

## Press Release

### Embassy Property Developments Private Limited

March 27, 2021

### Rating Assigned

<b>Total Instruments Rated*</b>	Rs. 800.00 Cr.
<b>Long Term Rating</b>	PP-MLD ACUITE BBB / Outlook: Stable (Converted from Provisional to Final) (Assigned)

\* Refer Annexure for details

### Rating Rationale

Acuité has converted the provisional rating to final long-term rating of '**PP-MLD ACUITE BBB**' (**read as Principal Protected Market Linked Debentures ACUITE triple B**) on the Rs.800.00 crore Principal Protected Market Linked Non-Convertible Debentures of Embassy Property Developments Private Limited (EPDPL). The outlook is '**Stable**'. The conversion of the rating from provisional rating to final rating reflects satisfactory completion of documentation as required by Acuité.

#### Acuité has received the following documents:

- Appointment of a SEBI registered debenture Trustee.
- Receipt of the executed trust deed.
- Receipt of the final term sheet and confirmation from trustee regarding the compliance with all the terms and conditions

The prefix 'PP-MLD' indicates that while the NCD is a principal-protected instrument, there are other non-credit risks associated with the instrument. The coupon/return on the instrument is not fixed and is linked to an external market linked variable which in this case is the yield on the 10-year Government of India Security (Gsec). This could result in volatility in the returns to the investors, the risks where of is not taken into account by the rating.

### About the Company

Embassy Property Developments Private Limited (EPDPL) was incorporated in 1996 and the flagship company of leading real estate Embassy Group, based out of Bangalore. EPDPL is engaged in development of commercial, residential and retail projects.

Embassy Group was incorporated in 1993 by Mr. Jitendra Virwani. The group is one of the leading real estate developer. The group has developed 55+ Million Sq. Ft. In its legacy of expertise spanning 25 years, Embassy Group has covered the entire value chain of real estate from land acquisition to the development, marketing and operation of assets. In addition, the Embassy group owns properties in the hospitality segment and is developing industrial parks and warehouses across India. It also has an extensive land bank of 1000+ acres across India. The operation spread across Indian and international markets that include Bangalore, Chennai, Pune, Coimbatore, Trivandrum, Serbia and Malaysia. The group from time to time partners with several established market players like, Blackstone, Warburg Pincus, Taurus Investments as well as different financial institutions to execute projects.

### Analytical Approach

Acuité has considered the standalone business and financial risk profiles of EPDPL to arrive at the rating. Acuité has also considered the Principal protected market linked structure of the issue with all the receivables from certain secured assets shall be pledged for repayment of the specific NCD while assessing the credit worthiness of the instrument.

### Key Rating Drivers

#### Strengths

- Established presence of Embassy group in the commercial real estate segment

The Embassy group is among the largest commercial real estate developers in the country. EPDPL is engaged in development of commercial, residential and retail projects. The group has business parks in locations such as Bangalore and Pune, with upcoming projects in Chennai and Trivandrum. The group has developed 55+ Million Sq. Ft. In its legacy of expertise spanning 25 years, Embassy Group has covered the entire value chain of real estate from land acquisition to the development, marketing and operation of assets. In addition, the Embassy Sponsor owns properties in the hospitality segment and is developing industrial parks and warehouses across India.

- **Demonstrated Financial flexibility arising from EPDPL's investments, including Embassy REIT**

EPDPL, being the flagship company of the group, has significant financial flexibility resulting from its investments in the completed commercial real estate portfolio, including its stake in Embassy REIT providing recurring dividend income to EPDPL. In addition, the group sold some of the assets to pare its debt. EPDPL has raised Principal Protected Market Linked Non-Convertible Debentures of Rs 800.00 Cr, which will be repaid from dividend received on specific number of REIT units pledged against the facility and is proposed to be transferred to an escrow account maintained with the lender which would provide a steady stream cash flow to service the repayment obligations, any surplus after servicing the scheduled payments is proposed to be utilized for making prepayments under the facility.

- **Support from group entities**

The rating for the term loan also draws strength from the free cash flow generation from group entities, including the facility management services and common area management companies of the group, which are also the co-borrowers to some of the loans of the company.

