## Weaknesses

### • Working capital intensive operations

The operations of the group are working capital intensive in nature marked by high Gross Current Assets (GCA) of 185 days for FY2020 (provisional). However, the GCA of the group in FY2020 (provisional) has marginally improved as compared to the GCA of 205 days for FY2019. This high GCA days was mostly driven by high inventory holding period of 108 days for FY2020 as against 112 days same period last year. Subsequently, the debtor's days has increased to 62 days for FY2020 (provisional) from 49 days for FY2019. High GCA days has led to higher reliance over external borrowings marked by average bank limit utilization of ~90 percent for last six months ended September, 2020.

Acuite believes that the company's ability to maintain its working capital efficiently will remain a key rating sensitivity.

### • Extension of funds in loans and advances

The company has a tangible net worth of Rs.175.46 crore as on 31 March, 2020 (provisional) as against Rs.174.74 crore same period last year. The group has extended loans and advances to its other group companies to the tune of Rs.5.88 crore, and also holds investment in non-core assets to the tune of Rs.36.80 crore as on 31 March, 2020 (provisional) as against Rs.38.49 Crore and Rs.34.52 crore respectively as on 31 March, 2019. The adjusted TOL/TNW stood at 1.86 times as on 31 March, 2020 (provisional) as against 2.72 times as on 31 March, 2019. Acuite believes that the group will maintain a 'Stable' outlook over the medium term on the back of its established track record of operations, experienced management and reputed clientele. The outlook may be revised to 'Positive' in case the group registers higher-than-expected growth in its revenues and profitability while maintaining its liquidity position.
