

**Press Release**  
**Ramacivil India Construction Private Limited**  
**October 17, 2024**  
**Rating Assigned and Reaffirmed**

Product	Quantum (Rs. Cr)	Long Term Rating	Short Term Rating
Bank Loan Ratings	5.00	ACUITE BBB-   Stable   Assigned	-
Bank Loan Ratings	5.00	ACUITE BBB-   Stable   Reaffirmed	-
Bank Loan Ratings	95.00	-	ACUITE A3   Assigned
Bank Loan Ratings	295.00	-	ACUITE A3   Reaffirmed
Total Outstanding Quantum (Rs. Cr)	400.00	-	-
Total Withdrawn Quantum (Rs. Cr)	0.00	-	-

**Rating Rationale**

Acuite has reaffirmed the long-term rating to ‘**ACUITE BBB-**’ (read as **ACUITE triple B minus**) and short-term rating to ‘**ACUITE A3**’ (read as **ACUITE A three**) on the Rs. 300.00 Cr. bank facilities of Ramacivil India Construction Private Limited (RICPL). The outlook remains ‘**Stable**’.

Acuite has further assigned the long-term rating to ‘**ACUITE BBB-**’ (read as **ACUITE triple B minus**) and short-term rating to ‘**ACUITE A3**’ (read as **ACUITE A three**) on the Rs.100.00 Cr. bank facilities of Ramacivil India Construction Private Limited. The outlook is ‘**Stable**’.

**Rationale of the Rating**

The rating reflects an improvement in RICPL’s business risk profile and a healthy order book. It has its exposure in various states and a healthy order book which provides it with revenue visibility. Furthermore, the company’s financial risk profile is healthy reflected by improving net worth, low gearing, comfortable debt protection metrics and adequate liquidity position. The company has also adequate liquidity such as free fixed deposits and other investments to meet any kind of contingency.

The rating also draws comfort from the longstanding operations of the company, extensive experience of the promoters in the infrastructure industry. However, the rating is constrained by the moderate working capital management and presence of being in a competitive and fragmented construction industry. The legal proceedings are currently pending under the Delhi High Court and any adverse decision favouring NBCC can impact the credit profile of the company. This potential consequence will remain a significant sensitivity factor over the medium term.

**About the Company**

Delhi based, Ramacivil India Construction Private Limited was established as a partnership concern in 1972 by Mr. Ram Gupta and later was incorporated in 2017 the constitution was changed to private limited. It is engaged in contract-based building construction work mainly for organizations such as Central Public Works Department (CPWD), Delhi Public Works Department (DPWD) and others. Company is super class contractor which gives them the leverage to bid for projects of around Rs.500.00 Cr. Currently the company is managed by Mr. Parveen Gupta & Mr. Gautam Gupta.

**Unsupported Rating**

Not Applicable

**Analytical Approach**

Acuité has considered the standalone business and financial risk profiles of the RICPL to arrive at the rating.

### Strengths

#### Experienced Management

RICPL has been present in the construction and infrastructure industry for over four decades which has enabled the company to establish strong relations with its customers as well as with suppliers and also have a strong market position. The company is promoted by Mr. Ram Niwas Gupta who has been associated with the company since its association which gives him an experience of more than four decades. The established track record of operations coupled with experienced management has helped the company maintain a healthy order book position which was at Rs. 2870.75 Cr. as on 30<sup>th</sup> June 2024 and the OB/OI was at 2.77 times as on that date. Acuité believes that the company will continue to derive benefit from its promoter's experience, healthy order book position and strong relations with its customers and suppliers.

#### Increase in Revenue Growth

RICPL has achieved revenues of Rs.1035.03 crore in FY2024 as compared to revenues of Rs. 867.73 crore in FY2023 and Rs. 693.64 crore in FY2022. The increase was on account of a healthy order book position and majority of project being under work-in-progress. The company had participated in an order book of Rs.6050 Cr. but due to elections code of conduct, the tender results were not declared and are expected to be declared by end FY2025. The company has attained a revenue of ~Rs. 56 Cr. in two months ended May 2025.

The EBITDA margin stood at 5.82 percent in FY24 as against 5.41 percent in FY23 and 4.76 percent in FY22. The slight increase is directly attributable to higher revenues against better absorption of fixed costs of company. The profitability margin depends on company's selection of projects being bid for. The PAT margin stood at 4.51 percent in FY24 as against 3.36 percent in FY23 and 3.30 percent in FY22. The increase was mainly from interest received from fixed deposits and others. The RoCE stood at 30.00 percent in FY24 as against 28.60 percent in FY23 and 24.18 percent in FY22. Acuite believes the scale of operation will improve over the medium term backed by healthy order flow.

#### Healthy Financial Risk Profile

The company's financial risk profile is healthy reflected by improving net worth, low gearing and comfortable debt protection metrics. The tangible net worth of the company increased to Rs.228.09 crore in FY2024 from Rs.181.41 crore in FY2023 due to accretion to reserves. Gearing of the company stood below unity at 0.17 times in FY2024 as against 0.03 times in FY2023 and 0.08 times in FY22. The gearing of the company is expected to remain low over the medium term on account of the absence of any debt-funded capex plans and incremental working capital requirements, which is likely to be funded by the cash accruals of the company. The interest coverage ratio of the company improved to 10.58 times in FY24 as against 8.49 times in FY2023 and 9.02 times in FY2022 and Debt Service Coverage Ratio stood at 6.08 times in FY24 as against 4.89 times in FY23 and 5.39 times in FY22. Acuite believes that the financial risk profile of the company will remain healthy with no major capex plans.

