

Press Release
ODISHA POWER TRANSMISSION CORPORATION LIMITED
May 16, 2024
Rating Reaffirmed

Product	Quantum (Rs. Cr)	Long Term Rating	Shc R
Bank Loan Ratings	1568.00	ACUITE A+ Stable Reaffirmed	-
Total Outstanding Quantum (Rs. Cr)	1568.00	-	-

Rating Rationale

Acuite has reaffirmed the long-term rating of 'ACUITE A+' (read as ACUITE A plus) on the Rs.1568.00 Cr. bank facilities of Odisha Power Transmission Corporation Limited (OPTCL). The outlook remains 'Stable'.

Rationale for Rating

The rating takes into cognizance the strong business risk profile of OPTCL characterized by healthy operating performance, regular tariff revision approvals from the state regulatory commission, a secured payment mechanism and healthy financial risk profile. The rating also factors in the support from the government of Odisha to OPTCL, as and when necessary. These strengths are partly offset by the inherently regulated nature of operations in the electricity transmission business.

About the Company

Odisha Power Transmission Corporation Limited (OPTCL) was incorporated in 2004 and is engaged in the business of power transmission in Orissa state. The company is carrying on the interstate transmission and wheeling of electricity under a license issued by the Odisha Electricity Regulatory Commission (OREC). Currently, OPTCL operates and maintains a transmission network of 16508 CKM of Extra High Voltage Transmission lines along with 194 sub-stations (400 KV 220KV 132 KV) having total transformation capacity of 26268 MVA, spread over the entire stretch of the State of Odisha. Moreover, OPTCL maintains transmission system availability of more than 99 per cent by adopting proactive maintenance policy. The company has its registered office in Orissa and is currently managed by Mr. Sanjay Kumar Mishra.

Unsupported Rating

Not Applicable

Analytical Approach

Acuite has taken the standalone view of the business and financial risk profile of OPTCL to arrive at the rating. However, the rating factors in the support from the Government of Odisha, given the latter holding 100 per cent ownership of OPTCL and its strategic importance to the state.

Key Rating Drivers

Strengths

Support from the government of Odisha

OPTCL is a wholly-owned undertaking of the GoO and a strategically important entity for the power sector infrastructure in the state of Odisha. The ownership structure provides adequate financial flexibility. It is also the nodal agency of the government for undertaking power transmission activity in the state. Being the transmission licensee, OPTCL is mandated to ensure the development of an efficient, coordinated, and economical transmission network for smooth flow of power to the load centres. OPTCL's credit quality is also supported by its access to funds at low cost and its ability to mobilise financial resources from several financial institutions and multilateral development institutions due to its status as a state owned entity.

Acuité believes that OPTCL, being a 100 per cent undertaking of GoO, shall continue to benefit from the financial, operational and management support as and when required. The GoO has demonstrated financial support by way of loans to OPTCL on a regular basis. Any changes in the ownership pattern of OPTCL or any event that impinges GoO's overall credit profile shall remain a key rating sensitivity.

Steady business risk profile buoyed by favourable operating efficiency

OPTCL has achieved revenues of Rs1442.25 Cr. in FY2023 as compared to revenues of Rs.1191.95 Cr. in FY2022. The increase in revenue is primarily on account of tariff revision by Odisha Electricity Regulatory Commission (OERC). However, it is expected to moderate in FY2024 to around Rs.1227.32 Cr. on account of lower transmission charges approved as compared to FY2023 levels. The operating profit margin increased to 49.84 per cent in FY2023 from 43.66 per cent in FY2022. The PAT margin of the company stood at 3.80 per cent in FY2023 as against 5.20 percent in FY2022.

Inbuilt 'cost plus tariff' structure

The billing of transmission charges by OPTCL is regulated and fall under the gamut of the Annual Revenue Requirement (ARR) of a 'cost-plus'-based tariff mechanism. The regulator allows a post-tax return on equity and other uncontrollable expenses are allowed to be passed through in tariff through the Annual Performance Review (APR) process. Acuité believes the 'cost-plus'-based tariff mechanism will continue to sustain the stable business outlook for the company.

Healthy financial risk profile

The company's healthy financial risk profile is marked by healthy networth, comfortable gearing and above average debt protection metrics. The tangible net worth of the company increased to Rs. 2,642.73 Cr. as on March 31, 2023 from Rs.2,290.94 Cr. as on March 31, 2022 due to retention of profits. Gearing of the company stood low as debt to equity ratio stood at 0.69 as on March 31, 2023. However, the Total outside Liabilities/Tangible Net Worth (TOL/TNW) stood high at 2.87 times as on March 31, 2023 as against 3.06 times as on March 31, 2022. The above average debt protection metrics of the company is marked by Interest Coverage Ratio (ICR) at 5.77 times as on March 31, 2023 and Debt Service Coverage Ratio (DSCR) at 2.21 times as on March 31, 2022. Net Cash Accruals/Total Debt (NCA/TD) stood low at 0.24 times as on March 31, 2023. Acuité believes that going forward the financial risk profile of the company will remain comfortable backed by steady accruals and continuous infusion of capital.

Weaknesses

Regulated nature of operations

OPTCL continues to be exposed to regulatory uncertainty, given that the revenues or transmission charges are influenced by the regulatory framework governing the power sector. The company operates through a cost-plus return on equity model laid down by OERC. Any change or reduction in return on equity or a tightening of the OERC norms could result in lower operating cash flows. Further, any delay in finalisation of the tariffs could result in cash flow mismatch in the medium term.

ESG Factors Relevant for Rating

Not Applicable

Rating Sensitivities

- Timely support from the Government of Odisha
- Timelines for tariff revision

Liquidity Position

Strong

The company's liquidity is strong marked by net cash accruals of Rs.444.63 Cr. as on March 31, 2023 as against long term debt repayment of Rs. 125.26 Cr. over the same period. The cash and bank balances of the company stood at Rs.1781.56 Cr. as on March 31, 2023 as compared to Rs.1402.68 Cr. as on March 31, 2022. The current ratio stood at 1.72 times as on March 31, 2023. The working capital intensive nature of operations of the company is marked by high Gross Current Assets (GCA) of 583 days as on March 31, 2023 as compared to 561 days as on March 31, 2022. Acuité believes that going forward the company will maintain adequate liquidity position due to steady accruals and healthy net worth base.

Outlook:Stable

Acuité believes that the company will maintain 'Stable' outlook over the medium term due to the steady cash flows inherent in the power transmission business along with its strategic importance and the support provided by the state government. The outlook may be revised to 'Positive' in case the company registers consistent growth in revenues while maintaining its profitability and liquidity. Conversely, the outlook may be revised to 'Negative' in case of any unexpected deterioration in the financial profile, elongation of working capital cycle or any significant pressures on the fiscal position of the state government.

Note on complexity levels of the rated instrument

In order to inform the investors about complexity of instruments, Acuite has categorized such instruments in three levels: Simple, Complex and Highly Complex. Acuite's categorisation of the instruments across the three categories is based on factors like variability of the returns to the investors, uncertainty in cash flow patterns, number of counterparties and general understanding of the instrument by the market. It has to be understood that complexity is different from credit risk and even an instrument categorized as 'Simple' can carry high levels of risk. For more details, please refer Rating Criteria "Complexity Level Of Financial Instruments" on www.acuite.in.