- **Diversified asset mix and access to stream of dividends on the REIT units**

EPDPL develops residential, commercial and hospitality properties, which provides multiple and consistent cash flow streams. Currently, there are three on-going residential projects under construction, one completed and one commercial project. The residential projects are at the advanced stage of the completion with most projects cost already been incurred and OC has been received for all projects except for tower 6-9 in Embassy Lake Terrace residential projects. Moreover, EPDPL has commercial assets which has enabled EPDPL to have consistent lease rentals to its cash flows. EPDPL also has one ongoing commercial project – Embassy Splendid Tech Zone (Phase I) in Chennai. Phase I consists of 6 blocks. The company has received Completion Certificate and handed over Block 2 and Block 3. The receivables pending on the sold inventory, sale proceeds from the unsold inventory and consistent lease rentals from commercial properties provides near to medium term cash flow visibility. Apart from it, EPDPL receives service income like, business consultancy fee, asset management fee and brokerage fee. EPDPL also derives cash flows from the sale of asset to REIT and quarterly dividend against 12.18 percent of REIT unit holding as 31 Dec 2020. Acuite believes this diversified asset mix and access to different sources of income makes EPDPL more resilient to the cyclicity of real estate industry.

## Weaknesses

- **Refinancing Risk**

EPDPL's total debt consisted of term loans and inter corporate deposit of Rs. 9,012.14 Cr as on FY20, from banks NBFCs, and group companies. The subdued market scenario in the real estate sector in Bangalore from past two years has affected the cash flows from the existing projects leading to higher dependence on the refinancing of the external bank debt. However, the company has successfully refinanced its existing debt obligations in past. Acuite believes that timeliness and adequacy of such refinancing measures resulting into easing of its liquidity position remains a key rating sensitivity factor.

- **Susceptibility to cyclicity and regulatory risks impacting real estate industry**

EPDPL is exposed to the risk of volatile prices on account of frequent demand supply mismatches in the industry. The Real Estate sector is currently witnessing moderation in demand on account of large amounts of unsold inventory and high borrowing costs, this along with the pandemic has mounted pressure on the industry resulting in lower sales. This is primarily attributable to the high residential property prices due to persistent rollover of bank debt which has had a cascading effect on the overall financing costs. Given the high degree of financial leverage the high cost of borrowing inhibits the real estate developers' ability to reduce prices. Further, the industry is

exposed to regulatory risk which is likely to impact players such as EPDPL, thereby impacting its operating capabilities.

#### Liquidity Position: Adequate

The group operates in real estate business, which to a large extent is illiquid and highly cyclical and it usually takes time monetize these assets. Existing debt of the group includes loans obtained for general corporate purpose and acquisition and are susceptible to refinancing risk. The unencumbered cash in hand with the company was Rs 169.48 Cr, the company also held liquid assets in the form of shares and mutual funds of listed companies amounting to Rs 8.86 Cr. The group in the past has been able to demonstrate high financial flexibility and ability to borrow against the value of its investments in various commercial real estate assets and investments. Nevertheless, the company was unable to refinance some of its debt in March 2020 due to the ongoing pandemic. Acuite believes, the liquidity position of the group will stay as is considering the asset heavy business model and slow pace in picking up of residential luxury project sales.

#### Rating Sensitivities

- A significant increase in the scale of operations, through diversification
- An elongation of the working capital cycle
- Fall in the operating profitability and/or deterioration in the liquidity position
- Any inorganic changes to the structure viz. mergers, acquisitions, asset sales etc.

#### Outlook: Stable

Acuite believes that EPDPL will maintain a 'Stable' outlook over medium term on account of established market position of Embassy group in the real estate industry and diversified cash flow streams. The outlook may be revised to 'Positive' in case the company generates higher than expected cash flows through customer advances and achieves its project completion as per scheduled timelines. Conversely, the outlook may be revised to 'Negative' in case of stretch in the company's liquidity position on account of escalation of project costs or lower than expected sales traction towards ongoing projects, which may further increase the dependence on refinancing of debt.
