

## Press Release

Quadrillion Finance Private Limited

January 07, 2022

### Ratings Assigned and Reaffirmed

Product	Quantum (Rs. Cr)	Long Term Rating	Short Term Rating
<b>Non-Convertible Debentures (NCD)</b>	15.00	ACUITE BBB   CE   Stable   Assigned; converted to Final from Provisional	-
<b>Non-Convertible Debentures (NCD)</b>	10.00	ACUITE BBB   CE   Stable   Reaffirmed	-
<b>Total</b>	25.00	-	-

#### Rating Rationale

Acuite has converted from provisional to final long term rating of '**ACUITE BBB (CE)**' (read as **ACUITE Triple B (Credit Enhancement)**) on the Rs.15.00 Cr. of non-convertible debentures of Quadrillion Finance Private Limited (QFPL). The outlook is '**Stable**'.

Acuite has reaffirmed the long term rating of '**ACUITE BBB (CE)**' (read as **ACUITE Triple B (Credit Enhancement)**) on the Rs.10.00 Cr. of non-convertible debentures of Quadrillion Finance Private Limited (QFPL). The outlook is '**Stable**'.

The rating factors in Garagepreneurs Internet Private Limited's (GIPL's) healthy capitalisation buffers with a gearing of 1.99 times as on March 31, 2021, its demonstrated ability in raising capital (~Rs.88 Cr since inception till December 2020). The rating furthers factors in experienced management team with diversified experience in respective domains as well as adequate liquidity and credit buffers. The rating also takes into account weak earnings profile and inherent risks involved in QFPL's business given moderate borrower profile and unsecured nature of lending with 90dpd+ (including write offs) at 3.26 percent (on-book basis) as on March 31,2021. Going forward, GIPL's ability to improve asset quality and earnings profile, strengthen its capitalization levels while growing the portfolio in a continuously evolving Covid-19 pandemic would be key monitorables.

#### Rationale for the Rs 15.00 Cr transaction:

The transaction has Partial Credit Enhancement (PCE) in the form of unconditional, irrevocable, payable on demand guarantee by Northern Arc (Credit Enhancer/ Guarantor) covering 15 percent of the initial principal value

of debentures. The level of guarantee as a percentage of the aggregate outstanding principal of debentures is capped at 25 percent. Additionally, the debentures have security by way of a first ranking, exclusive and continuing charge on identified receivables with 110 percent margin in favour of Trustee. QFPL shall make payments of interest and principal amounts due along with all other obligations (if any) under the Transaction Document by T-3 business days. In case of non-payment by QFPL, the Trustee shall invoke the PCE.

The final rating is assigned based on the fulfilment of the structure, terms and covenants detailed in the executed trust deed, deed of guarantee, legal opinion, debenture trust agreement, deed of hypothecation and other documents relevant to the transaction.

### **About Garagepreneurs Internet Private Limited (GIPL)**

Bengaluru-based GIPL was incorporated in 2015. The company owns and operates the app 'Slice', an online platform providing various financial services to its users including facilitating loan from NBFCs like DMI Finance Private Limited, Quadrillion Finance Private Limited (wholly owned subsidiary) and others. The company is promoted by Mr. Rajan Bajaj and has raised capital of ~Rs.88 Cr. since inception till December 31, 2020, from multiple investors including Gunosy Capital, FinUp Technologies, Simile Ventures, Navi Technologies and Blume Ventures.

### **About Quadrillion Finance Private Limited (QFPL)**

Incorporated in 2018, Bengaluru-based Quadrillion Finance Private Limited (QFPL) is a Type -II NBFC-ND is a wholly owned subsidiary of Garagepreneurs Internet Private Limited (GIPL). The company is engaged in the business of providing finance and its product offerings' include slice card, cash transfers to bank and paytm wallet, e-gift vouchers. These products are offered through its digital lending platform, Slice. The company's target customers are young individuals including freelancers, college students, and salaried professionals. The company reported AUM of Rs.684.26 Cr. as on Sept 30,2021.

### **About Northern Arc Capital Limited ("Northern Arc")**

Northern Arc, previously known as IFMR Capital Finance Ltd., is a Non-Deposit taking Non-Banking Financial Company (ND-NBFC) incorporated in 1989. It is involved in the placement (arranging funding for its clients via loan syndication, securitisation and assignment among others) and lending business. The company acts as a link between mainstream capital markets investors and high-quality last mile lending institutions and businesses. The company's business is categorized as finance sector exposure, i.e., microfinance, affordable housing finance, commercial vehicle finance, consumer finance, agri-finance and small business loans, and non-finance sector exposure, i.e., mid-market finance and corporates.

