For some parts such as metal fuel tanks and front engine frame, they are the sole suppliers of MSIL. The day to day operations of the SML is headed by Mr. Sunandan Kapur. SML has strong operational linkages with MSIL. MSIL also has representation in the Board of Directors of SML. It caters to around 25 per cent of MSIL's demand for sheet metal components and ~80 per cent of its revenue depends on MSIL. Acuité believes that the entity will continue to benefit from its experienced management and its strong linkages with MSIL.

#### > Moderate Financial Risk Profile

SKHG's financial risk profile has remained moderate marked by tangible net worth of Rs. 526.77 crore as on 31 March 2021 against Rs. 488.35 crore as on 31 March 2019. The total debt stood at Rs. 878.69 crores as on 31 March, 2021 as against Rs. 837.62 crore as on March 31, 2020. This includes Rs. 294.56 crores working capital loans, Rs. 425.24 crores of term loans, Unsecured loans from directors of Rs. 35.09 Cr and current portion of long term debt of Rs. 123.80 Cr. The gearing stood high at 1.67 times as on March 31, 2021 against 1.72 times as on March 31, 2020. This is on account of the capital intensive nature of industry. However, interest coverage ratio (ICR) stood comfortable at 3.27 times in FY2021 as against 3.37 times in FY2019. The ICR has deteriorated on account of decrease in profitability in FY2021. The TOL/TNW stood at 2.79 times as on March 31, 2021 as against 2.75 times as on March 31, 2020.

### Weaknesses

#### > Strong dependence and linkages with financial and operational risk profile of MSIL

MSIL is a leading player in the automotive segment in India with market share of ~50 percent. Its revenues and EBITDA stood at Rs. 73,477.30 crore and Rs. 8,456.90 crore respectively in FY2021. The revenues and operating profit have declined 7.12 percent and 21.44 percent respectively as compared to FY2020. SKH Group is primarily engaged in supplying sheet metal components for various models of MSIL. Around 70 percent of the group's revenue comes from MSIL. Therefore, the financial and operating risk profile of MSIL can have a significant impact on SKH Group and will be a key monitoring factor.

### >Cyclicality and competition associated with automotive component industry

The auto component industry is highly competitive due to competition from organized and unorganized players. It is also highly cyclical in nature with growth linked to overall growth in the economy and consumption. Acuité expects SKHG's revenues to be exposed and tied to cyclical demand prospects of the automobile industry mainly four-wheeler and the presence of other players which lead to increased competition.