### Weaknesses

#### Moderate Working Capital Management

The working capital cycle of the company is marked by Gross Current Assets (GCA) of 161 days in FY24 as compared to 151 days in FY23 and 182 days in FY22. The inventory days remained at similar levels and stood at 15 days in FY24 as compared to 18 days in FY23 and 25 days in FY22. The debtor days stood at 51 days in FY24 as against 41 days in FY23 and 51 days in FY22. The creditor days to 154 days in FY24 as against 100 days in FY23 and 135 days in FY22. The credit from suppliers is dependent on the payments as and when received from the customers. Acuite believes that working capital requirements are expected to remain at similar levels due to the nature of the work orders in hand and to be executed over the medium term.

#### Ongoing Litigation- NBCC "GREEN VIEW" dispute

RICPL was awarded to construct an under-construction "Green View" project by National Buildings Construction Company (NBCC) in 2014 with cost and risk of the previous contractor. After 4 years, post completion and defect liability period being over, concerns were raised about cracks and structural damages in the building "Green View" which was deemed unfit for residency. The two entities had filed lawsuits against each other pertaining to the issues. NBCC issued a lawsuit claiming damages of Rs. 750 Cr. on RICPL as well as 20 other contractors. Presently, the legal proceedings are impending under the Delhi High Court and any adverse decision favouring NBCC, can impact the credit profile of the company. This potential consequence will remain a significant sensitivity factor over the medium term.

#### Competitive and fragmented nature of industry

With increased focus of the central government on the infrastructure sector, RICPL is expected to reap benefits over the medium term. However, most of its projects are tender-based and face intense competition, which may hence require it to bid aggressively to get contracts. Acuite believe that the company is susceptible to volatility in margins due to intense competition in infrastructure industry.

## Rating Sensitivities

- Elongation in working capital cycle
- Movement in revenues and margins
- Risk related to ongoing litigation with NBCC

## Liquidity Position

### Adequate

The company's liquidity position is adequate marked by net cash accruals of Rs.50.05 crore in FY24 as against a long-term debt repayment of Rs. 2.63 crore over the same period. The current ratio improved at 1.61 times in FY24 as compared to 1.53 times in FY23 and 1.27 times in FY22. The cash and bank balances stood at Rs 17.06 crore in FY24 as against Rs. 10.87 crore in FY23 and Rs. 12.70 crore in FY22. The Company also had free Fixed deposits of RS. 117 Cr. and Mutual Funds of Rs. 20 Cr. which provides its cushion in the liquidity. The company does not have any debt funded capex plans over the medium term. Additionally, the fund-based limit was utilized at 22.43 per cent for the seven-months ended June 2024. However, the company has efficient working capital management as reflected by low Gross Current Assets (GCA) of 161 days in FY24 as compared to 151 days in FY23 and 182 days in FY22. Acuite believes that the company will maintain adequate liquidity position due to net cash accruals and no major capex plans.

### Outlook: Stable

### Other Factors affecting Rating

None

## Key Financials

### Note on complexity levels of the rated instrument

In order to inform the investors about complexity of instruments, Acuité has categorized such instruments in three levels: Simple, Complex and Highly Complex. Acuité's categorisation of the instruments across the three categories is based on factors like variability of the returns to the investors, uncertainty in cash flow patterns, number of counterparties and general understanding of the instrument by the market. It has to be understood that complexity is different from credit risk and even an instrument categorized as 'Simple' can carry high levels of risk. For more details, please refer Rating Criteria "Complexity Level Of Financial Instruments" on [www.acuite.in](http://www.acuite.in).

### About Acuité Ratings & Research

Acuité is a full-service Credit Rating Agency registered with the Securities & Exchange Board of India (SEBI). The company received RBI Accreditation as an External Credit Assessment Institution (ECAI) for Bank Loan Ratings under BASEL-II norms in the year 2012. Acuité has assigned ratings to various securities, debt instruments and bank facilities of entities spread across the country and across a wide cross section of industries. It has its Registered and Head Office in Kanjurmarg, Mumbai.

**Disclaimer:** An Acuité rating does not constitute an audit of the rated entity and should not be treated as a recommendation or opinion that is intended to substitute for a financial adviser's or investor's independent assessment of whether to buy, sell or hold any security. Ratings assigned by Acuité are based on the data and information provided by the issuer and obtained from other reliable sources. Although reasonable care has been taken to ensure that the data and information is true, Acuité, in particular, makes no representation or warranty, expressed or implied with respect to the adequacy, accuracy or completeness of the information relied upon. Acuité is not responsible for any errors or omissions and especially states that it has no financial liability whatsoever for any direct, indirect or consequential loss of any kind, arising from the use of its ratings. Ratings assigned by Acuité are subject to a process of surveillance which may lead to a revision in ratings as and when the circumstances so warrant.
