 Cr in FY2021 and Rs 197.37 Cr in FY2020, thereby registering an y-o-y growth of 10 per cent. Further, the company has achieved revenues of around Rs.128.47 Cr till six months ended September'22 (Provisional). The increase in revenue in FY2023 is primarily on account of increased demand backed by penetration into new geographies such as Greece, Luxembourg, Portugal, South Africa, etc.

The operating margin of the company moderated to 6.56 per cent in FY2022 from 7 per cent in FY2021 mainly due to increased freight costs. The PAT margin stood at 2.48 per cent in FY2022 as compared to 2.41 per cent in FY2021. The ROCE levels stood comfortable at 11.59 per cent in FY2022 as against 11.15 per cent in FY2021. Going forward, it is expected that profitability margins of the company will improve as the freight charges have come down as compared to FY2022.

Moderate financial risk profile

The company's moderate financial risk profile is marked by modest networth, moderate gearing and healthy debt protection metrics. The tangible networth of the company increased to Rs 32.04 Cr as on March 31, 2022 from Rs 27.01 Cr as on March 31, 2021 due to accretion to reserves. Gearing of the company stood moderate at 1.93 times as on March 31, 2022 as against 2.33 times as on March 31, 2021. The Total outside Liabilities/Tangible Net Worth (TOL/TNW) stood moderate at 2.26 times as on March 31, 2022 as against 3.31 times as on March 31, 2021. The healthy debt protection metrics of the company is marked by Interest Coverage Ratio of 3.04 times and Debt Service Coverage Ratio of 1.91 times as on March 31, 2022. Net Cash Accruals/Total Debt (NCA/TD) stood low at 0.13 times as on March 31, 2022. Acuité believes that going forward the financial risk profile of the company will improve backed by steady accruals and no major debt funded capex plans.

Weaknesses

Working capital intensive nature of operations

The working capital intensive nature of operations of the company is marked by Gross Current Assets (GCA) of 132 days in FY2022 as compared to 167 days in FY2021. The moderate level of GCA days is on account of moderate level of inventory days which stood at 90 days as on FY2022. However, the debtors period stood comfortable at 33 days as on March 31,2022 as against 56 days in the previous year. Going forward, Acuité believes that the operations would remain moderately working capital intensive mainly due to high inventory level.

• Exposure to regulatory changes and competition

The shrimp processing and export business is highly fragmented with presence of several small players and dependence on shrimp farms for raw material which limits bargaining power. Additionally, the procurement price of shrimp depends on catch and availability during a particular period, which exposes the company to volatility in product prices. Furthermore, as entire revenue is generated from exports, credit risk profile remains susceptible to volatility in

Acuité Ratings & Research Limited

forex rates. Further, the company is also exposed to risk arising from regulatory changes and demand pattern in client countries and changes such as levy of anti-dumping duties by importing countries.

Rating Sensitivities

- Sustainable revenue growth along with improvement in operating margins
- Elongation in working capital cycle

Material covenants

None.

Liquidity Position

Adequate

The company's liquidity is adequate marked by net cash accruals of Rs.8.24 Cr as on March 31, 2022 as against long term debt repayment of Rs. 2.15 Cr over the same period. The current ratio stood comfortable at 1.45 times as on March 31, 2022 as compared to 1.31 times as on March 31, 2021. The fund based limit remains utilised at 51 per cent during first six months ended FY2023. However, the moderate working capital management of the company is marked by moderate Gross Current Assets (GCA) of 132 days as on March 31, 2022 as compared to 167 days as on March 31, 2021. Acuité believes that going forward the company will maintain adequate liquidity position due to steady accruals.

Outlook: Stable

Acuité believes the company's outlook will remain 'stable' over the medium term on account of experience of the promoters, long track record of operations and healthy relationship with reputed customers and suppliers. The outlook may be revised to 'Positive' in case the company continues to register consistent growth in revenues while achieving sustained improvement in operating margins, capital structure and working capital management. Conversely, the outlook may be revised to 'Negative' in case of a decline in the company's revenues or profit margins, or in case of deterioration in the company's financial risk profile and liquidity position or deterioration in its working capital cycle.
