

## Press Release

### Rishabh Metals and Chemicals Private Limited

February 19, 2020

#### Rating Assigned

<b>Total Bank Facilities Rated*</b>	Rs. 30.00 Cr.
<b>Long Term Rating</b>	ACUITE BBB- / Outlook: Stable
<b>Short Term Rating</b>	ACUITE A3

\* Refer Annexure for details

#### Rating Rationale

Acuite has assigned long-term rating of '**ACUITE BBB-**' (read as **ACUITE triple B minus**) and short-term rating of '**ACUITE A3**' on the Rs. 30.00 crore bank facilities of RISHABH METALS AND CHEMICALS PRIVATE LIMITED (RMC). The outlook is '**Stable**'.

Incorporated in 1983, RMC is a Mumbai-based company promoted by Mr. Ashesh Jain and Mrs. Madhu Jain. The company is engaged in manufacturing of specialty chemicals and water-soluble polymers which finds applications in Water, Waste Water treatment, Paper, Textiles, Pharmaceuticals, Oil & Gas, Mining & Metallurgical, Sugar industry etc. The company runs an ISO: 9000-accredited manufacturing facility at Jalgaon, Maharashtra with an installed capacity of 4200 MTPA.

#### Analytical Approach

Acuite has consolidated the business and financial risk profile of Rishabh Metals and Chemicals Private Limited (RMC) and Siddharth Carbochem Products Limited (SCPL) together referred to as 'Rishabh Group' to arrive at the rating. The consolidation is in view of common management and cross guarantee given. Extent of consolidation: Full

### Key Rating Drivers

#### Strengths

##### • Experienced management

Rishabh group has presence in specialty chemical industry since 1975. The group is operated and managed by Mr. Ashesh who has an established experience of nearly two decades in the aforementioned industry. SCPL is engaged in manufacturing of Methyl Salicylate & Salicylic Acid. Later, RMC was set up in 1983 and is engaged in manufacturing of specialty chemicals and water-soluble polymers. RMC manufactures range of specialty chemicals and water-soluble polymers like wet strength resins, poly amide resin, poly DCDA resins and blends of organic and inorganic coagulants.

Further, the group deals into various range of products which finds application in various industry such as pharmaceuticals, water and waste water, paper, textile and sugar industry. 90-95% of the group sales accounts for these major industries. The top 5 customers of the group accounts for ~22 percent of total sales in FY2019.

Acuite believes that the group will benefit from experienced management, which will help the group to maintain long standing relations with its customers and suppliers.

##### • Efficient working capital management

Rishabh group has efficiently managed its working capital as reflected in Gross Current Assets (GCA) of 101 days in FY2019 as against 121 days in FY2018 and 115 days in FY2017. This group generally maintains inventory of 40-50 days. Debtors stood at 54 days in FY2019 as against 78 days in FY2018. As a result, the reliance on working capital limits is moderate at ~60 per cent.

Acuite expects the working capital management to remain efficient over the medium term on account of the lean inventory levels maintained by the company

#### • **Moderate financial risk profile**

The financial risk profile of the group is moderate marked by moderate tangible net worth, comfortable debt protection measures and low gearing. The tangible net worth of the company stood around at Rs.32.57 crore as on 31 March, 2019 as against Rs.27.01 crore in FY2018. The tangible networth levels have seen improvement over the last three years through FY 2019 on account of healthy accretion to reserves during the same period. The group has followed a moderately aggressive financial policy in the past. The group's gearing improved to 0.48 times as on 31 March, 2019 as against 1.06 times in the previous year. The total debt of Rs.15.66 crore as on 31 March, 2019 consists of long-term debt of Rs.0.98 crore, Rs. 5.22 crore of unsecured loans from promoters and Rs.9.46 crore of short-term debt obligations.

The leverage and coverage indicators continue to remain moderate marked by Interest Coverage Ratio (ICR) and Debt Service Coverage Ratio (DSCR). ICR stood moderate at 4.06 times and DSCR stood at 3.39 times for FY2019. Total outside liabilities to tangible net worth has stood at 1.94 times as on 31 March, 2019 as against 1.84 times as on 31 March, 2018.

Acuite believes that the financial risk profile will continue to remain moderate on account of improved cash accruals and operating performance.

### **Weaknesses**

#### • **Fluctuating revenues and profitability margins**

The revenue trend of the group is uneven during the period FY2017 to FY2019 under the study. The operating income stood at Rs. 233.19 crore in FY2019 as against Rs.147.50 crore in FY2018 and Rs.187.39 crore in FY2017. The decline in revenues in FY2018 is partially attributed to impact of GST and partially to shift in target customer to more organised and larger clientele.

Further, the margins of the group are susceptible to volatility in raw material prices, which have been uneven during the period under study. The group's operating margins stood modest at 5.08 per cent in FY2019 as against 5.38 per cent in FY2018 and 3.39 per cent in FY2017. Further, the group reported Profit after Tax (PAT) margins of 2.39 per cent in FY2019 as against 1.99 per cent in FY2018 and 1.06 per cent in FY2017.

Acuite believes that the group's ability to register significant growth in its revenues while improving its profitability would be key rating sensitivity.

#### • **Susceptible to fluctuations in prices of raw material and forex rates**

The group's total raw material constitutes of around 83 percent of total sales. Major raw material required for the company is monomers like dimethylamine, diethyl amine, etc. which are 40 percent imported and 60 percent domestically procured. The group's profitability is exposed to any adverse fluctuations in prices of these raw materials. Also, the company faces foreign exchange fluctuation risk as company exports 20 percent to the countries like US, Middle East, Indonesia, Africa among few. However, the forex risk is partially mitigated as company also imports.

### **Rating Sensitivities**

- Stretch in Gross Current Asset (GCA) to 120-130 days.
- Substantial improvement in scale of operation (~Rs.270.00-300.00 crores), while maintaining profitability margin of around 6.50-7.50 per cent over the medium term.

### **Material Covenants**

None

### **Liquidity Position: Adequate**

Rishabh Group has adequate liquidity marked by net cash accruals as compared to its maturing debt obligations. The company generated cash accruals of Rs. 3.0 crore – Rs. 7.4 crore during the last three years through 2017-19, while the maturing debt obligations were in the range of Rs. 0.11 crore over the same period. The cash accruals are estimated to improve to Rs. 8.3 – 10.4 crores during 2020- 22, while its repayment obligations are expected to be Rs.0.11-0.15 crore over the same period. The company maintains cash and bank balances of Rs. 1.22 crore as on March 31, 2019. The current ratio stood moderate at 1.26 times as on March 31, 2019. Acuite believes that the liquidity of the company is likely to remain adequate over the medium term on account of improvement in net cash accruals.

### Outlook: Stable

Acuite believes that the group will maintain a 'Stable' outlook over the medium term on account of experienced management, moderate financial risk profile and efficient working capital. The outlook may be revised to 'Positive' in case of substantial and sustained growth in revenue and profitability. Conversely, the outlook may be revised to 'Negative' in case of deterioration in the financial and liquidity profile most likely as a result of higher than envisaged working capital requirement.

### About the Rated Entity - Key Financials
