| Total Outstanding Quantum (Rs. Cr) | 0.00 | - | - | |
| Total Withdrawn Quantum (Rs. Cr) | 15252.00 | - | - | |

Rating Rationale

Acuité has reaffirmed and withdrawn the long-term rating of 'ACUITE BBB' (read as ACUITE triple B) and short-term rating of 'ACUITE A3+' (read as ACUITE A three plus) on the Rs. 15,252.00 Cr. bank facilities of Adani Power (Mundra) Limited (APMuL). The rating is being withdrawn on account of the request received from the company and the NOC received from the banker's as per Acuité's policy on withdrawal of ratings.

Rationale for the Rating Reaffirmation

The rating reaffirmation is in view of continued support from its Parent, Adani Power Limited (APL) for timely servicing of debt, expected improvement in cash flows and improvement in business profile of APMuL. APL is a part of Adani Group and has continuously supported APMuL by way of unsecured loans and unsecured perpetual securities. Acuité also takes into account the conversion of unsecured loans to unsecured perpetual securities (considered as quasi equity) in FY2022 of Rs.8,650 Cr. Further, APL's board has approved the scheme of amalgamation of APMuL along with its other fully owned subsidiaries into APL on March 2022. The respective boards and the secured creditors have already approved the scheme of amalgamation whereas other proceedings are currently undergoing with NCLT and the management expects to obtain all the approvals by end of FY2023. Since the complete shareholding of all the subsidiaries including APMuL are with APL, there will be no exchange of shares and only the assets and liablities of these entities will be transfered to APL.

Going ahead, the cash flow of APMuL is expected to improve on account expected improvement in recovery of fuel costs and increase in gross tied up capacity to 4293 MW from 2950 MW as on date. This is primarily on account of settlement of dispute with GUVNL and signing of revised PPA in March 2022. The company had witnessed a significant decline in business profile marked by deterioration in Plant Load Factors (PLF) levels to ~30% in FY2022 as against ~63% in the previous year on account of substantial increase in the fuel costs and a reduction of supply of power to Haryana Discom from May 2021. However, Acuité has taken a note of Debt Service Reserve Account (DSRA) equivalent to one quarter of the principal and interest for the term loans. The rating has remained constrained on account of high long term debt levels of over Rs.7600 Cr. (excluding USL of Rs.9900 Cr.) as on 31 March 2022 along with negative net worth base in stand-alone APMuL.

Acuité Ratings & Research Limited

About the Company

APMuL was incorporated in 2015 is a 100 per cent subsidiary of Adani Power Limited (APL). APL is a flagship company of Adani Group promoted by Mr. Gautam Adani and Mr. Rajesh Adani engaged in Power generation. APL, a listed entity, is one of the India's largest Independent Power Producer (IPP) with generation capacity of 14 GW (gigawatt). APMuL is located in Mundra, Gujarat comprising of 9 units of coal based thermal power plant. These 9 units are spread across four Phases with a total of 4620 MW constituting sub-critical and super critical thermal power plants. The four Phases has been divided into Phase 1&2 (330 MW x 4) each, Phase 3 (660 MW x 2) and Phase 4 (660 MW x 3). The company has a long term PPA with Gujarat Urja Vikas Nigam Limited (GUVNL) for (Phase 1 2 & 3) net capacity 2434 MW, Phase 4 with Haryana Power Purchase Centre (HPPC) for net capacity 1424 MW and 40 MW with MUPL. The open capacity is being sold under merchant sale to other distribution companies (discoms) with short term or medium term PPA and to private players.

Analytical Approach

Acuité has considered the standalone business and financial risk profiles of the APMuL to arrive at this rating.