Northern Arc reported Assets Under Management (AUM) of Rs. 4,953.7 Cr. (provisional) as on March 31, 2021 as against Rs. 4,484 Cr. as on March 31, 2020. Northern Arc's asset quality moderated with GNPA (90+dpd) at 2.28% (provisional) as on March 31, 2021 as against 0.5% as on March 31, 2020. The company's Profit After Tax (PAT) stood at Rs. 56.05 Cr (provisional) as on March 31, 2021 (Rs. 89.62 Cr as on March 31, 2020). The company's debt/equity ratio was 1.96 times as on March 31, 2020 as compared to 2.55 times as on March 31, 2019. However, the debt/equity ratio increased to 2.53 times as on March 31, 2021.

## **Analytical Approach**

### **Extent of Consolidation**

Full Consolidation

### **Rationale for Consolidation or Parent / Group / Govt. Support**

Acuite has considered the consolidated business and financial risk profile of the Garagepreneurs Internet Private Limited (GIPL) to arrive at this rating. This approach is in view of common management besides financial and technology support from GIPL to QFPL. Acuite has further factored in the benefits arising from the structure while arriving at the final rating. The suffix (CE) indicates credit enhancement arising from the Partial Credit Enhancement (PCE) in the form of unconditional, irrevocable, payable on demand guarantee covering 15 percent of the initial principal value of the facility amount. The strength of the underlying structure and continued adherence to the same is central to the rating.

Accounting for the Partial Credit Enhancement, the agency has enhanced the rating of the facility to ACUITE BBB (CE)/ Stable. The Credit Enhancement (CE) in the rating is solely for the rated issue and its terms and structure. The notched up rating of the loan facility incorporates the PCE in the form of guarantee by Northern Arc Capital Limited ("Northern Arc"), acting as the Credit Enhancer/ Guarantor.

**QFPL's standalone (unsupported) rating: ACUITE BBB-/ Stable**

### **Key Rating Drivers**

#### **Strengths**

##### **Strength of underlying structure**

The transaction has a PCE in the form of unconditional, irrevocable, payable on demand guarantee by Northern Arc covering 15 percent of the issue size of debentures. The level of guarantee as a percentage of the aggregate outstanding principal of the debentures is, however, capped at 25 percent.

If due to the amortisation of the debentures, the credit enhancement percent exceeds 25 percent of the aggregate outstanding principal of the debentures, the Guarantee Cap shall be reduced to 25 percent of the aggregate outstanding principal of the debentures (Revised Guarantee Cap).

The structure envisages that if the rating of QFPL reaches BBB+ at a standalone level, the Credit Enhancement percent shall completely fall off. This will be subject to rating of the facility being maintained at BBB+ post the guarantee fall off.

QFPL shall make payments of interest and principal amounts due along with all other obligations (if any) under the Transaction Document on T-3 business days. In the event of failure of the Issuer to comply, on T-2 Business Days, the Trustee shall invoke the PCE and the credit enhancement shall be dipped on T-1 Business days.

The Debentures shall be secured by way of a first ranking, exclusive and continuing charge on identified receivables. The Hypothecated Receivables shall at all times be equal to the value of 1.1 times the outstanding amounts of the facility.

In case of Issuer rating (as per Rating Agency's view) downgrade to BB- or lower, the Issuer will ensure that the percentage of outstanding principal value of PAR > 0 loans in the hypothecated pool does not exceed 15 percent of the outstanding principal value of the hypothecated pool.

Acuité believes that the structure provides adequate covenants to safeguard the interest of the investors.

### **Comfortable capitalisation buffers**

GIPL has demonstrated track record of raising capital of ~Rs.88 Cr. since its inception till December 31, 2020, which has supported growth of the group and its capital structure. QFPL reported Assets Under Management (AUM includes on book and off book exposure) of Rs.308 Cr. as on March 31, 2021 (~Rs.164 as on March 31, 2020 and ~Rs.43 Cr as on March 31, 2019), of which Rs.149 Cr. (~48 percent) comprised owned portfolio and remaining Rs.159 Cr. (~52 percent) off-book portfolio (Rs 684.26 Cr as on Sept 2021). This growth in AUM is supported by regular capital infusion coupled with co-lending partnership with established NBFCs like DMI Finance Private Limited, Quadrillion Finance Private Limited (wholly owned subsidiary) and others.

