### **Key Rating Drivers**

# Strengths

#### Experienced Management with established track record of operations

The Kolluri Group (KG)was initially established in the year 2008 by the Kolluri Family. Kolluri Impex Private Limited was incorporated in the year 2012 after incorporation of Pavan Traders as a proprietorship firm in 2008 by the proprietor Mr. Pavan Kumar along with his father Mr. Hari Babu. The group has established track record of more than a decade in trading business of coal, sponge iron and steel products. The promoters of the group possess vast experience of over three decades in this industry and are ably assisted by an experienced second line of management. Operating Income for the FY23 (Prov) stood at Rs 436.69 crore as against Rs. 321.67 crore for FY22. The reason for growth in turnover is mainly due to increase in the prices of raw materials. The company is geographically diversified in southern parts such as Hyderabad, Telangana & Andhra Pradesh. Acuité believes that group will benefit from experienced management which will help the group to maintain long standing relations with its customers and suppliers in the medium term.

Acuité believes that in the absence of any further significant capex plans, the financial risk profile of the group is expected to remain moderate in near to medium term.

## Weaknesses

### Highly fragmented and competitive industry

The group operates in a highly competitive and fragmented industry and faces tough competition from large number of organized as well as unorganized players affecting the margins.

#### Inherent risk of capital withdrawal in a partnership firm

The Firm is susceptible to the inherent risk of capital withdrawal given its constitution as a partnership. Any significant withdrawal from the partner's capital will have a negative bearing on the financial risk profile of the firm.

## **Rating Sensitivities**

Elongation in working capital cycle resulting in adeqaute liquidity
