Unsupported Rating

Not Applicable

Non-cooperation by the issuer/borrower

Acuite has been requesting for No Default Statements (NDS); however, despite multiple requests; the Company's management has remained non-cooperative and not submitted the NDS for the preceding 03 consecutive months. Acuite believes that information risk is a critical component in such ratings, and noncooperation by the issuer along with unwillingness

to provide information could be a sign of potential deterioration in its overall credit quality. This rating is therefore being flagged as "Issuer not-cooperating", in line with prevailing SEBI regulations and Acuité's policies.

Limitation regarding information availability

The rating is based on information available from sources other than the issuer / borrower (in the absence of information provided by the issuer / borrower). Acuité endeavored to gather information about the entity / industry from the public domain. Therefore, Acuité cautions lenders and investors regarding the use of such information, on which the indicative credit rating is based.

Note on Complexity Levels of the Rated Instrument

In order to inform the investors about complexity of instruments, Acuite has categorized such instruments in three levels: Simple, Complex and Highly Complex. Acuite's categorisation of the instruments across the three categories is based on factors like variability of the returns to the investors, uncertainty in cash flow patterns, number of counterparties and general understanding of the instrument by the market. It has to be understood that complexity is different from credit risk and even an instrument categorized as 'Simple' can carry high levels of risk.
