Company has 2 manufacturing units, 1 in Nagpur and another in Borgaon, Madhya Pradesh. Total capacity of both the units is around 2000 to 2500 tonnes per month.

### Analytical Approach

Acuite has considered the standalone financial and business risk profile of KDUPL to arrive at the rating.

### Key Rating Drivers

#### Strengths

#### • Experience management

KDUPL is managed by its Managing directors, Mr. Mukund Sunderlal Mohta along with other directors, Mr. Ramesh Baldeodas Dujari and Mr. Navin Rajkumar Mohta who collectively possess experience of more than three decades in steel pipes and tubes' industry. The extensive experience has enabled the company to forge healthy relationships with customers and suppliers. Its clientele includes Search and Sell Private Limited, Mahalaxmi Trading Corporation, Tru-Form Engineers, to name a few.

Acuite believes that the company will continue to benefit from its experienced management and established relationships with customers and suppliers.

#### • Steady increase in scale of operations and profitability

The company's operating revenues have been increasing year on year, marked by operating revenue of Rs.113.82 crore in FY2020 as against Rs.106.30 crore in FY2019 and Rs.91.75 crore in FY2018. Operating margins stood at 3.57 per cent in FY2020 as against 3.22 per cent in FY2019. Further, Profit after Tax (PAT) has stood at 0.28 per cent in FY2020 as against 0.14 per cent in FY2019.

Acuite believes that the scale of operations and profitability will remain muted in the near medium term due to COVID-19 impact.

#### • Moderate working capital operations

KDUPL has moderate working capital operations marked by Gross Current Assets (GCA) of 133 days in FY2020 as against 141 in FY2019. The inventory and debtors' levels stood at 60 and 72 days in FY2020 as against 45 and 94 days in FY2019. Further, the average utilization of bank limits stood at ~96 per cent in the last six months ending September, 2020.

Acuite believes that the company's efforts to maintain the working capital operations efficiently will be key rating sensitivity.

## Weaknesses

### • Average financial risk profile

The financial risk profile is average marked by moderate net worth and debt protection measures and high gearing. The net worth of the company stood at Rs.14.39 crore FY2020 as against Rs.14.06 crore as on 31 March, 2019. The gearing of the company stood high at 1.38 times as on March 31, 2020 as against 1.39 times as on 31 March, 2019. Total outside Liabilities/Tangible Net Worth (TOL/TNW) stood at 2.65 times as on 31 March, 2020 as against 2.75 times as on 31 March, 2019. Interest Coverage Ratio (ICR) stood at 1.83 times in FY2020 as against 1.92 times in FY2019. Debt Service Coverage Ratio (DSCR) stood at 1.03 times for FY2020 as against 1.20 times in FY2019.

### • Highly competitive and fragmented industry

The steel pipes and tubes industry is highly competitive and fragmented marked by the presence of many organised and unorganised players in this industry, thus putting pressure on the profitability margins of the company. However, this risk is partially mitigated by company's experienced management and long-standing relationships with its reputed clientele.

## Liquidity Position: Stretched

KDUPL has stretched liquidity marked by moderate net cash accruals to its maturing debt obligations. The company generated cash accruals of Rs.1.71 crore in FY2020 as against Rs.1.62 crore in FY2019, while its maturing debt obligation was Rs.1.61 crore in FY2019 as against Rs.1.03 crore in FY2018. The company's working capital operations are moderate as marked by gross current asset (GCA) days of 133 in FY2020. Further, the reliance on working capital borrowings is high, the cash credit limit in the company remains utilised at ~80 percent during the last 6 months' period ended September, 2020. The current ratio of the company stood at 1.23 times as on March 31, 2020.

Acuite believes that the liquidity will remain stretched due to moderate net cash accruals as against maturing debt obligations.

## Outlook: Stable

Acuite believes that KDUPL will continue to benefit over the medium term from the industry experience of its management. The outlook may be revised to 'Positive' if there is a substantial and sustained improvement in KDUPL's operating income or profitability, while maintaining its working capital cycle. Conversely, the outlook may be revised to 'Negative' in case of weakening of its capital structure and debt protection metrics.
