

Press Release

Ugro Capital Limited

April 28, 2021

Rating Reaffirmed and Assigned

Commercial Paper Programme*	Rs. 100.00 Cr.
Bank Loan Rating	Rs. 100.00 Cr.
Non-Convertible Debentures	Rs. 450.00 Cr.
Non-Convertible Debenture	Rs. 30.00 Cr.
Long Term Rating	ACUITE A/ Outlook: Stable (Reaffirmed)
Long Term Rating	ACUITE Provisional PP-MLD AA+ (CE)/Stable (Assigned)
Short Term Rating	ACUITE A1 (Reaffirmed)

* Refer Annexure for details

Rating Rationale

Acuite has reaffirmed long-term rating of '**ACUITE A**' (read as **ACUITE A**) on the Rs. 100.00 Cr bank facilities and on the Rs. 450.00 Cr non-convertible debentures of Ugro Capital Limited (Ugro). The outlook is '**Stable**'

Acuite has reaffirmed short-term rating of '**ACUITE A1**' (read as **ACUITE A one**) on the Rs. 100.00 Cr on the Commercial Paper Programme of Ugro Capital Limited (Ugro).

Acuite has assigned long-term rating of '**ACUITE Provisional PP-MLD AA+(CE)**' (read as **ACUITE Provisional Principal Protected Market Linked Debentures double A Plus Credit Enhancement**) on the Rs. 30.00 Cr proposed principal protected market linked debentures of Ugro Capital Limited (Ugro). The outlook is '**Stable**'.

The rating on the Rs. 30.00 Cr. proposed PP-MLD issue of Ugro is provisional and shall be converted to final rating is subjected to execution of following documents:

1. Debenture Trusteeship Agreement;
2. Debenture Trust Deed
3. Trust Deed;
4. Deed of Assignment
5. Contribution Agreement
6. Deed of Hypothecation
7. Trust Guarantee Document;
8. Servicing Agreement
9. Information Memorandum;
10. Private Placement Offer Letter (Form PAS 4);
11. Board Resolution authorizing this Issuance;
12. Applicable Shareholder Resolutions under the Companies Act 2013; and
13. Tripartite Agreements with the Depository(ies) and Registrar & Transfer Agent

Unsupported Rating: ACUITE A

Rating rationale for the proposed principal protected market linked debentures of Rs. 30 Cr.:

The rating takes into account the comfort of dual recourse to the investors. The debt servicing to the investors is supported by regular cash flows of the Ugro Capital Limited(Ugro) and the presence of a cover pool (25 percent over-collateralisation as a percentage of the PP-MLD outstanding and accrued interest) to support the servicing of the NCDs in the event of non-payment by Ugro. Ugro shall execute an assignment agreement wherein it would agree to assign the cover pool assets to Credavenue Zen Trust 2021 (Trust) on occurrence of a trigger event during the tenure of the facility. On the occurrence of the trigger event, the pool shall be

assigned to the Trust (Credavenue Zen Trust 2021) without any further deed, notice or action from the Issuer. In turn, Trust will provide unconditional and irrevocable guarantee to the NCD holders.

The legal maturity of the transaction is 18 Months and 5 days from the deemed date of allotment. Ugro has a call option after 18 Months from the deemed date of allotment. Failure of Ugro to exercise or honour the call option on the Call Option Date will be constituted as trigger event and post that final legal maturity date would get extended to 39 months from the deemed date of allotment.

Support of the credit enhancement and payment mechanism

The debentures shall be backed by an unconditional and irrevocable guarantee provided by the Trust. Further, the servicing of the debentures is supported by the internal accruals of Ugro and the guarantee provided by the Trust to which Ugro shall assign the pool with minimum cover of 1.25 times of the MLD amount outstanding (including accrued interest). The guarantee shall be invoked on the occurrence of pre-defined trigger events.

