**Rationale for the rating**

The reaffirmation of the rating factor's in the SRG Housing Finance Limited's (SHFL) experienced management, established presence in its area of operations, healthy capital structure and moderate financial risk profile. ### **Key Rating Drivers**

#### **Strength**

##### **Established presence in the areas of operations.**

SRG Housing Finance Limited commenced its lending operations as a housing finance company since 2002. SHFL has established its presence as a housing finance company especially in Rajasthan. The promoter of the company Mr. Vinod Kumar Jain has over three decades of experience in financial services. Mr. Jain has been associated with financial services sector since 1991 by way of providing vehicle financing. Later, the promoter family shifted its focus on Housing Finance. The second generation of family is actively involved in the business. SHFL primarily extends housing loans, loan against property. The company majorly caters to self-employed borrowers in rural and semi-urban areas. SHFL focuses on Tier II & Tier III cities with ~90 percent of loan portfolio in rural areas and ~8 percent in urban areas followed by ~2 percent in semi-urban areas. The company has modest loan portfolio of Rs.866.64 crore as on H1FY26 having average ticket size of Rs. 6-8 lakhs. SHFL has gradually diversified its operations from Rajasthan to Madhya Pradesh, Gujarat, Karnataka, Andhra Pradesh and Maharashtra over the years and has created a borrower base of ~13,549 borrowers as on March 31, 2025.

Acuité believes that the company will benefit from its experienced promoters and established presence in financial services industry.

##### **Healthy capital structure & financial risk profile**

SHFL's networth stood at Rs. 279.23 Cr. as on H1FY26 and reported a healthy capital adequacy ratio (CAR) of 42.68 percent majorly comprising Tier 1 capital. The company's leverage indicators stood at 2.45 times as on Sept 30, 2025 and 3.08 times as on March 31, 2024. The company has a diversified lender profile comprising Banks and NBFC/FI's, with total debt of Rs. 685.36 Cr. outstanding as on Sept 30, 2025.

SHFL's AUM grew from Rs.759.36 Cr. as on FY25 to Rs.866.64 as on H1FY26, owing to the healthy disbursement growth. SHFL expanded its branch network from 84 branches in FY24 to 90 branches in FY25. SHFL's Net Interest Margin (NIM) stood at 10.77 percent as on H1FY26 (10.63 percent as on March 31, 2025). On account of recent capital infusion the company's Return on Average Assets (RoAA) stood at 3.19 percent as on March 31, 2025 (3.59 percent as on March 31, 2024). Operating Expense to Earning Assets, remained stood at 7.77 percent as on March 31, 2025 as against 8.08 percent as on March 31, 2024. During FY25, the company reported PAT of Rs. 24.39 Cr. as compared with FY24 it stood at Rs.21.06 Cr.

Acuité believes that the company's comfortable capitalization levels will support its growth plans over the medium term.

#### **Weakness**

##### **Small scale of operations & geographical concentration**

The company extends loan against property to borrowers who are self-employed and are engaged in small businesses and trading activities in Tier II & Tier III areas. With a loan book of Rs.866.64 crore as on H1FY26, the company has small scale of operations. The company's operations are concentrated in Rajasthan with ~44.47 percent of the overall outstanding portfolio as on March 31, 2025. SHFL has started to diversify its geographical presence by operating branches in Madhya Pradesh, Gujarat, Andhra Pradesh, Karnataka and Maharashtra. Occurrence of events such as slowdown in economic activity or shifting of

activity to other geographies could impact the cash flows of the borrowers, thereby impacting the credit profile of SHFL.

Acuité believes that the company's ability to scale-up its business model & franchise as well as geographically diversify its operations are critical.

### **Susceptible to inherent risks in LAP segment amidst relatively low seasoned portfolio; likelihood of elevated stress in asset quality**

SHFL's product portfolio comprises housing loans and loan against property having an average tenure of 6-7 years. The company's loan book stood at Rs. 866.64 Cr. as on H1FY26 has grown significantly from Rs. 601.59 Cr. as on March 31, 2024. Due to substantial growth in loan book in the last couple of years, ~45 percent of the overall portfolio has a seasoning of less than two years. 95% of the entire loan book including LAP book is against residential self occupied property. The LAP book will always be less than 30% as per NHB guidelines, limiting risk. Additionally, the historic performance of the company has not shown any significant difference in delinquencies in HL or LAP Portfolio.

The company's gross non performing assets (GNPA) levels (at PAR 90+ days past due) stood at 1.88 percent as on H1FY26 and 1.84 percent as on FY25 and 2.29 percent as on March 31, 2024. The GNPA levels for March 31, 2025 were at 1.84 percent with delinquencies in softer buckets of 0-30 dpd and 31-90 dpd at 3.55 percent and 3.62 percent respectively. Despite these delinquencies, SHFL has maintained GNPA at lower levels characterizing behaviour of portfolio having exposure to rural & semi-urban areas. The overall collection efficiency stood at an average of ~90.19 percent for 6-month period ended Sept 30, 2025. While the housing finance as an asset class has been relatively resilient, low portfolio seasoning coupled with any rising share of LAP could result into asset quality pressures.

Acuité believes that the company's ability to maintain its asset quality given low seasoning will remain a key rating monitorable.
