#### Analytical Approach

Acuité has consolidated the business and financial risk profiles of Durga Processors Private Limited and Durga Polysters Private Limited together known as Durga Group, to arrive at this rating. The consolidation is on account of common management, a similar line of business, and financial linkages. Extent of consolidation: Full.

#### Key Rating Drivers

##### Strengths

- **Long track record of operations and experienced management**

Durga group was incorporated in 1997 by Mr. Kunj Bihari Sultania having an operational track record of more than two decades in the textile industry. Group's primary line of business is dyeing and printing of

various textile products. Due to the long track record of operations, the group is considered as one of the top players in the aforementioned industry. Mr. Kunj Bihari Sultania possesses an experience of around three decades in the dyeing and printing industry. The other directors, Mr. Gopal R. Sultania and Mr. Nandkishore Sharma both have experience of more than two decades in the dyeing and printing industry.

The extensive experience of the promoter has enabled the company to forge healthy relationships with customers. The group reported significant revenue growth with operating income of Rs.321.03 crore in FY2020 (Provisional) as against operating income of Rs.286.98 crore in FY2019, Rs.209.02 crore in FY2018 and Rs.194.51 crore in FY2017. The increase in the revenues is mainly on account of increase in demand. Acuite believes that the group will continue to benefit from its experienced management and long track record of operation in dyeing and printing industry.

• **Efficient working capital management**

The Group has efficient working capital operations marked by Gross Current Assets (GCA) of 123 days in FY2020 (Provisional) as against 135 days in FY2019. The inventory holding period stood at 26 days in FY2020 (Provisional) as against 30 days in FY2019. The receivable period stood at 70 days in FY2020 (Provisional) as compared to 76 days in FY2019. This is mainly due to timely payment from the customers. As a result, the average bank limit utilization stood at ~79 percent for the last six months ended June, 2020.

Acuite believes that the working capital operation will remain comfortable over the medium term due to the payment terms with its customers and suppliers.

• **Comfortable financial risk profile**

Group's financial risk profile remained comfortable marked by healthy net worth and weak debt protection metrics. The net worth of the company stood at Rs.105.98 Crore as on 31 March 2020 (Provisional) as against Rs.97.88 Crore as on 31 March 2019. Acuite has treated the unsecured loans from promoters and related parties of Rs.30.00 crore as quasi-equity. The net worth levels have seen significant improvement over the last three years on account of healthy accretion to reserves during the same period. The gearing level (debt-equity) stood at 1.17 times as on 31 March 2020 (Provisional) as against 1.39 times as on 31 March 2019. High gearing level is on account of the major amount of capex done during FY2017-18 and FY2018-19 for capacity enhancement.

The total debt of Rs.123.74 Crore as on 31 March 2020 (Provisional) consists of long term debt of Rs.87.64 Crore, Unsecured loans from promoters of Rs.13.51 Crore and working capital borrowings of Rs.22.59 Crore. The interest coverage ratio (ICR) stood at 3.38 times in FY2020 (Provisional) as against 3.50 times in FY2019 due to high interest cost during the year. NCA/TD (Net Cash Accruals to Total Debt) ratio increased to 0.20 times in FY2020 (Provisional) as against 0.17 times in FY2019. Debt to EBITDA stood at 3.58 times in FY2020 (Provisional) as against 4.02 times in FY2019. This is mainly due to high external debt during the year.

Acuite believes that with adequate accruals to repayment obligations and moderate working capital operations, the financial risk profile is expected to be at a similar level over the medium term.

**Weaknesses**

• **Expected significant declining in revenue and profitability**

Although for the last few years the group's performance has continuously improved. The expectation for the current financial year has significantly declined due to major disruption caused because of the current Covid-19 pandemic and then followed by the nationwide lockdown. The group's operation were closed in the month of April and May and resumed its operation from June with a partial capacity. The group have only achieved revenue of ~Rs.25.79 Crore as of July 31, 2020.

Acuite believes that there will be an adverse impact on the level of revenue and profitability for the current financial year due to disruption in demand because of the current Covid-19 situation.

• **Highly competitive and fragmented nature of industry**

The group is operating in highly competitive and fragmented textile industry. It is exposed to intense competition from several organized and unorganized players operating in the industry. Group's income is derived from job work which is vulnerable to the intense competitive pressures and the cyclicity inherent in the domestic textile industry. Further, limited value added nature of job work operations might lead to a moderate level of margins and low return indicators. Acuite believes the adverse impact of COVID-19 on the industry can lead to longer in the revival of demand than expected and will have a significant impact on operations over the current financial year.

### Outlook: Stable

Acuite believes that Durga Group will continue to benefit over the medium term from the promoter's experience and established track record in the aforementioned industry. The outlook may be revised to 'Positive' if the group achieves more than envisaged sales while improving its liquidity. Conversely, the outlook may be revised to 'Negative' if the group fails to achieve the expected revenue and profitability and the financial risk profile further deteriorates owing to higher-than-expected increase in debt-funded working capital requirement.

### Material Covenant

None

### Rating sensitivity

- Higher than expected decline in operating revenues and profitability margins

### Liquidity position: Adequate

The group has adequate liquidity, marked by adequate high net cash accruals to its maturing debt obligations. The group generated cash accruals of Rs.24.35 Crore in FY2020 (Provisional) as against debt maturity obligation of Rs.15.07 crore for the year. The cash accruals of the company are estimated to remain in the range of around Rs.18.00 crore to Rs.24.50 crore during FY2021-23 against the CPLTD in the range of Rs.10.50-13.00 crore each year for the same period. The company's working capital operations are moderate, marked by Gross Current Asset (GCA) days of 123 days in FY2020 (Provisional). As a result, the bank limits utilization stood at ~79 percent for six months ending in June, 2020. The company maintains unencumbered cash and bank balances of Rs.1.05 Crore as on 31 March 2020 (Provisional). The current ratio stands at 1.71 times as on 31 March 2020 (Provisional).