Key Trigger Events for invocation of Trust guarantee are as follows:

- Failure of the Issuer to exercise or honour the call option on the Call Option Date
- Rating downgrade of the Issuer to BBB or below
- Rating downgrade of the debentures to a level of A (CE) or below
- Capital Adequacy of Issuer falls below 20 percent
- Gross NPA of Issuer exceeds 5 percent for any half yearly period
- Net NPA of Issuer exceeds 3 percent for any half yearly period
- Exit of Promoters/Change in Management Control
- Non-compliance of listing criteria of either equity or debt securities
- Issuer has defaulted in making any payments due on its financial indebtedness

Post Occurrence of the Trigger Event (28th being the monthly payout date i.e. T subject to business day conventions), the pool shall be assigned to the Trust Credavenue Zen Trust 2021 (without any further deed, notice or action from the Issuer) and Trust shall appoint Issuer as the servicer of the cover pool assets transferred.

Event	Timeline
Trustee shall transfer the amount due for payment on the debentures from the C&P Account to the Debenture Holder Account. Any proceeds transferred from C&P account to the Debenture Holder Account shall be considered as beneficial payment by the Trust to the Issuer.	T day
The Servicer shall fund the C&P Account to the extent of collections from the Underlying Cover Pool. All such proceeds to be applied towards payment to Debenture Holders as per the defined 'Waterfall Mechanism'.	T-1 day

Pool Characteristics and pre-defined Eligibility Criteria:

Pool consists of loans originated by Ugro under ECLGS scheme at transaction initiation and subsequently secured loans. Acuite believes that it adds to the strength of the pool quality. The cover pool is dynamic in nature and has to be replenished as per eligibility criteria to maintain the stipulated over collateralisation levels upon default/amortization of the underlying cover assets. This ensures that the credit quality of the pool is maintained. Prior to occurrence of a Trigger Event, the company to ensure that monthly asset report to be shared with the Trustee as per the pre agreed schedule. The eligibility criteria specified for this cover pool is as follows

- Assets should not be delinquent by more than 30 days. The proportion of assets which are delinquent, but less than 30 days should not be more than 5 percent of the pool at any point of time.
- All loans in the pool should be secured loans i.e. backed by collateral or from co-lending loan book
- All loans in the pool should be EMI bearing
- Minimum IRR of each Pool Asset should be 12 percent

- Minimum Weighted Average IRR of the pool should be 13 percent
- Maximum state concentration of 25 percent
- Minimum seasoning of 3 months
- The residual tenor of the underlying contracts in the pool should not be more than 38 months from the deemed date of allotment

Rating Rationale of the Issuer

The rating factors in experienced management and the ability of the management to attract funding from marquee investors. The rating also factors in the high capitalization levels and low gearing levels. The capital adequacy ratio stood at 77.90 percent as on December 31, 2020, 85.77 percent as on September 30, 2020 and 88.25 percent as on March 31, 2020 coupled with low gearing of 0.58 times as on December 31, 2020, 0.41 times as on September 30, 2020 and 0.28 times March 31, 2020. The company has demonstrated its ability to raise funds of Rs. 705.40 Cr. by way of Term Loans, Non-Convertible Debentures, Commercial Paper in FY2021. The company has also diversified its borrowing profile by way of securitisation transactions of ~Rs. 14 Cr. in FY2021. The rating also derives comfort from the business model which is based on technology adoption at each and every stage, right from initial screening of the borrower to monitoring of the exposures, at the post disbursement stage.

The rating is, however, constrained due to company's philosophy of lending to certain identified sectors and selecting clients based on strict parameters has already impacted the growth of the loan book. The loan book stood at Rs. 79.57 Crore as on March 31, 2019 which has grown to Rs. 860.90 Crore as on March 31, 2020 and Rs. 1127.95 Crore as on December 31, 2020. Ugro's Gross Non-Performing Assets (GNPAs) stood at Rs. 23.47 Cr. (i.e. 2.30 percent of its loan portfolio) as on December 31, 2020 which increased from 8.18 Cr (i.e. 0.95 percent of its loan portfolio) as on March 31, 2020. The resurgence of the Covid, forcing lock down in most of the areas can impact the recovery of the NBFCs like Ugro which are focussed on the SME sector. Going forward, the ability of company to navigate this second wave of Covid with minimal disruption and scale up its loan book, while containing its asset quality and operating expenses will be key monitorable.