GIPL has comfortable capitalisation and gearing levels. GIPL's networth (including compulsorily convertible debentures) stood at ~Rs.67 Cr. with gearing of 1.99 times as on March 31, 2021 and Capital Adequacy Ratio (CAR) (GIPL) of 45.09 percent as on June 30, 2021

### **Ability to attract funding from Investors; experienced management**

GIPL is engaged in providing consumer finance services through its wholly owned subsidiary namely, QFPL. The loans are originated through its online platform, 'Slice' which also facilitates loan origination for other NBFCs. GIPL has attracted funding of ~Rs.88 Cr. till December 2020 in its series A and B fund raising from a mix of early stage investors, institutional investors and individual investors,

which include FinUp Technologies (China based fintech company), Blume Ventures (India based early stage venture fund), Navi Finserv Private Limited (Fintech company) and Gunosy Capital (Singapore based investment fund). Further, the promoter of GIPL, Mr. Rajan Bajaj, has an experience of 5 years in ecommerce industry and holds 18.35 percent stake (diluted basis) in GIPL. He is supported by experienced board comprising Mr. Ramadoss Krishnan, ex-banker having about 45 years of experience in BFSI space and Ms. Mahima Garg, having over a decade of experience in financial services sector. The day-to-day affairs of the company are managed by experienced team having an average experience of about a decade.

Acuité believes that GIPL's fund raising ability is likely to prove beneficial given the underpenetrated market that it caters to.

## **Weaknesses**

### **Susceptible to inherent risks in unsecured lending**

QFPL's borrower profile comprises of young individuals in age group 18-29 years including freelancers, college students and salaried professionals with moderate credit profile which exposes the company to asset quality risks given the vulnerability of such borrowers to economic shocks. First time borrowers contributed ~79 percent of QFPL's AUM and students comprised ~ 68 percent of the AUM followed by salaried at ~30 percent) and freelancers at ~2 percent as on December 31,2020.

During FY2021, QFPL strengthened its asset recognition and provisioning policy. GNPA is now recognised at 90dpd from 180 dpd with provision coverage of 75 percent for assets in 90-180 dpd bucket and 1.5 percent instead of 0.4 percent for assets upto 90dpd. QFPL saw Improvement in GNPA (on-book basis) to 1.12 percent as on March 31, 2021 as against 4.07 percent as on March 31, 2020. Nevertheless, considering write-offs of Rs.3.23 Cr. (on-book basis) during FY2021 due to pandemic-induced stress, adjusted GNPA stood at 3.26 percent. Given the significant traction in AUM recently, the quality of underwriting through different economic cycles and geographies is yet to be established.

### **Moderate earnings profile**

On a consolidated basis, GIPL's losses widened to Rs.8.52 Cr. during FY2021 as against losses of Rs.1.22 Cr. during FY2020, despite steady growth in revenue (This decline in profitability is due to higher provisioning on AUM to Rs.12.51 Cr. as against Rs.3.12 Cr. during FY2020)) recognised towards Covid-19 related stress and strengthening of provisioning policy. Higher operating expenses of Rs.56.93 Cr during FY2021 (Rs.37.02 Cr. during FY2020) as a result of initial operational setup also attributed to decline in profitability.

### **Rating Sensitivities**

- Financial and technical support from GIPL
- Movement in collection efficiency and asset quality

- Movement in profitability parameters
- Changes in regulatory environment

### Assessment for Adequacy of Credit Enhancement

QFPL has significant experience in the auto financing segment, and its moderate capital position has been bolstered by capital infusions. Thus, even after considering risks such as possible asset quality deterioration during the pandemic, Acuite believes that the credit enhancement will stand adequate in all scenarios and in the event of any requirement, Northern Arc will provide the necessary support.

### Material Covenants

GIPL is subject to covenants stipulated by its lenders/investors in respect of various parameters like capital structure, asset quality among others.

### Liquidity Position: Adequate

QFPL has well matched liquidity profile as on Sept 30, 2021 with no negative cumulative mismatches up to one year bucket. Unencumbered cash and cash equivalents at Rs 22.02 Cr. as on Sept 30, 2021.

### Outlook: Stable

Acuite believes that GIPL will maintain 'Stable' outlook over the near to medium term on account of support healthy capital position and support from investors. The outlook may be revised to 'Positive' in case GIPL demonstrates significant and sustainable growth in its scale of operations while mitigating asset quality risks in portfolio. Conversely, the outlook may be revised to 'Negative' in case of any challenges in scaling up operations or in case of any sharp deterioration in asset quality and profitability levels.