Key Rating Drivers

Strengths

Significant and consistent support from Adani Group

APMuL was incorporated in 2015 and is a 100 per cent subsidiary of Adani Power Limited (APL). Adani Power Limited is a flagship company Adani Group promoted by Mr. Gautam Adani and Mr. Rajesh Adani. APMuL has a total of 9 thermal power plants with gross total capacity of 4620 MW and long term PPAs signed for gross capacity of 4293 MW. APMuL has a total long term debt outstanding of Rs. 7624 Cr as on 31 March, 2022 with annual repayments ranging between Rs. 1500 to Rs. 1700 Cr. in next three years. APMuL has been incurring losses on account of under recovery of variable cost vide the terms of original PPA, high interest cost and one-time write off of compensatory tariff in 2017. However, Adani Group has consistently supported the loan repayments and the working capital management (procurement of coal) by offering preferential credit terms. The group has demonstrated support to APMuL in the form of fund infusion both in form of equity and unsecured loans whenever required. The promoter group has infused Unsecured Perpetual Securities (with no maturity or redeemable and callable at company's option) to the tune of Rs.8650 Cr (considered as quasi equity), with Rs.3600 Cr converted to Unsecured Perpetual Securities in FY2021 from Unsecured Loans. The Unsecured Loans stood at Rs. 93800 Cr. as on March 31, 2022 as against Rs. 8281 Cr as on March 31, 2021. Acuité believes that APMuL is a strategically important entity in the Group and will continue to receive financial support from Adani Group as and when required.

Expected improvement in cash flows albeit decline in operating performance in FY2022

APMuL's operating performance has shown a significant decline in FY2022. The average PLF level for FY2022 stood 30 percent against 63 percent in FY2021. This primarily on account of significant increase in the coal price index and APMuL's inability to recover higher fuel costs under the existing PPAs. The generation stood at 11962 MUs in FY2022 against 25665 MUs in FY2021. This has led to decline in revenue from power sale to Rs. 5570 Cr. in FY2022 against Rs. 8348 Cr. in FY2021. Acuité notes that the company has realized Rs.5.02/unit as against fuel cost of Rs.5.06/unit for FY2022 as against Rs.3.54/unit as against the fuel cost of Rs.3.04/unit for FY2021. Despite the decline in FY2022, Acuite expects APMuL's operating performance to improve going forward on account of resolution of dispute with the GUVNL and increasing the capacity tie up to 2434 MW in March 2022 from 1320 MW previously and inclusion of

complete pass through of fuel costs as per the revised PPAs. Also, the APMuL had signed a long term PPA with GUVNL (Bid-2) in 2010 with a condition that Gujarat Mines Development Corporation (GMDC) will allocate mines with a capacity of 4 MTPA for captive consumption. Since the coal mines were not allocated to APMuL, the company had filed a suit in Appellate Tribunal for Electricity for termination of PPA in 2010. However, APMuL continued supplying power to GUVNL until the final hearing of the cancellation of PPA. However, as per the Supreme Court. verdict in July 2019, the PPA was cancelled effective from January 04, 2010. APMuL had filed its petition for one time compensation with CERC which now it has waived off and APMuL and GUVNL have settled the dispute and signed on a revised PPA. This has led to improvement in APMuL's PPA tied up capacity of APMuL as Phase 1, 2 & 3 are fully tied up with GUVNL. Acuité believes the settlement of the dispute with GUVNL and inclusion of fuel cost pass through terms will improve the company's liqudity profile over the medium term. Further, the company had also stopped supplying power the HPPC since August 2021 on account of non payment of past dues. The resolution of this dispute with HPPC will remain a key rating sensitivity. Acuité believes that settlement of issues with GUVNL will lead to improvement in PLF levels and better recovery of fuel costs. This is expected to improve APMuL's liqudity profile over the medium term.

Weaknesses

Weak Capital Structure albeit infusion of Unsecured Perpetual Securities

The company has been incurring losses on account of under recovery of variable cost vide the terms of original PPA, high interest cost and write off of compensatory tariff. The accumulated losses stood at Rs. 14690 Cr as on 31 March 2022 against Rs. 14354 Cr. as on March 31, 2021. However, Adani Power Limited has infused Unsecured Perpetual Securities (which has been considered as quasi equity) of Rs.5050 Cr in FY2019. Further, Adani Group converted its Rs.3600 Cr. unsecured loans to Unsecured Perpetual Securities (treated as quasi equity) in FY2021, summing to ~Rs.8650 Cr. On account of further decline in operating performance and low PLF levels in FY2022 on account of significant increase in the coal cost, the overall networth declined to negative Rs. 2524 Cr. as on March 31, 2022 against Rs. 2436 Cr. in the previous year.