About the company

Ugro, was originally incorporated as Chokhani Securities Limited in 1993. It is systemically important nondeposit taking non-banking financial company (NBFC) registered with the Reserve Bank of India (RBI). In 2018, pursuant to a change in management, the company was renamed as UGRO Capital Limited. Ugro's equity shares, commercial paper and non-convertible debentures are listed on the Bombay Stock Exchange (BSE).

Ugro is headed by Mr. Shachindra Nath, a seasoned finance professional, with more than two decades of experience in the financial services sector. He is the Executive Chairman and Managing Director of the company. Ugro's registered office is at Mumbai and it has network of 34 branches. Ugro lends to the MSME segment in eight specifically identified sectors i.e. Healthcare, Education, Chemicals, Food Processing/FMCG, Hospitality, Electrical Equipment's and Components, Auto Components and Light Engineering.

Analytical Approach

Acuite has considered the standalone financial and business risk profile of Ugro to arrive at the rating.

Key Rating Drivers

Strengths

- **Experienced management team supported by marquee investors:**

Ugro commenced lending operations in 2019 with a focus on lending towards the Micro Small and Medium Enterprises (MSME) segment. The company is headed by Chairman and Managing Director, Mr. Shachindra Nath. Mr. Nath has over two decades of experience in BFSI across insurance, asset management, lending and capital markets sectors. Ugro's CEO, Mr. Abhijit Ghosh, has over two decades of experience in banking and

financial services. The other members of the management team have experience of over two decades in BFSI sector.

Ugro's management team is supported by marquee investors. Ugro's investors includes private equity players, insurance companies and family offices. The institutional investors include ADV Partners, NewQuest Asia Investments III Limited, PAG (PE firm with focus on the Asia-Pacific region), Samena Capital (a MENA focused PE investment group), DBZ Cyprus amongst others. The investors also include Indigrowth Abakkus, Chhattisgarh Investments Limited, and PNB Metlife India Insurance Company Limited and family offices that include ex-promoters of Himatsingka Seide Limited, Mr. Aditya Himatsingka, Mr. Ashutosh Taparia of Famy Care Limited and Mr. Rakesh Malhotra of SAR group. These investors have infused capital of ~Rs. 650 Cr in FY2019 and ~Rs. 240 Cr in FY2020.

The ability to attract capital from a diverse set of investors in its initial stage of operations points to the credibility of the top management team. It also reflects the confidence in the business model and strategy. Ugro's net worth stood at Rs. 950.46 Cr. As on December 31, 2020 as compared to Rs. 943.92 Cr. as on September 30, 2020 and Rs. 921.52 Cr. as on March 31, 2020 against which Ugro had earning assets of Rs. 1,127.95 Cr. and Rs. 977.96 Cr. respectively. The company's capital adequacy ratio stood at 77.90 percent as on December 31, 2020 as compared to 85.77 percent as on September 30, 2020 and 88.25 percent as on March 31, 2020. The high capital adequacy (i.e. low gearing, 0.58x as on December 31, 2020 and 0.41x as on September 30, 2020, 0.28x as on March 31, 2020) provides Ugro adequate headroom to raise additional borrowings to support its future growth trajectory.

Acuite believes, that the experienced management team, presence of marquee investors and healthy capitalisation levels will support Ugro's fund raising plans over the near to medium term

• **Business model based on high level of digitization and adherence to pre-defined policies:**

Ugro's business model is based on technology adoption at each and every stage, right from initial screening of the borrower to monitoring of the exposures, at the post disbursal stage. Ugro's average ticket size is Rs. 2-3 Cr with maximum single party exposure of ~Rs. 5 Cr. Hence, the portfolio is expected to be granular in nature and with high degree of technological support for effective monitoring of the portfolio. Ugro's target clientele are SME/MSME units from eight identified sectors, which are Healthcare, Education, Chemicals, Food Processing/FMCG, Hospitality, Electrical Equipment's and Components, Auto Components and Light Engineering. Ugro has identified these sectors from an in-depth study and recommendations from external advisory agencies. These sectors are further divided into 37 subsectors.

