Acuite has upgraded its long-term rating to 'ACUITE B+' (read as ACUTE B Plus) from 'ACUITE C' (read as ACUITE C) and 'ACUITE D' (read as ACUITE D) and reaffirmed its short-term rating of 'ACUITE A4' (read as ACUITE A four) on the Rs. 345.00 crore bank facilities of Premium Medical and Health Care Providers Private Limited (PMPL). The outlook is 'Stable'.

Rationale for Rating Upgrade

The rating upgrade considers regularisation of banking conduct by the company and improvement in operating performance in H1FY2025. The company reported an improvement in average revenue per occupied bed (ARPOB) per day and overall occupancy level in 5MFY2025. The ARPOB improved to Rs. 54179 in 5MFY2025 from Rs. 53837 in FY2024 and Rs. 46785 in FY2023. The occupancy level stood at 61%, 50% and 63% respectively for the corresponding period. Driven by these parameters, the company reported revenue of Rs.200.37 Cr. in FY2024 against Rs. 222.80 Cr. in FY2023. The operating margin stood at 5.10 percent in FY2024 as against 2.83 percent in FY2023. In H1FY2025, operating income stood at Rs. 123.89 Cr. i.e. 61.83% of its FY24 revenue and operating margin of 17.14 percent. The significant improvement in operating performance in H1FY2025 is driven by multiple steps taken by the company namely increase rack rates on billable items, hiring of doctors in-house vis-à-vis on consultation basis earlier, optimisation of costs by entering in long term contract on fixed percentage basis etc.

While the operating performance improved, company continued to report losses at PAT levels driven by higher depreciation and interest cost. Going forward, the company's ability to improve its operating income and overall profitability while maintaining its capital structure will remain a key rating monitorable.

Weaknesses

Stringent regulatory framework in the healthcare sector

Despite the increasing trend of privatization of healthcare sector in India, the company continues to operate under stringent regulatory environment.
