Rating Rationale

Acuite has reaffirmed the long-term rating to '**ACUITE BB-**' (read as **ACUITE double B Minus**) on the Rs. 200 Cr. bank facilities of Jagatjit Industries Limited (JIL). The outlook is '**Stable**'.

Rationale for Rating

The rating reaffirmation takes into account Q2FY2025 performance of JIL. Revenue of the company remained steady in Q2FY2025 on a quarter basis as it recorded revenue of Rs. 137.18Cr. in Q2FY2025 as against Rs. 140.25 Cr. in Q2FY2024. The operating margin declined due to delayed excise policy implementation resulting a change in pricing of the company's products. The rating continues to derive support from established presence in the domestic market, relationships with reputed clientele, and moderate financial risk profile. However, the rating is constrained on account of Intense competition and highly regulated nature of liquor industry and susceptibility to the profit due to the raw material's prices. Going forward, the company's operating performance in the near term and its impact on the overall financial risk profile will remain a key rating monitor.

Weaknesses

Intense competition and highly regulated nature of liquor industry:

Furthermore, every state has its set of regulations with respect to distribution and retail channels, registration, taxation, and pricing of alcohol, ban on advertising, raw material availability, varying tax structures in different states pose challenges and restrict the industry's growth. The industry is also administered through a strict license regime. Different licenses are mandated at stages of production and distribution, including separate ones for manufacturers, distributors, and retailers. Any adverse change in the government's license authorisation policy, such as discontinuation or caps on renewal of licenses or sharp hike in license fees, could affect the entity.