The credit underwriting process and platforms are designed to ensure quick turnaround, without compromising on quality of the loan appraised. The company has put in place credit tools such as scorecards, which help in arriving at the credit decision. The management has developed detailed questionnaires for each sub segment, which help in identifying the key credit issues and sharpening the quality of credit decision

The systems and process are evaluated and reviewed from time to time to improve their efficacy to the credit process. The company has put in place safeguards to minimize the possibility of dilution of these processes. These include clauses in the Article of Association such as the right of appointment/termination of key managerial personnel directly to the board and ensuring granularity of the portfolio with loan of more than 1 per cent of its Net Worth or to any related party requiring majority board approval and a unanimous consent of its Asset Liability Committee.

Acuite believes that while adherence to stringent underwriting standards may impact the pace of growth of Ugro; it will aid Ugro to maintain its asset quality in a steady operating environment.

Weaknesses

• **Current challenges in operating environment to impact near term growth**

Ugro commenced its lending operations in January 2019 with a focus on lending towards MSME segment across eight identified sectors. The company has been gradually building a granular loan portfolio with a maximum single borrower exposure restricted to ~Rs. 5 Cr. It adopted an organic as well as inorganic growth strategy to expand its loan book in FY20. Ugro disbursed Rs. 1,284.40 Cr in FY2020 and Rs. 1172.30 Cr. In FY2021 (Provisional). The disbursements through a network of 34 branches, pools brought out from other NBFCs, share in co-origination arrangements with NBFCs and loans to NBFCs for onward lending. Going forward, the management plans to focus on origination from branch network as a key driver of its growth strategy. The company also plans to expand its branch network in Tier III and Tier IV cities across India. As on March 31, 2020, total outstanding loan portfolio was Rs. 860.90 Cr. which grew to Rs. 977.96 Cr as on September 30, 2020 and further to Rs. 1127.95 Cr. As on December 31, 2020. Ugro's Gross Non-Performing Assets (GNPAs) stood at Rs. 23.47 Cr. (i.e. 2.30 percent of its loan portfolio) as on December 31, 2020 which increased from 8.18 Cr (i.e. 0.95 percent of its loan portfolio) as on March 31, 2020.

Ugro has focused on maintaining a granular loan book, hence, the operating costs are expected to be high comprising establishment expenses and employee (marketing, credit, recovery, operations etc.) cost. During FY2020 these costs accounted for ~85 percent of Ugro's total income (i.e. net interest income and other operating income). The high operating expenses led to subdued profitability of 1.90 percent Return on Average Assets (RoAA) as on March 31, 2020, despite having low gearing levels. Going forward, the operating costs are expected to be higher on account expansion of branch and employee network. Acuite believes that the company's philosophy of lending to certain identified sectors and selecting clients based on strict parameters may inhibit its ability to scale up its loan book over the near to medium term.

The Company's key target segment i.e. MSMEs have faced pressures on their cash flows due to the nationwide lockdowns. Over the near term, Ugro could face challenges, in terms of higher credit costs on its existing exposures in certain sectors like especially in certain more affected sectors like hospitality, chemical industry, auto ancillary industry, light engineering, etc.

Ugro's credit profile, hitherto, has been underpinned by its track record in raising resources both debt and equity from various investors/lenders. It has also demonstrated the ability to raise funds through avenues like securitisation deals to diversify its sources of funding. Hence the resource raising ability has been adequately demonstrated in the past. Besides continued resource raising ability, Acuite believes that the future credit profile will depend upon management's ability to significantly scale up its loan book while containing its operating and credit cost in an increasingly challenging operating environment.