Significant untied capacity

The company has existing long term PPAs only for ~92 per cent of gross total capacity as on March 31, 2022. The company has a gross total capacity of 4620 MW of which the long term PPAs has been signed for 3898 MW (Gross 4270 MW) with GUVNL (2434 MW), HPPC (1424 MW) and MUPL (40 MW). This improved significantly from previous year due to signing of revised PPA with GUVNL (Bid-2) in March 2022. APMuL supplies power for the untied capacity on short term to medium term capacity and to private players at price range of ~Rs.5.00/unit to Rs.5.50/unit through FY2022. The company's offtake on merchant sales is dependent growth in power demand along with APMuL's ability to generate lower cost power. The company's profitability for merchant sales is highly dependent on coal prices. Since the company imports coal from Indonesia, the company's cost of generation is highly dependent on the international coal prices and dollar rate which has gone up by almost 40 percent in FY2022 against FY2021. Further, the company's ability to enter into a long term PPA for the untied capacity will remain a key monitorable.

ESG Factors Relevant for Rating

APMuL is a coal based thermal power producer therefore, directly contributes to carbon emissions. The other material factors from the environmental perspective are green supply chain and waste management. The governance factors that play an important role are ethical business practices, board oversight and management compensation. Further, risk management practices to minimise corruption associated with electricity and gas distribution plays a crucial role. Additionally, regulatory compliance, shareholder's rights and audit control are other material issues in the power generation industry. On the social front, occupational and workforce health & safety management are of primary importance to this industry given the nature of operations. The policies on responsible procurement and product safety as well

as quality are of utmost significance.

Rating Sensitivities

- Significant improvement in capital structure
- Ability to improve overall PLF levels

Material covenants

None

Liquidity Position

Adequate

APMuL's liquidity will be driven by support from Adani Group. Adani Group has demonstrated its support towards APMuL. The promoter group has invested Rs.8650 Cr as unsecured perpetual security (considered as quasi equity) and unsecured loan of Rs. 9380 Cr. as on March 2022. The company also has created DSRA equivalent to one quarter of the principal and interest for the term loans. Acuité believes, with expected increase in PLF levels on account of resolution of the issue with GUVNL is expected to improve liquidity position of APMuL and will thus reduce the dependence on APL. However, Acuité still has taken into consideration the support from Adani Group.

Note on complexity levels of the rated instrument

In order to inform the investors about complexity of instruments, Acuité has categorized such instruments in three levels: Simple, Complex and Highly Complex. Acuité's categorisation of the instruments across the three categories is based on factors like variability of the returns to the investors, uncertainty in cash flow patterns, number of counterparties and general understanding of the instrument by the market. It has to be understood that complexity is different from credit risk and even an instrument categorized as 'Simple' can carry high levels of risk. For more details, please refer Rating Criteria "Complexity Level Of Financial Instruments" on www.acuite.in.

About Acuité Ratings & Research

Acuité is a full-service Credit Rating Agency registered with the Securities & Exchange Board of India (SEBI). The company received RBI Accreditation as an External Credit Assessment Institution (ECAI) for Bank Loan Ratings under BASEL-II norms in the year 2012. Acuité has assigned ratings to various securities, debt instruments and bank facilities of entities spread across the country and across a wide cross section of industries. It has its Registered and Head Office in Kanjurmarg, Mumbai.

Disclaimer: An Acuité rating does not constitute an audit of the rated entity and should not be treated as a recommendation or opinion that is intended to substitute for a financial adviser's or investor's independent assessment of whether to buy, sell or hold any security. Ratings assigned by Acuité are based on the data and information provided by the issuer and obtained from other reliable sources. Although reasonable care has been taken to ensure that the data and information is true, Acuité, in particular, makes no representation or warranty, expressed or implied with respect to the adequacy, accuracy or completeness of the information relied upon. Acuité is not responsible for any errors or omissions and especially states that it has no financial liability whatsoever for any direct, indirect or consequential loss of any kind, arising from the use of its ratings. Ratings assigned by Acuité are subject to a process of surveillance which may lead to a revision in ratings as and when the circumstances so warrant. Please visit our website (www.acuite.in) for the latest information on any instrument rated by Acuité.
