IPWT has stable business risk profile with geographically diversified and reputed customer base spread across pan India. Also, the company has strong position in niche market having established and long-term relationship with the clients including IOCL, HPCL, BPCL amongst others. Further, majority of the revenue is derived from the Government bodies. Acuité believes that the company will benefit from its established track record and long-standing relationship with its existing clients.

- **Moderate financial risk profile**

SEPL has moderate financial risk profile marked by moderate net worth, debt protection metrics and coverage indicators. Rs. 8.01 crore for FY2017. The company has orders in hand of around Rs.17.15 crore as on October, 2019.

- **Tender based nature of operations**

Majority of the revenue is derived from government tenders for environmental equipments. SEPL faces intense competition in bidding for government tenders and procurement of contracts during the downturn presents a major challenge for the company.

The outlook may be revised to 'Positive' in case SEPL is able to achieve significant growth in revenue along with improvement in profitability and significant improvement in financial risk profile. The outlook may be revised to 'Negative' in case SEPL reports deterioration in the working capital cycle or stretched liquidity position.