Rating Sensitivities

- Growth in AUM, profitability and asset quality
- Maintaining granularity in the portfolio
- Maintenance of adequate Liquidity

Material Covenants

Ugro is subject to covenants stipulated by its lenders/investors in respect of various parameters like capital structure, asset quality, among others. As per confirmation received from client vide mail dated April 28, 2021. 'Ugro is adhering to all terms and conditions stipulated as covenants by all its lenders/investors.'

Liquidity Position

For ACUITE Provisional PP-MLD AA+(CE): Adequate

The principal and interest on the PP-MLD are to be paid by the issuer on the final legal maturity date. The cash flows from the pool (1.25 times of the of the MLD amount outstanding (including accrued interest)) shall be utilised in case of occurrence of the trigger events.

For unsupported Rating ACUITE A: Adequate

As per the asset liability management (ALM) statement dated March 31, 2021 (Provisional), Ugro has positive cumulative mismatch in all of its maturity buckets. The company has unencumbered cash and cash equivalents of ~Rs. 338.89 Cr. as on March 31, 2021. The company is adequately capitalised with networth of Rs. 950.46 Cr. coupled with a gearing of 0.58 times as on December 31, 2020. The company's high capitalisation levels provides high flexibility to raise additional borrowings. It also has the flexibility to raise funds through securitisation transactions. The company has plans to maintain adequate liquidity in the form of unencumbered bank deposits/balances, liquid funds or unutilised bank lines to cover three months of requirements (i.e. debt obligations and sanctions pending disbursements).

Outlook: Stable

Acuite believes Ugro will maintain a 'Stable' outlook given its experienced management team and comfortable capitalization. The outlook may be revised to 'Positive' if there is significant scale up of the operations, while maintaining profitability and healthy asset quality. Conversely, the outlook may be revised to 'Negative' in case of growth challenges or if the company faces asset quality or profitability related challenges.

Supplementary disclosures for Provisional Ratings

A. Risks associated with the provisional nature of the credit rating

In case there are material changes in the terms of the transaction after the initial assignment of the provisional rating and post the completion of the issuance (corresponding to the part that has been issued) Acuite will withdraw the existing provisional rating and concurrently assign a fresh final rating in the same press release, basis the revised terms of the transaction.

B. Rating that would have been assigned in absence of the pending steps/ documentation

The covered bond structure would have become null and void for the PP-MLD. The rating of the NCDs would have been equated to the rating of the issuer (ACUITE A/ Stable).

C. Timeline for conversion to Final Rating for a debt instrument proposed to be issued:

The provisional rating shall be converted into a final rating within 90 days from the date of issuance of the proposed debt instrument. Under no circumstance shall the provisional rating continue upon the expiry of 180 days from the date of issuance of the proposed debt instrument.

About Acuite Ratings & Research:

Acuite Ratings & Research Limited is a full-service Credit Rating Agency registered with the Securities and Exchange Board of India (SEBI). The company received RBI Accreditation as an External Credit Assessment Institution (ECAI), for Bank Loan Ratings under BASEL-II norms in the year 2012. Since then, it has assigned more than 6,000 credit ratings to various securities, debt instruments and bank facilities of entities spread across the country and across a wide cross section of industries. It has its Registered and Head Office in Mumbai.

Disclaimer: An Acuite rating does not constitute an audit of the rated entity and should not be treated as a recommendation or opinion that is intended to substitute for a financial adviser's or investor's independent assessment of whether to buy, sell or hold any security. Acuite ratings are based on the data and information provided by the issuer and obtained from other reliable sources. Although reasonable care has been taken to ensure that the data and information is true, Acuite, in particular, makes no representation or warranty, expressed or implied with respect to the adequacy, accuracy or completeness of the information relied upon. Acuite is not responsible for any errors or omissions and especially states that it has no financial liability whatsoever for any direct, indirect or consequential loss of any kind arising from the use of its ratings. Acuite ratings are subject to a process of surveillance which may lead to a revision in ratings as and when the circumstances so warrant. Please visit our website (www.acuite.in) for the latest information on any instrument rated by Acuite.
