**Rating Rationale**

Acuité has downgraded its long-term rating to '**ACUITE D**' (**read as ACUITE D**) from '**ACUITE BB+**' (**read as ACUITE double B plus**) on the Rs. 10.00 Cr. bank facilities of Satya Sai Transport (SST). The rating is now flagged as "Issuer Not-Cooperating" on account of information risk and is based on the best available information.

The downgrade is based on delays in debt servicing being reflected in the Credit Information Bureau Report and other publicly available information. Additionally, the company has not provided latest No Default Statements (NDS) for last 3 months consecutively. Further, there was also a search operation conducted by the Enforcement Directorate (ED) in November 2025 at the firm premises, however, further action for the same is awaited.

**About the Company**

Incorporated in 2005 by Mr. G. Uma Sai Prasad, Satya Sai Transport (SST) is a Vishakapatnam-based firm is engaged in providing manpower, logistics, and transport services to corporates across retail, food and grocery, pharmaceutical and consumer goods sectors. **Non-cooperation by the issuer/borrower**

Acuité has been requesting for No Default Statements (NDS); however, despite multiple requests; the Company's management has remained non-cooperative and not submitted the NDS for the preceding 03 consecutive months. Acuité believes that information risk is a critical component in such ratings, and noncooperation by the issuer along with unwillingness to provide information could be a sign of potential deterioration in its overall credit quality. This rating is therefore being flagged as "Issuer not-cooperating", in line with prevailing SEBI regulations and Acuité's policies.

**Limitation regarding information availability**

This rating is based on information available from sources other than the issuer / borrower (in

the absence of information provided by the issuer / borrower) . Acuite endeavoured to gather information about the entity/industry from the public domain. Any rating with the suffix 'Issuer not cooperating' is assigned without any management interaction with the issuer entity or any data / information from the entity. Sometimes this non co-operation by a rated entity may be due to a result of deterioration in the credit risk profile of the entity. Therefore, Acuité cautions lenders and investors regarding the use of such information, on which the indicative credit rating is based.

### Note on complexity levels of the rated instrument

In order to inform the investors about complexity of instruments, Acuité has categorized such instruments in three levels: Simple, Complex and Highly Complex. Acuite's categorisation of the instruments across the three categories is based on factors like variability of the returns to the investors, uncertainty in cash flow patterns, number of counterparties and general understanding of the instrument by the market. It has to be understood that complexity is different from credit risk and even an instrument categorized as 'Simple' can carry high levels of risk.
